Disclaimer

Namen, Beschreibungen, Nummern von Motoren, Fahrzeugen, Produkten, Herstellern etc. sind nur zu Vergleichszwecken aufgeführt. Die im Katalog enthaltenen Teile sind Ersatzteile für die aufgeführten Applikationen.

Names, descriptions and numbers of engines, vehicles, products, manufacturers, etc. are mentioned solely for the purpose of comparison. The parts contained in the catalogue are spare parts for the applications listed.

Les noms, les descriptions, les numéros de moteurs, les véhicules, les produits, les constructeurs, etc., ne sont donnés qu'à des fins de comparaison. Les articles mentionnés dans le catalogue sont des pièces de rechange destinées aux applications stipulées.

Los nombres, las designaciones y los números de motores, vehículos, productos o de fabricantes, etc., se indican sólo a modo de comparación. Las piezas incluidas en el catálogo son repuestos para las aplicaciones indicadas.

Nomi, descrizioni, numeri di motori, veicoli, prodotti, produttori, eccetera sono riportati solo per poter fare confronti. I componenti contenuti nel catalogo sono ricambi per le applicazioni citate.

Названия, описания и номера двигателей, транспортных средств, продуктов, изготовителей и т. п. приводятся только для сравнения. Содержащиеся в каталоге части представляют собой запасные части для приведенных продуктов.

أسماء وشروح وأرقام المحركات والسيارات والمنتجات والشركات المنتجة وغيرها مذكورة فقط بهدف المقارنة.
والأجزاء المذكورة في الكتالوج عبارة عن قطع غيار للتطبيقات المذكورة.

WICHTIGE HINWEISE

Alle Angaben in diesem Katalog sind unverbindlich. Für deren Richtigkeit und Vollständigkeit können wir keine Haftung übernehmen. Informationen über eventuelle Fehler im Katalog sind uns stets willkommen und werden in den zukünftigen Ausgaben korrigiert.

Namen, Beschreibungen und Nummernangaben von Fahrzeugen oder Herstellern u. ä. sind ebenso wie die Original-Teilnummern der Fahrzeug- und Motorenhersteller nur zu Vergleichszwecken aufgeführt. Entsprechende Angaben sind keine Herkunftsbezeichnungen und dürfen gegenüber Dritten nicht verwendet werden. Bitte beachten Sie zudem, dass Änderungen der Ausrüstung durch die Fahrzeug- oder Motorenhersteller bzw. Änderungen der Bezeichnungen nicht ausgeschlossen werden können. Für die Anwendung der Vergleichslisten können wir daher keine Haftung übernehmen.

Wir behalten uns ausdrücklich vor, die Produktspezifikationen, die Werkstoffe, das Aussehen und den Lieferumfang unserer Produkte jederzeit zu ändern. Die Abbildungen im Katalog sind daher unverbindlich.

Vor dem Einbau ist stets zu prüfen, ob das erworbene Produkt für den beabsichtigten Verwendungszweck geeignet ist.
Eine Aussage über eine bestimmte Beschaffenheit oder eine Eignung für einen bestimmten Einsatzzweck kann aus unseren Angaben nicht abgeleitet werden. Insbesondere gilt es zu beachten, dass die im Katalog angebotenen Produkte nicht für den Einsatz in Luft- und Raumfahrzeugen bestimmt sind.
Bei der Verwendung in Off-Highway Motoren (z. B. Marine-, Stationär- oder Bahn-Motoren) ist darauf zu achten, dass bei gleicher Motorbezeichnung unterschiedliche Motorenteile (z. B. Kolben) zum Einsatz kommen können. Ggf. ist vor dem Einbau der Produkte daher der fachkundige Rat des Herstellers oder dessen autorisierter Vertragswerkstatt einzuholen.
Wir weisen zudem darauf hin, dass der Einbau stets durch unterwiesenes Fachpersonal zu erfolgen hat. Abbildungen, Schemazeichnungen und andere Angaben dienen der Erläuterung und Darstellung und können nicht als Grundlage für den Einbau verwendet werden.

Jegliche Vervielfältigung, Nachahmung, Verbreitung oder öffentliche Wiedergabe dieses Kataloges, auch auszugsweise, ist nur mit unserer vorherigen schriftlichen Zustimmung und einer entsprechenden Quellenangabe gestattet. Mit Erscheinen dieses Katalogs verlieren alle früheren Ausgaben ihre Gültigkeit.

ZERTIFIZIERUNGEN

MS Motorservice International GmbH verfügt über ein nach ISO 9001 zertifiziertes Qualitätsmanagementsystem und ein nach ISO 14001 zertifiziertes Umweltmanagementsystem.

MOTORSERVICE GRUPPE
QUALITÄT UND SERVICE AUS EINER HAND

Die Motorservice Gruppe ist die Vertriebsorganisation für die weltweiten Aftermarket-Aktivitäten von Rheinmetall. Sie ist ein führender Anbieter von Motorkomponenten für den freien Ersatzteilmarkt. Mit den Premiummarken Kolbenschmidt, Pierburg, TRW Engine Components sowie den Marken BF und turbo by Intec bietet Motorservice seinen Kunden aus Handel und Werkstatt ein breites und tiefes Sortiment in Spitzenqualität.

RHEINMETALL
TECHNOLOGIEN FÜR DIE MOBILITÄT DER ZUKUNFT

Als weltweiter Automobilzulieferer nimmt Rheinmetall mit seiner Kompetenz in den Bereichen Luftversorgung, Schadstoffreduzierung und Pumpen sowie bei der Entwicklung, Fertigung und Ersatzteillieferung von Kolben, Motorblöcken und Gleitlagern Spitzenpositionen auf den jeweiligen Märkten ein. Die Produktentwicklung erfolgt in enger Kooperation mit renommierten Automobilherstellern.

KNOW-HOW TRANSFER
FACHWISSEN VOM EXPERTEN

WELTWEITE SCHULUNGEN
Direkt vom Hersteller

Jährlich profitieren rund 4.500 Mechaniker und Techniker von unseren Schulungen und Seminaren, die wir weltweit vor Ort oder auch in unseren Schulungszentren in Neuenstadt, Dormagen und Tamm (Deutschland) durchführen.

TECHNISCHE INFORMATIONEN
Aus der Praxis für die Praxis

Mit unseren Produkt Informationen, Service Informationen, technischen Broschüren und Postern sind Sie immer auf dem neuesten Stand der Technik.

TECHNISCHE VIDEOS
Wissensvermittlung per Video

In unseren Videos finden Sie praxisbezogene Einbauhinweise und Systemerklärungen rund um unsere Produkte.

YouTube

PRODUKTE IM FOKUS ONLINE
Unsere Lösungen anschaulich erklärt

Erfahren Sie durch interaktive Elemente, Animationen und Videoclips Wissenswertes über unsere Produkte im und um den Motor.

GRUNDLAGEN

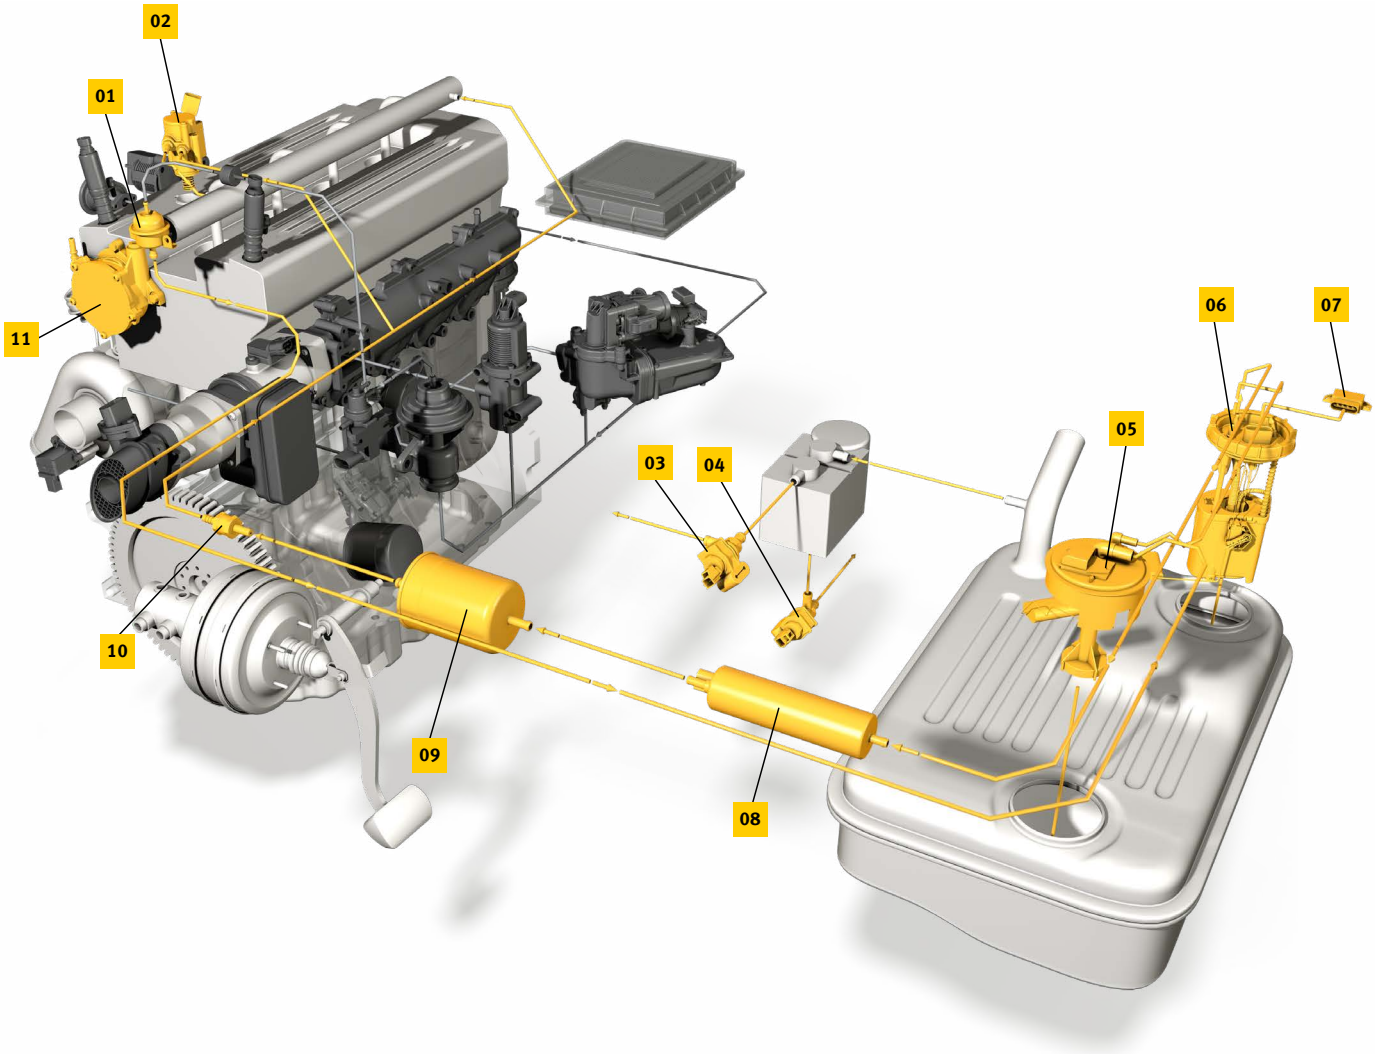
1. KRAFTSTOFFVERSORGUNG

UMFANGREICHES PRODUKTPROGRAMM IN BEWÄHRTER QUALITÄT

Von Kraftstoffpumpen, Fördermodulen und Tankgebern, über Systemdruckreglern, Rückschlagventilen und Regenerierventilen bis hin zu AKF-Ventilen: Motorservice bietet ein breites Spektrum an unverzichtbaren Komponenten im Kraftstoffsystem – in bewährter Pierburg Qualität.

PRODUKTPROGRAMM

01 Kraftstoffdruckregler
02 Kraftstoff-Hochdruckpumpe
03 Aktivkohlefilter-Regenerierventil
04 Aktivkohlefilter-Absperrventil
05 Tankgebereinheit
06 Kraftstoffördermodul (In-Tank)
07 Steuergerät für Kraftstoffpumpe
08 Kraftstoffpumpe (In-Line)
09 Kraftstofffilter (Kolbenschmidt)
10 Kraftstoff-Rückschlagventil
11 Tandempumpe Kraftstoff / Vakuum



KRAFTSTOFFFÖRDERMODULE

Kraftstoffördermodule sitzen im Tank. Sie bestehen aus dem Flanschdeckel, der Kraftstoffpumpe im Schlingertopf sowie weiteren möglichen Anbauten wie Tankgeber oder Druckregler.

Motorservice führt neben kompletten Kraftstoffördermodulen auch Anbauteile wie Tankgeber, Dichtungen und servicefreundliche Reparaturkits im Produktprogramm.

ELEKTRISCHE KRAFTSTOFFPUMPEN

Elektrische Kraftstoffpumpen fördern den Kraftstoff mit einem definierten Druck zu den Einspritzventilen. Es gibt sie sowohl fahrzeugspezifisch als auch für den universellen Einsatz in verschiedenen Druck- und Leistungsstufen. In-Line-Kraftstoffpumpen sitzen in der Kraftstoffleitung. In-Tank-Kraftstoffpumpen sind im Tank eingebaut.

Motorservice ist einer der führenden Anbieter von elektrischen Kraftstoffpumpen im Aftermarket.

MECHANISCHE KRAFTSTOFFPUMPEN

Klassische mechanische Kraftstoffpumpen sind vielfach in älteren Fahrzeugen verbaut. Sie werden durch Stößel oder Hebel direkt vom Motor angetrieben. Motorservice hat diverse Typen für ältere Fahrzeuganwendungen in das Produktprogramm aufgenommen.
Mechanische Hochdruckpumpen sorgen bei FSI-, TFSI- und TSI-Motoren von VAG für den nötigen Einspritzdruck von ca. 120 bis 200 bar. Tandempumpen erfüllen die Funktion einer mechanischen Vakuumpumpe und werden zusätzlich zur Kraftstoffförderung genutzt.

STEUERGERÄTE FÜR KRAFTSTOFFPUMPEN

Das Steuergerät ist Teil der bedarfsgerechten Kraftstoffversorgung bei modernen Motoren. Im Gegensatz zur ungeregelten Kraftstoffversorgung wird nur so viel Kraftstoff gefördert, wie benötigt wird. Dies verringert die Leistungsaufnahme und spart Kraftstoff.
Die Kennline ist jeweils spezifisch für Fahrzeugmotor und -modell.

Mit unserem Programm an 19 Steuergeräten in OE-Qualität erreichen Sie eine Marktabdeckung von über 10 Millionen Fahrzeugen.

KRAFTSTOFFDRUCKREGLER

Kraftstoffdruckregler werden in Ottomotoren mit Kraftstoffeinspritzung eingesetzt. Sie halten den Kraftstoff auf einem für die Einspritzdüsen erforderlichen konstanten Druck.

KRAFTSTOFF-RÜCKSCHLAGVENTILE

Kraftstoffrückschlagventile werden in Kraftstoffleitungen eingebaut. Sie lassen den Kraftstoff nur in eine Richtung fließen und verhindern ein Auslaufen des Tanks oder ein Leerlaufen von Leitungen.

Motorservice bietet Kraftstoff-Rückschlagventile mit 6, 8, 10 und 12 mm Anschlussdurchmesser an.

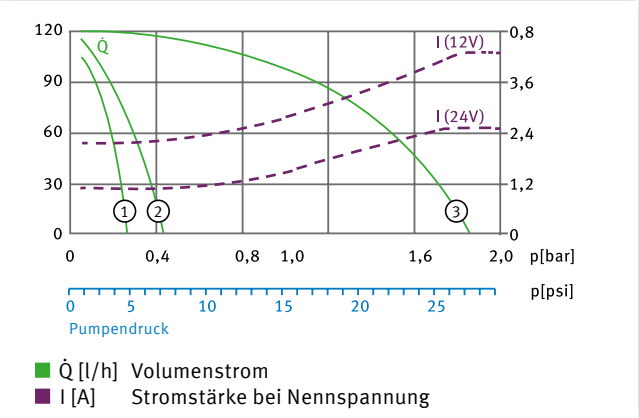
2. ELEKTRISCHE KRAFTSTOFFPUMPEN

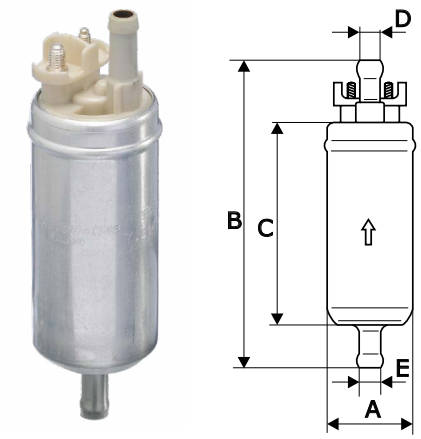
ELEKTRISCHE KRAFTSTOFFPUMPEN TYP E1F

Eine oft verwendete Pumpe ist die E1F. Sie ist eine Inline-Verdrängerpumpe mit Flügelzellenpumpenwerk und für Systemdrücke von 0,1–1,0 bar geeignet. Diese Pumpe ist für 12- und 24-Voltbetrieb erhältlich und wird in die Leitung gesetzt.
Für den 6-Volt-Betrieb (z. B. bei Oldtimern) empfehlen wir die E1F Nr. 7.21440.53.0. Im 6-Volt-Betrieb reduzieren sich Druck und Volumenstrom auf ca. die Hälfte.

ACHTUNG

Wenn eine elektrische Kraftstoffpumpe nachgerüstet wird, ist der Einbau einer Sicherheitsabschaltung vorgeschrieben!





Pierburg-Nr.	Kurve	Nenn-spannung	Stat. Druck bei Q=0 l/h	Volumen-strom bei	Systemdruck bei	Einbau- bzw. Anschlussmaße (siehe Abb.) [mm]					Strom-aufnahme
		[V]	[bar/(psi)]	[l/h]	[bar/(psi)]	Ø A	B	C	Ø D	Ø E	[A]

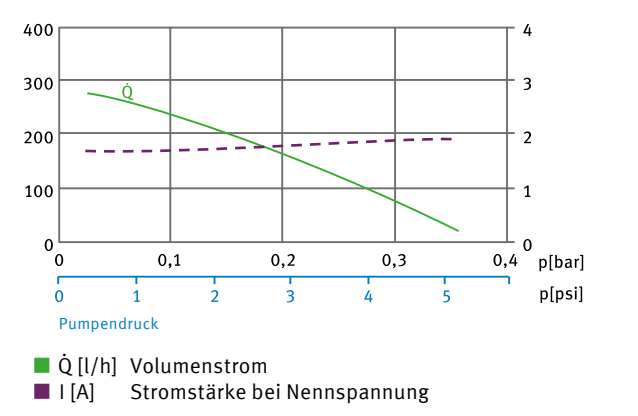
*) auch für 6-Volt-Betrieb geeignet

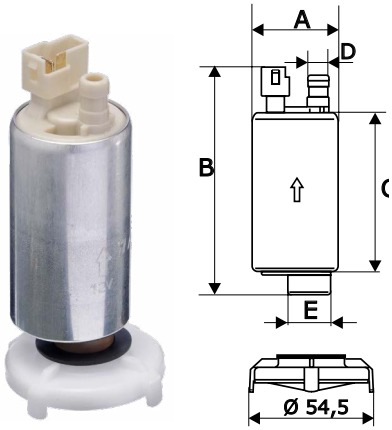
ELEKTRISCHE KRAFTSTOFFPUMPEN TYP E1S

Für den Einbau in einen Kraftstofftank wird die E1S angeboten. Sie ist eine Strömungspumpe mit einem Seitenkanalpumpenwerk in 12-Volt-Ausführung. Diese Pumpe wird vorzugsweise als Vorförderpumpe eingesetzt. Vorförderpumpen fördern das Fördermedium der Hauptpumpe mit geringem Druck zu. Dadurch wird verhindert, dass es auf der Saugseite der Hauptpumpe zu einem Unterdruck kommt und die Hauptpumpe durch Kavitation beschädigt wird.

ACHTUNG

Maximale Saughöhe: 0 mm. Die Pumpe muss im Fördermedium verbaut sein. Pumpen vom Typ E1S können bis zu einem Volumenstrom von ca. 220 l/h als Vorförderpumpe eingesetzt werden.

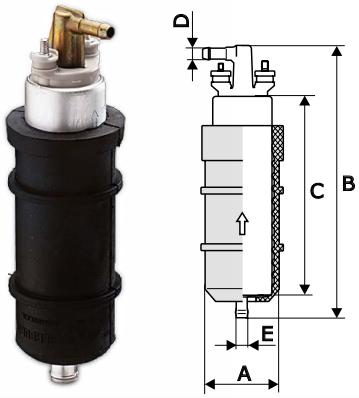




Pierburg-Nr.	Nenn-spannung	Stat. Druck bei Q=0 l/h	Volumenstrom bei	Systemdruck bei	Einbau- bzw. Anschlussmaße (siehe Abb.) [mm]					Strom-aufnahme	Max. Saughöhe
	[V]	[bar/(psi)]	[l/h]	[bar/(psi)]	Ø A	B	C	Ø D	Ø E	[A]	[mm]
7.21088.62.0	12	0,35	75	0,24 (3,5)	38	100	75,3	8	19	3	0

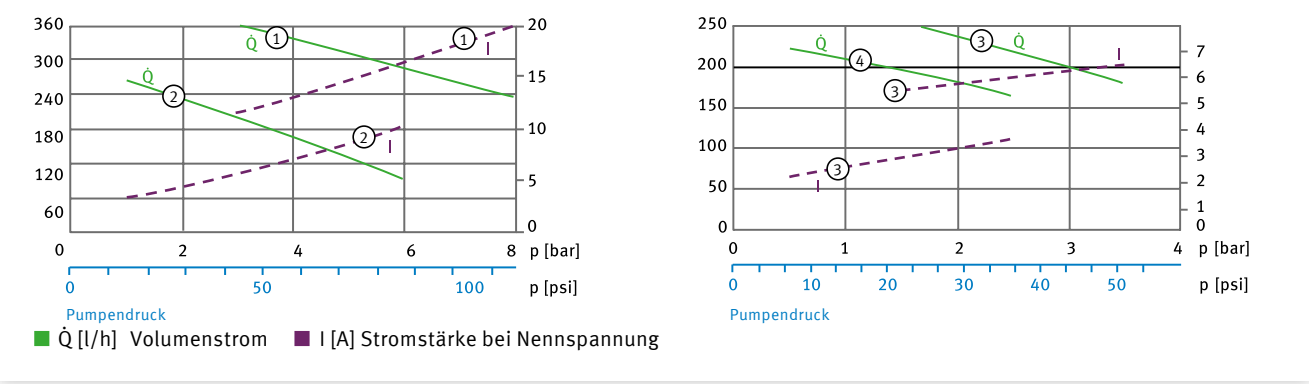
ELEKTRISCHE KRAFTSTOFFPUMPEN TYP E3L

Pumpe vom Typ E3L sind In-line-Pumpen mit Schraubenpumpenwerk. Sie sind besonders leistungsfähig, geräuscharm und haben selbst bei höheren Drücken eine vergleichsweise geringe Stromaufnahme.



⚠ ACHTUNG

Maximale Saughöhe: 500 mm (bei gefüllten Leitungen).



Pierburg-Nr.	Kurve	Nenn-spannung	Volumenstrom bei	Systemdruck bei	Einbau- bzw. Anschlussmaße (siehe Abb.) [mm]					Strom-aufnahme
		[V]	[l/h]	[bar/(psi)]	Ø A	B	C	Ø D	Ø E	[A]
7.00228.51.0	1	13,5	300–360	5 (72,5)	43,2	235	175	8	15	‹ 16
7.50012.50.0	1	13,5	300–360	5 (72,5)	43,2	235	175	M10x1	15	‹ 16
7.22156.50.0	2	13,5	150–190	...4 (...58)	43,2	214	156	8	15	‹ 9,4
7.22156.60.0 [1]	2	13,5	150–190	...4 (...58)	52[2]	214	159[2]	8	15	‹ 9,4
7.50051.60.0 [3]	3	12	180–270	1,0–5,0 (14,5–72,5)	43,5	199,5	156	8	8	4,8–9,5
7.28242.01.0	4	13,5	180–260	0,5 (7)	43,5	211	166	8	8	‹ 4,5

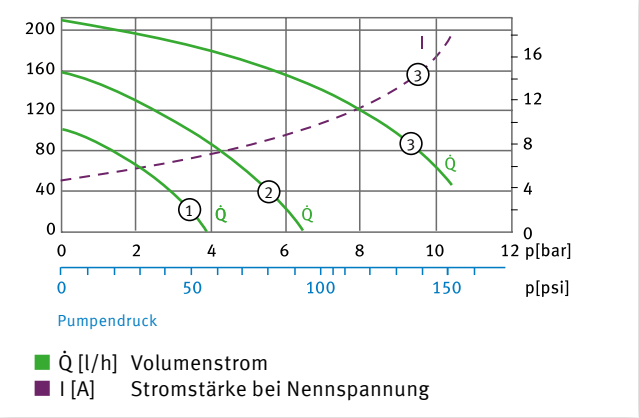
[1] entspricht 7.22156.50.0 mit Gummimantel [2] Maß einschließlich Gummimantel [3] Für Biodiesel nach EN 14214 (FAME) freigegeben

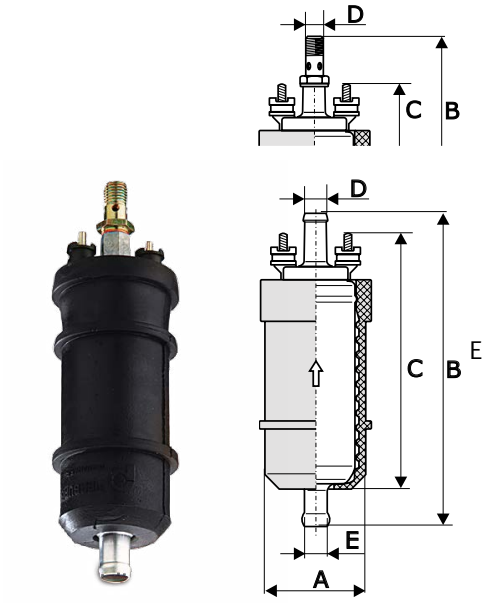
ELEKTRISCHE KRAFTSTOFFPUMPEN TYP E2T / E3T

Kraftstoffpumpen der Baureihe E2T / E3T sind selbstansaugende Zahnringpumpen und für höhere Förderleistungen ausgelegt. Auf der Auslassseite befindet sich ein Druckhalteventil, das je nach Pumpenausführung in die Pumpe integriert ist oder im auswechselbaren Schraubstutzen untergebracht ist. Ein integriertes Druckbegrenzungsventil verhindert einen übermäßigen Druckanstieg und damit mögliche Schäden im Kraftstoffsystem. Das Druckbegrenzungsventil ist ein Sicherheitsventil und zur Druck-regelung ungeeignet!

⚠ ACHTUNG

Maximale Saughöhe: 500 mm. Die elektrischen Kraftstoffpumpen E2T / E3T haben einen Außendurchmesser von 43 mm.
In Verbindung mit dem z.T. mitgelieferten Gummimantel sind sie für einen Austausch von Kraftstoffpumpen anderer Hersteller mit Außendurchmessern von 52 und 60 mm (siehe Tabelle, Maß „A“) geeignet. Der Gummimantel dient zusätzlich zur Geräuschdämmung.





Pierburg-Nr.	Kurve	Nenn-spannung	Stat. Druck bei Q=0 l/h	Volumen-strom bei	Systemdruck bei	Einbau- bzw. Anschlussmaße (siehe Abb.) [mm]					Strom-aufnahme

SCHRAUBSTUTZEN

Je nach Ausführung verfügen die Kraftstoffpumpen auf der Druckseite über einen Anschluss mit Innengewinde M10x1. Diesen Kraftstoffpumpen liegen ein oder mehrere Schraubstutzen bei oder sind bereits vormontiert (siehe Tabelle Maß „D“ und unterstehende Aufschlüsselung).

IMPORTANT INFORMATION

All information in this catalogue is non-binding. We cannot accept any liability for correctness and completeness. We always welcome feedback about any errors in the catalogue and will correct them in future editions.

Names, descriptions and numbers of vehicles or manufacturers etc. are listed for comparison purposes only, as are the original part numbers of vehicle and engine manufacturers. These are not designations of origin and may not be used for third parties. Please also note that changes may be made to the equipment or to designations by the vehicle or engine manufacturers. We therefore cannot accept any liability for the use of the comparison lists.

We expressly reserve the right to change the product specifications, materials, appearance and scope of supply of our products at any time. The images in the catalogue are therefore non-binding.

Before installation, always check whether the product purchased is suitable for the intended use. Our information cannot be used to make a claim about a specific quality or suitability for a specific intended purpose. In particular, it should be noted that the products offered in the catalogue are not intended for use in aircraft and spacecraft. When used in off-highway engines (e.g. marine, stationary or train engines), please note that the same engine designation may be used for different engine parts (e.g. pistons). Therefore, before installing the products, it may be necessary to seek expert advice from the manufacturer or an authorised repair shop. We would also like to point out that the installation must always be carried out by trained, qualified personnel. Images, schematic diagrams and other information are for explanation and illustration purposes and must not be used as a basis for installation.

Any duplication, imitation, distribution or public reproduction of this catalogue, even in part, is permitted only with our prior written consent and a corresponding reference to the source. The publication of this catalogue renders all previous editions invalid.

CERTIFICATIONS

MS Motorservice International GmbH has an ISO 9001 certified quality management system and an ISO 14001 certified environmental management system.

THE CONTENTS OF THE CATALOGUE ARE ALSO AVAILABLE IN OUR ONLINE CATALOGUE, IN OUR APP AND ON TECALLIANCE.

MOTORSERVICE GROUP
QUALITY AND SERVICE FROM A SINGLE SOURCE

The Motorservice Group is the sales organisation for the global aftermarket activities of Rheinmetall. It is a leading supplier of engine components for the independent aftermarket. With the premium brands Kolbenschmidt, Pierburg, TRW Engine Components and the brands BF and turbo by Intec, Motorservice offers its trade and repair shop customers a wide and comprehensive range of top-quality products.

RHEINMETALL
TECHNOLOGY FOR FUTURE MOBILITY

As a global supplier to the automotive industry, Rheinmetall's expertise in air supply systems, emission control and pumps and in the development, manufacture and spare parts supply of pistons, engine blocks and engine bearings puts it right at the top of the markets. Product development is carried out in close cooperation with well-known automotive manufacturers.

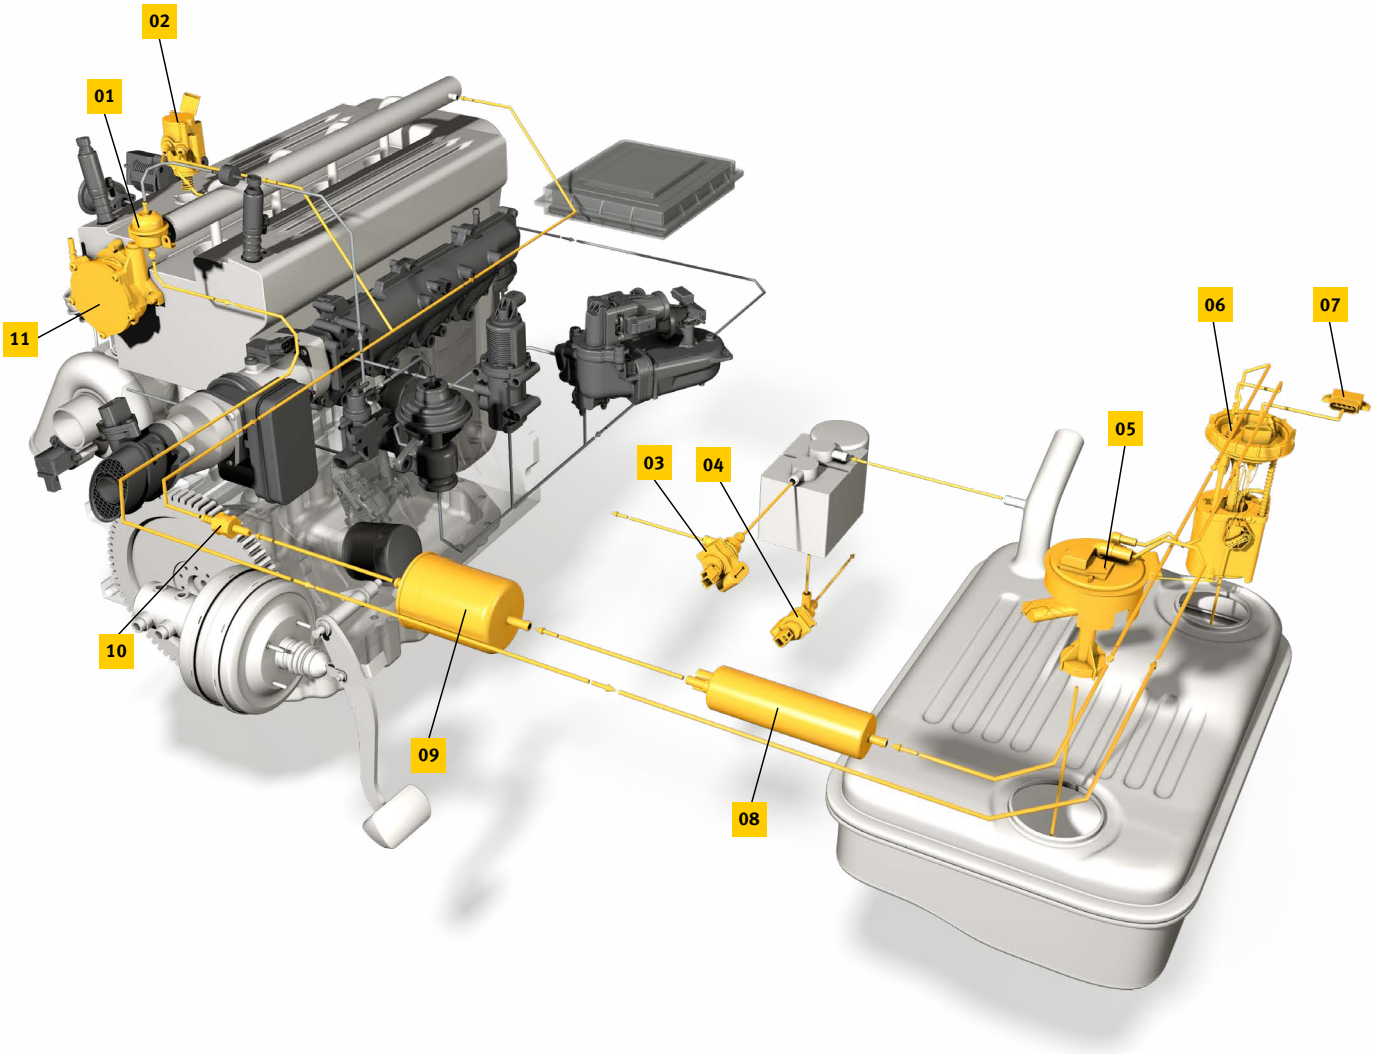
1. FUEL SUPPLY

AN EXTENSIVE PRODUCT RANGE IN TRIED-AND-TESTED QUALITY

From fuel pumps, pump modules, sender units, system-pressure regulators and non-return valves to regeneration valves and ACF valves: Motorservice offers a wide range of components that are indispensable in the fuel system – in tried-and-tested Pierburg quality.

PRODUCT RANGE

01 Fuel pressure regulators
02 High-pressure fuel pump
03 Activated carbon filter regeneration valve
04 Active carbon filter shut-off valve
05 Fuel tank sender unit
06 Fuel delivery module (in-tank)
07 Fuel pump control unit
08 Fuel pump (in-line)
09 Fuel filter (Kolbenschmidt)
10 Fuel check valve
11 Tandem pump, fuel / vacuum



FUEL DELIVERY MODULES

Fuel delivery modules are located in the fuel tank. They consist of the flange cover, the fuel pump in the swirl pot and other possible attachments such as a sender unit or pressure regulator.

In addition to complete fuel delivery modules, Motorservice also has attachments such as sender units, gaskets and service-friendly repair kits in the product range.

ELECTRIC FUEL PUMPS

Electric fuel pumps deliver the fuel to the injection valves with a defined pressure. They are available both for specific vehicles and for universal use in various pressure and output levels. Inline fuel pumps are situated in the fuel line. In-tank fuel pumps
are installed in the fuel tank.

Motorservice is a leading supplier of electric fuel pumps in the aftermarket.

MECHANICAL FUEL PUMPS

Classic mechanical fuel pumps are often installed in older vehicles. They are driven directly by the engine by means of tappets or levers. Motorservice has included various types for use in older vehicles in its product range. For FSI, TFSI and TSI engines from VAG, mechanical high-pressure pumps ensure the necessary injection pressure of approx. 120 to 200 bar. Tandem pumps fulfil the function of a mechanical vacuum pump and are also used for the fuel feed.

FUEL PUMP CONTROL UNITS

The control unit is a part of the demand–based fuel supply in modern engines. This means that, in contrast to unregulated fuel supply, only the required amount of fuel is supplied. This reduces power consumption and saves fuel. In each case, the characteristic curve
is specific to the vehicle engine and model.

With our range of 19 control units in OE quality, you can achieve market coverage of over 10 million vehicles.

FUEL PRESSURE REGULATORS

Fuel pressure regulators are used in petrol engines with fuel injection. They maintain the fuel at the constant pressure necessary for the injection nozzles.

FUEL CHECK VALVES

Fuel check valves are installed in fuel lines. They allow fuel to flow in one direction only and prevent the fuel tank from draining or lines from running dry.

Motorservice offers fuel check valves with connection diameters of 6, 8, 10 and 12 mm.

ENGLISH

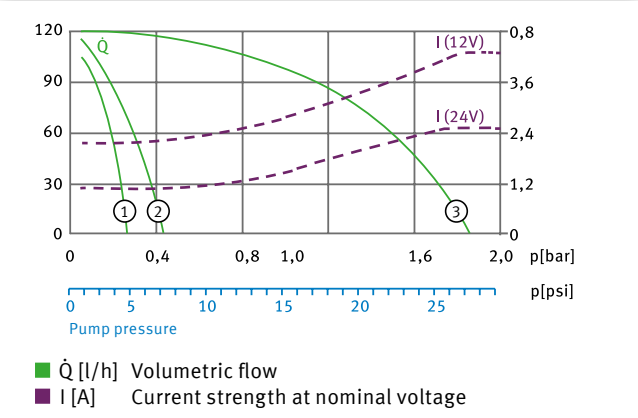
2. ELECTRIC FUEL PUMPS

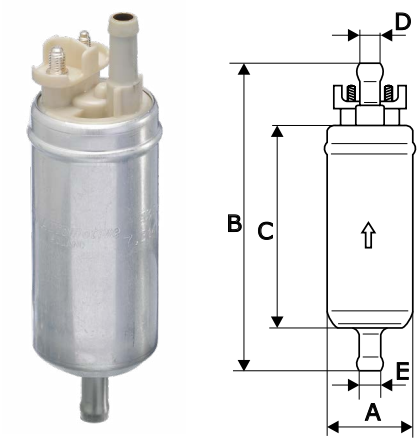
ELECTRIC FUEL PUMPS TYPE E1F

A pump often used is the E1F. It is an inline positive-displacement pump with vane pump system and suited to system pressures of 0.1–1.0 bar. This pump is available for 12 and 24 volt operation and is installed in the line. For 6 volt operation (e.g. for veteran cars), we recommend the E1F no. 7.21440.53.0. In 6 volt operation, the pressure and volumetric flow reduce to approx. half.

ATTENTION

When an electrical fuel pump is retrofitted, installation of a safety shut-off is mandatory.





Pierburg no.	Curve	Nominal voltage	Stat. pressure at Q = 0 l/h	Volumetric flow at	System pressure at	Installation and connection dimensions (see fig.) [mm]					Current consumption
		[V]	[bar/(psi)]	[l/h]	[bar/(psi)]	Ø A	B	C	Ø D	Ø E	[A]
7.21440.51.0	1	12	0.27–0.38 (4–5.5)	95	0.10 (1.5)	38	133.5	84.5	8	8	≤ 2.0
7.21440.53.0	2	12*)	0.44–0.57 (6.3–8.3)	100	0.15 (2.2)	38	133.5	84.5	8	8	≤ 2.05
7.21440.63.0	2	24	0.44–0.57 (6.3–8.3)	100	0.15 (2.2)	38	134.2	84.5	8	8	≤ 1.35

7.21440.78.0	3	12	› 1.85 (› 26.8)	95	1.00 (14.5)	38	141.5	91.0	8	12	≤ 4.3

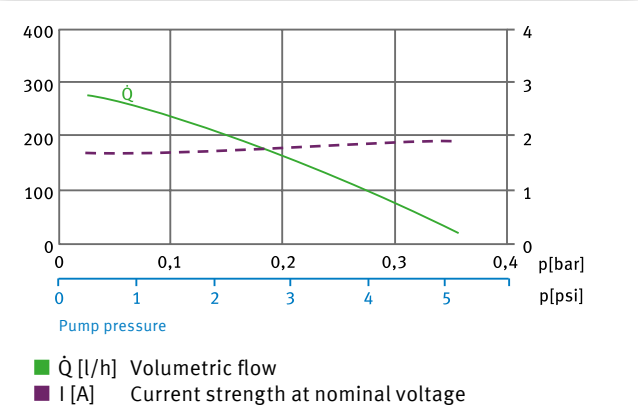
*) Also suitable for 6 volt operation

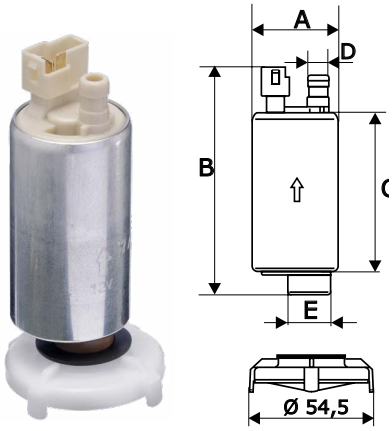
ELECTRIC FUEL PUMPS TYPE E1S

The E1S is provided for installation into a fuel tank. It is a flow pump with a side-channel pump system as a 12 volt version. This pump is preferably used as pre-feeder pump. Pre-feeder pumps feed the flow medium to the main pump with low pressure. This prevents a vacuum forming on the suction side of the main pump which would lead to damage to the main pump due to cavitation.

ATTENTION

Maximum suction lift: 0 mm. The pump must be installed in the flow medium. Pumps of type E1S can be used as pre-feeder pump with a volumetric flow of up to approx. 220 l/h.

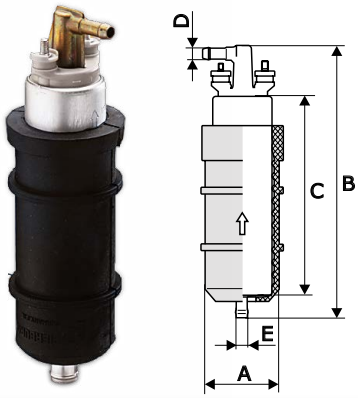




Pierburg no.	Nominal voltage	Stat. Pressure at Q=0 l/h	Volumetric flow at	System pressure at	Installation and connection dimensions (see fig.) [mm]					Current consumption	Max. suction lift
	[V]	[bar/(psi)]	[l/h]	[bar/(psi)]	Ø A	B	C	Ø D	Ø E	[A]	[mm]
7.21088.62.0	12	0.35	75	0.24 (3.5)	38	100	75.3	8	19	3	0

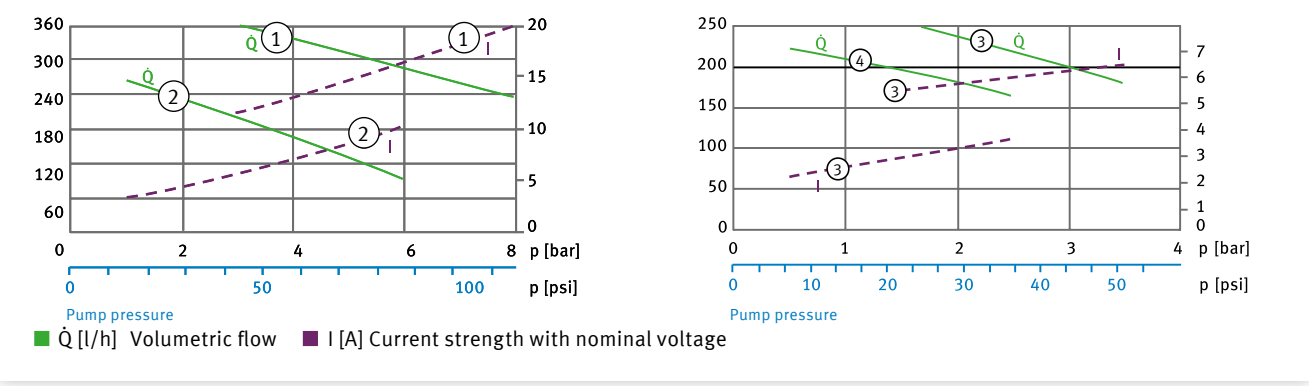
ELECTRIC FUEL PUMPS TYPE E3L

Pumps of the type E3L are in-line pumps with screw pump unit. They are particularly powerful, low-noise and have a comparatively low current consumption even with higher pressures.



⚠ ATTENTION

Maximum suction lift: 500 mm (with filled lines).



Pierburg no.	Curve	Nominal voltage	Volumetric flow at	System pressure at	Installation and connection dimensions (see fig.) [mm]					Current consumption
		[V]	[l/h]	[bar/(psi)]	Ø A	B	C	Ø D	Ø E	[A]
7.00228.51.0	1	13.5	300–360	5 (72.5)	43.2	235	175	8	15	‹ 16
7.50012.50.0	1	13.5	300–360	5 (72.5)	43.2	235	175	M10x1	15	‹ 16

7.22156.60.0 [1]	2	13.5	150–190	...4 (...58)	52 [2]	214	159 [2]	8	15	‹ 9.4
7.50051.60.0 [3]	3	12	180–270	1.0–5.0 (14.5–72.5)	43.5	199.5	156	8	8	4.8–9.5
7.28242.01.0	4	13.5	180–260	0.5 (7)	43.5	211	166	8	8	‹ 4.5

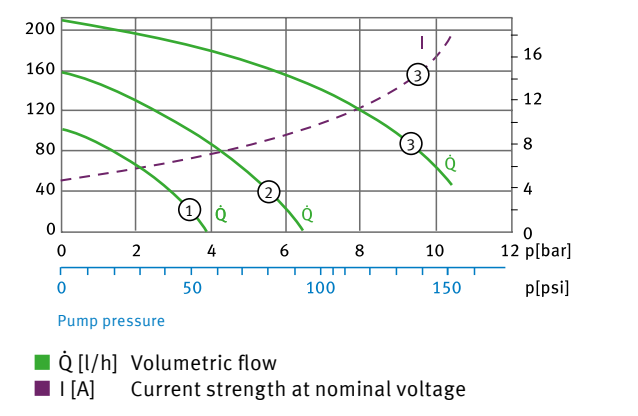
[1] corresponds to 7.22156.50.0 with rubber coating [2] dimension including rubber coating [3] approved for biodiesel according to EN 14214 (FAME)

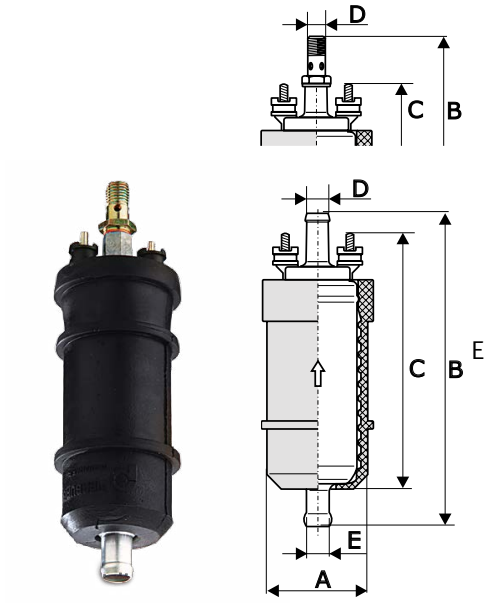
ELECTRIC FUEL PUMPS TYPE E2T / E3T

Fuel pumps of the series E2T / E3T are naturally aspirated toothed ring pumps and designed for higher delivery rates. There is a pressure-holding valve on the outlet side, which depending on the pump design is integrated into the pump or housed in the replaceable screw connection. An integrated pressure limiting valve prevents an excessive rise in pressure and thus possible damage within the fuel system. The pressure limiting valve is a safety valve and not suited to pressure control!

ATTENTION

Maximum suction lift: 500 mm. The electric fuel pumps E2T / E3T have an outside diameter of 43 mm. In connection with the partly supplied rubber cover they are suitable for a replacement of fuel pumps from other manufacturers with outside diameters of 52 and 60 mm (see table, dimension “A”). The rubber cover additionally serves as noise absorber.





Pierburg no.	Curve	Nominal voltage	Stat. pressure at Q=0 l/h	Volumetric flow at	System pressure at	Installation and connection dimensions (see fig.) [mm]					Current consumption

REMARQUES IMPORTANTES

Toutes les informations figurant dans ce catalogue sont fournies sans engagement de notre part. Nous déclinons toute responsabilité quant à l'exactitude et l'exhaustivité des contenus. Si vous relevez des erreurs dans ce catalogue, n'hésitez pas à nous les communiquer : nous veillerons à les corriger dans les futures éditions.

Les noms, descriptions, numéros de véhicule ou de constructeur, etc. ne sont donnés qu'à titre de comparaison, tout comme les références des pièces d'origine des constructeurs automobiles ou de moteurs. Ces informations ne doivent pas être utilisées dans le cadre de communications externes car ce ne sont pas les désignations d'origine. Il est de plus impossible d'exclure que les constructeurs automobiles ou de moteurs n'apportent des modifications aux équipements et aux désignations. Nous déclinons donc toute responsabilité pour l'utilisation des listes de correspondances.

Nous nous réservons explicitement le droit d'apporter à tout moment des modifications aux spécifications de nos produits, aux matériaux utilisés, à leur aspect et à la composition des lots. Les illustrations du catalogue n'ont donc qu'une valeur indicative.

Avant le montage, vérifiez toujours que le produit acheté est adapté à l'usage prévu. Une quelconque qualité ou aptitude à un usage particulier ne peut être déduite de nos indications. Il convient notamment de noter que les produits proposés dans le catalogue ne sont pas destinés aux applications aérospatiales. Dans le cas de l'utilisation sur des moteurs off-highway (par ex. moteurs de marine, moteurs stationnaires ou moteurs de traction), tenir compte du fait que des pièces de moteur différentes (par ex. des pistons) peuvent être utilisées pour une même désignation du moteur. Le cas échéant, demandez conseil au constructeur ou à un concessionnaire agréé avant de monter les produits. Nous rappelons que le montage doit toujours être confié à des techniciens qualifiés et formés.
Les illustrations, dessins schématiques et autres indications sont destinés à expliquer et à représenter nos produits ; ils ne peuvent en aucun cas servir de base au montage des pièces.

Toute duplication, imitation, diffusion ou reproduction, même partielle, du présent catalogue sans notre consentement écrit préalable et sans indication de la source est illicite.
La présente édition remplace et annule toutes les éditions précédentes du catalogue.

GROUPE MOTORSERVICE
QUALITÉ ET SERVICE AUPRÈS D'UN UNIQUE FOURNISSEUR

Le groupe Motorservice est l'organisation commerciale en charge des activités internationales Aftermarket de Rheinmetall. C'est l'un des premiers fournisseurs de composants de moteurs pour le marché indépendant des pièces de rechange. Avec les marques haut de gamme Kolbenschmidt, Pierburg, TRW Engine Components ainsi que les marques BF et turbo by Intec, Motorservice propose à ses clients commerçants et garagistes une gamme étendue et variée de très grande qualité.

RHEINMETALL
DES TECHNOLOGIES AU SERVICE DE LA MOBILITÉ DE DEMAIN

Équipementier automobile présent dans le monde entier, Rheinmetall se place, grâce à son savoir-faire dans les domaines de l'alimentation en air, de la réduction des émissions nocives et des pompes ainsi que dans le développement, la fabrication et la fourniture de pistons, de blocs-moteurs et de coussinets, en tête de ces marchés respectifs.
Le développement des produits se déroule en étroite coopération avec des constructeurs automobiles renommés.

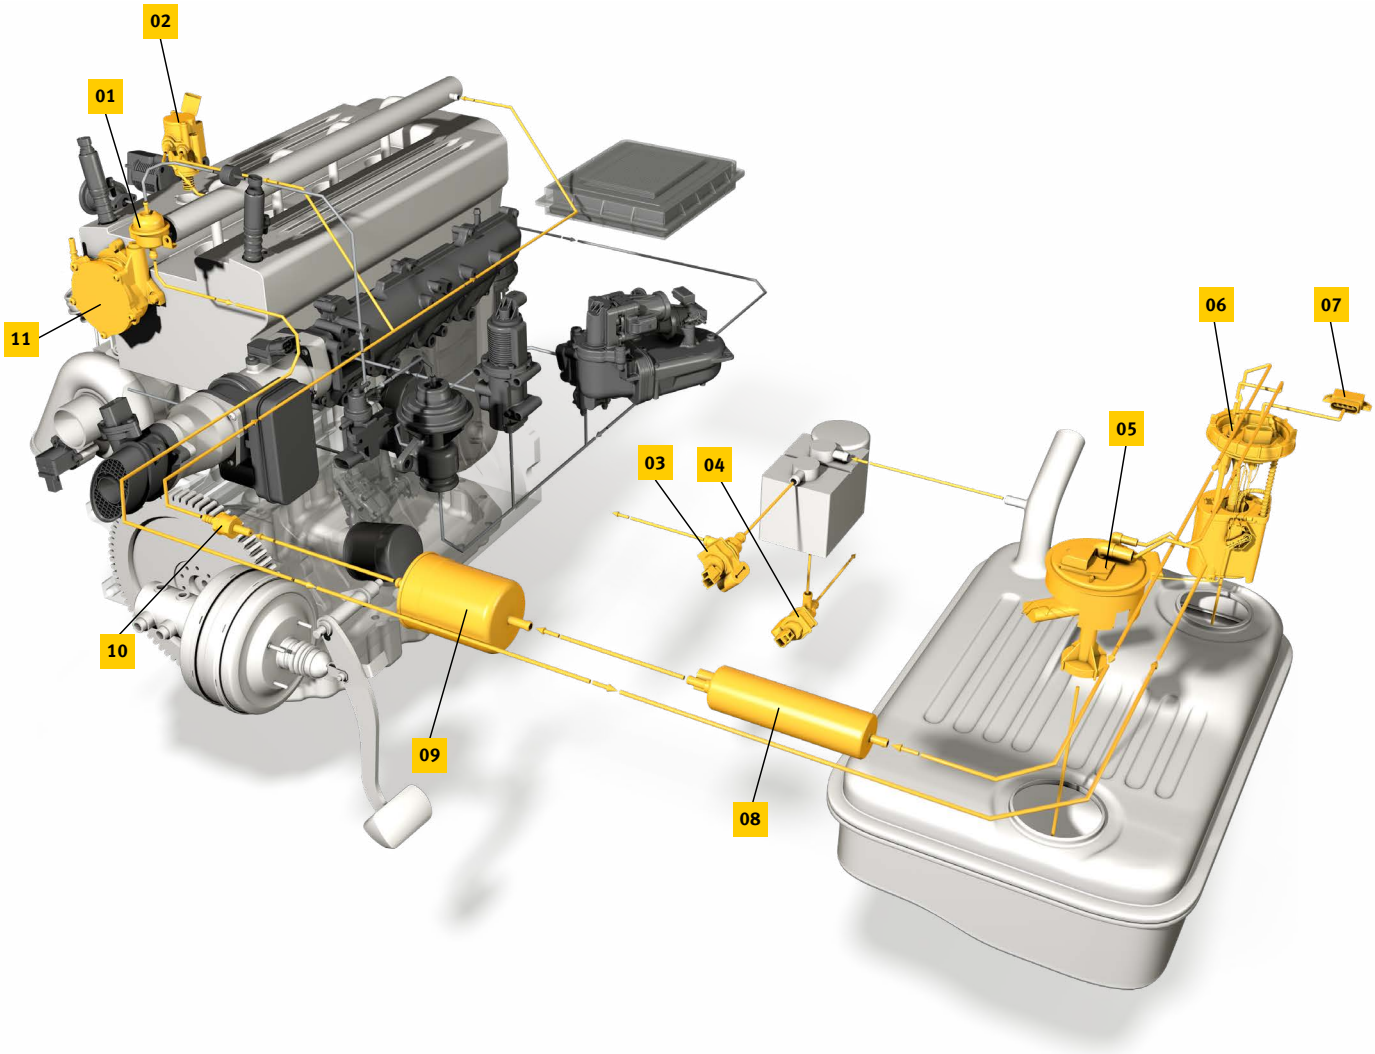
1. ALIMENTATION EN CARBURANT

UNE VASTE GAMME DE PRODUITS DE QUALITÉ AVÉRÉE

Pompes à carburant, modules d'alimentation, indicateurs de niveau, régulateurs de pression du système, clapets anti-retour, valves de régénération, valves de filtre à charbon actif... Motorservice propose un large éventail de composants indispensables au système d'alimentation en carburant et affichant la qualité avérée des produits Pierburg.

GAMME DE PRODUITS

01 Régulateurs de pression de carburant
02 Pompe à carburant haute pression
03 Valve de régénération du filtre à charbon actif
04 Clapet de coupure du filtre à charbon actif
05 Unité d'indicateur de niveau
06 Module d'alimentation en carburant (immergé)
07 Appareil de commande pour la pompe à carburant
08 Pompe à carburant (en ligne)
09 Filtre à carburant (Kolbenschmidt)
10 Clapet anti-retour de carburant
11 Pompe tandem combinée carburant / dépression



MODULES D'ALIMENTATION EN CARBURANT

Les modules d'alimentation en carburant sont immergés dans le réservoir. Ils se composent d'une pompe à carburant montée dans un pot de stabilisation et d'un couvercle à bride, mais aussi d'autres composants optionnels, notamment un indicateur de niveau ou un régulateur de pression.

La gamme de produits Motorservice comprend, outre les modules d'alimentation en carburant complets, des pièces rapportées telles que des indicateurs de niveau, des joints ou encore des kits de réparation conviviaux.

POMPES À CARBURANT ÉLECTRIQUES

Les pompes à carburant électriques refoulent le carburant soumis à une pression définie vers les clapets d'injection. Les modèles sont spécifiques au véhicule ou universels, et présentent plusieurs niveaux de pression et degrés de performance.
Les pompes à carburant en ligne sont intégrées à la conduite de carburant. Les pompes à carburant immergées sont montées dans le réservoir.

Motorservice est l'un des plus grands fabricants de pompes à carburant électriques pour l'après-vente.

POMPES À CARBURANT MÉCANIQUES

Les pompes à carburant mécaniques classiques équipent avant tout les véhicules plus anciens. Elles sont entraînées directement par le moteur, par l'intermédiaire de poussoirs ou de leviers. Motorservice a intégré à sa gamme divers modèles de produits pour applications anciennes. Sur les moteurs FSI, TFSI et TSI de VAG, les pompes mécaniques à haute pression assurent la pression d'injection requise, entre env. 120 et 200 bar. Les pompes tandem remplissent le rôle d'une pompe à vide mécanique, et assurent en outre le refoulement du carburant.

APPAREILS DE COMMANDE POUR POMPES À CARBURANT

Sur les moteurs modernes, l'appareil de commande fait partie intégrante de l'alimentation en carburant. Seule la quantité de carburant nécessaire est alors acheminée, contrairement à l'alimentation en carburant non régulée. L'appareil de commande permet de réduire la puissance absorbée et de réaliser des économies de carburant. La courbe caractéristique enregistrée est toujours spécifique au moteur et au modèle du véhicule.

Nos 19 appareils de commande de qualité première monte vous permettent de bénéficier d'une couverture s'étendant à plus de 10 millions de véhicules.

RÉGULATEURS DE PRESSION DE CARBURANT

Les régulateurs de pression de carburant sont utilisés dans les moteurs essence à injection. Ils maintiennent le carburant transporté à la pression constante nécessaire aux injecteurs.

CLAPETS ANTI-RETOUR DE CARBURANT

Les clapets anti-retour de carburant sont montés dans les conduites de carburant. Ils permettent au carburant de s'écouler uniquement dans un sens et l'empêchent de se déverser hors du réservoir ou que les conduites fonctionnent à vide.

Motorservice propose des clapets anti-retour de carburant de 6, 8, 10 et 12 mm de diamètre de connexion.

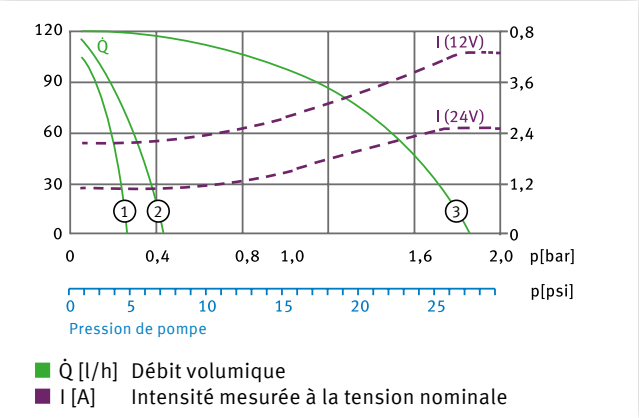
2. POMPES À CARBURANT ÉLECTRIQUES

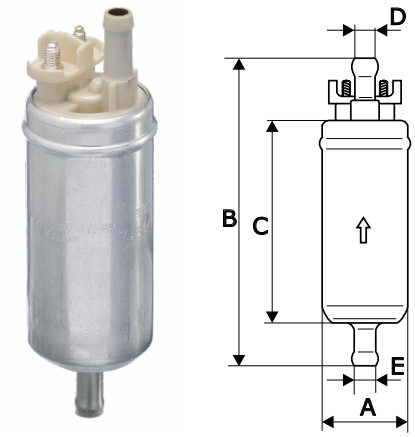
POMPES À CARBURANT ÉLECTRIQUES TYPE E1F

La pompe E1F est souvent utilisée. Il s'agit d'une pompe volumétrique en ligne avec un mécanisme à palettes approprié aux pressions de système de 0,1 à 1,0 bar. Cette pompe existe en version pour fonctionnement sur 12 et 24 V et est installée dans la conduite. Pour le fonctionnement sur 6 V (par ex. sur les voitures anciennes), nous recommandons la pompe E1F N° 7.21440.53.0. Dans le cas du fonctionnement sur 6 V, la pression et le débit volumétrique sont réduits environ de moitié.

ATTENTION

Si une pompe à carburant électrique est posée comme équipement ultérieur, un relais de sécurité doit être installé.





N° Pierburg	Courbe	Tension nominale	Pression stat. pour Q = 0 l/h	Débit volumique à	Pression du système à	Cotes de montage et de raccordement (voir fig.) [mm]					Consommation de courant
		[V]	[bar/(psi)]	[l/h]	[bar/(psi)]	Ø A	B	C	Ø D	Ø E	[A]
7.21440.51.0	1	12	0,27–0,38 (4–5,5)	95	0,10 (1,5)	38	133,5	84,5	8	8	≤ 2,0

7.21440.78.0	3	12	› 1,85 (› 26,8)	95	1,00 (14,5)	38	141,5	91,0	8	12	≤ 4,3

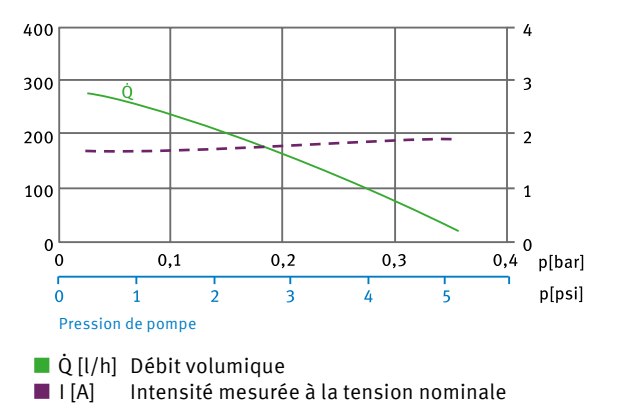
*) convient également au fonctionnement sur 6 V

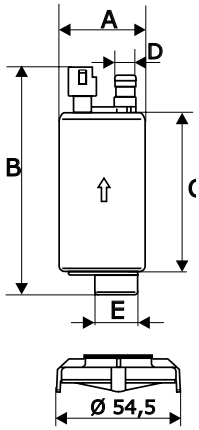
POMPES À CARBURANT ÉLECTRIQUES TYPE E1S

La pompe E1S est proposée pour le montage dans un réservoir de carburant. Il s'agit d'une pompe d'écoulement avec un mécanisme de pompe à canal latéral en version 12 V. Cette pompe est utilisée préférentiellement comme pompe de pré-alimentation. Les pompes de pré-alimentation pompent le liquide vers la pompe principale avec une faible pression. Ceci prévient l'apparition d'une dépression côté aspiration de la pompe principale et l'endommagement de celle-ci par cavitation.

ATTENTION

Hauteur de refoulement maximale : 0 mm. La pompe doit être immergée dans le liquide. Les pompes de type E1S peuvent être utilisées comme pompes de pré-alimentation et atteindre un débit volumique maximal d'environ 220 l/h.





N° Pierburg	Tension nominale	Pression stat. pour Q = 0 l/h	Débit volumique à	Pression du système à	Cotes de montage et de raccordement (voir fig.) [mm]					Consommation de courant	Hauteur de refoulement max.

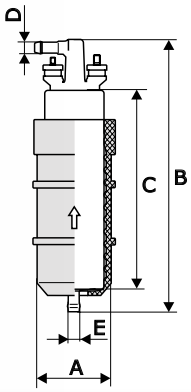
7.21088.62.0	12	0,35	75	0,24 (3,5)	38	100	75,3	8	19	3	0

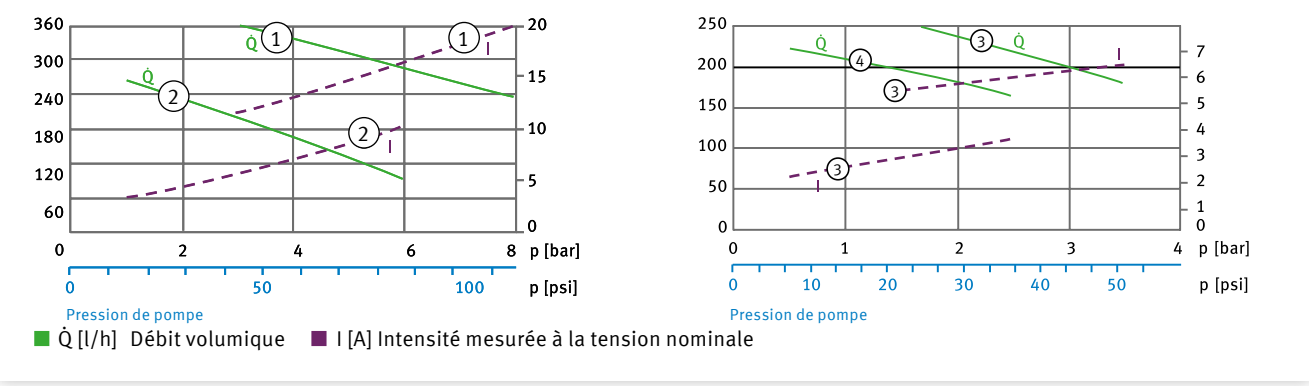
POMPES À CARBURANT ÉLECTRIQUES TYPE E3L

Les pompes de type E3L sont des pompes en ligne avec un mécanisme de pompe à vis. Elles sont particulièrement performantes et silencieuses et leur consommation de courant est comparativement faible, même aux pressions élevées.



⚠ ATTENTION

Hauteur de refoulement maximale : 500 mm (avec les conduites remplies).



N° Pierburg	Courbe	Tension nominale	Débit volumique à	Pression du système à	Cotes de montage et de raccordement (voir fig.) [mm]					Consommation de courant

FRANÇAIS

POMPES À CARBURANT ÉLECTRIQUES TYPE E2T / E3T

Les pompes à carburant de la série E2T / E3T sont des pompes à engrenage autoamorçantes conçues pour des capacités de refoulement élevées. Le côté sortie comporte une soupape de maintien de la pression qui, suivant la version de la pompe, est intégrée dans la pompe ou montée dans le collier à vis amovible. Une soupape de limitation de la pression intégrée évite une augmentation excessive de la pression et les dommages consécutifs dans le système d'alimentation en carburant. La soupape de limitation de la pression est une soupape de sécurité qui ne convient pas à la régulation de la pression !

⚠ ATTENTION

Hauteur de refoulement maximale : 500 mm. Les pompes à carburant électriques E2T / E3T ont un diamètre extérieur de 43 mm. En association avec la gaine caoutchouc fournie dans certains cas, elles peuvent être utilisées pour remplacer les pompes à carburant d'autres constructeurs dont le diamètre extérieur est de 52 et 60 mm (voir le tableau, dimension « A »). La gaine caoutchouc sert également à l'isolation phonique.

COLLIERS À VIS

Suivant la version, les pompes à carburant possèdent, côté pression, un raccord avec un filetage intérieur M10x1.

Un ou plusieurs colliers à vis sont joints à ces pompes à carburant ou déjà pré-assemblés (voir le tableau dimension « D » et le codage qui figure en-dessous).

INDICACIONES IMPORTANTES

Todos los datos de este catálogo no son vinculantes. No podemos asumir ninguna responsabilidad por su exactitud e integridad. La información sobre posibles errores en el catálogo es siempre bienvenida y será corregida en futuras ediciones.

Los nombres, descripciones y números de vehículos o fabricantes, entre otros, así como los números de pieza originales de los fabricantes de vehículos y motores, solo se indican con fines comparativos. Las indicaciones correspondientes no son denominaciones de origen y no pueden utilizarse con terceros. Tenga también en cuenta que no se pueden descartar modificaciones en el equipamiento por parte de los fabricantes de vehículos o motores, ni cambios en las denominaciones. Por lo tanto, no podemos asumir ninguna responsabilidad por el uso de las listas comparativas.

Nos reservamos expresamente el derecho de modificar en cualquier momento las especificaciones del producto, los materiales, el aspecto y el volumen de suministro de nuestros productos. Por lo tanto, las ilustraciones del catálogo no son vinculantes.

Antes del montaje, se debe comprobar siempre si el producto adquirido es adecuado para el uso previsto. De nuestra información no se puede derivar una afirmación sobre una determinada naturaleza o idoneidad para un uso determinado. En particular, hay que tener en cuenta que los productos ofrecidos en el catálogo no están destinados a ser utilizados en aeronaves o naves espaciales. Cuando se utilizan en motores fuera de carretera (p. ej. motores marinos, estacionarios o subterráneos) se debe tener en cuenta que, con la misma denominación del motor, pueden utilizarse diferentes piezas del motor (p. ej. pistones). En caso necesario, se debe solicitar el asesoramiento del fabricante o del taller autorizado antes de instalar los productos. Además, le informamos de que el montaje debe ser realizado siempre por personal técnico con formación. Las ilustraciones, los esquemas y demás indicaciones se muestran con fines explicativos e ilustrativos y no pueden utilizarse como base para la instalación.

Cualquier duplicación, imitación, distribución o reproducción pública de este catálogo, incluso parcial, solo está permitida con nuestro consentimiento previo por escrito y la correspondiente referencia a la fuente. Con la publicación de este catálogo, todas las ediciones anteriores pierden su validez.

GRUPO MOTORSERVICE
CALIDAD Y SERVICIO EN UN SOLO PROVEEDOR

El Grupo Motorservice es la organización de ventas y distribución para las actividades de servicio posventa de Rheinmetall en todo el mundo. Se trata de uno de los principales proveedores de componentes del motor en el mercado libre de piezas de repuesto. Gracias a las marcas de primera calidad Kolbenschmidt, Pierburg y TRW Engine Components, así como a las marcas BF y turbo by Intec, Motorservice ofrece a sus clientes comerciales y de talleres un amplio y completo surtido de máxima calidad.

RHEINMETALL
TECNOLOGÍAS PARA LA MOVILIDAD DEL FUTURO

Como proveedor automotriz internacional, Rheinmetall está a la cabeza en los mercados correspondientes gracias a su gran competencia en los sectores de alimentación de aire, reducción de contaminantes y bombas, así como en el desarrollo, producción y suministro de piezas de repuesto para pistones, bloques de motor y cojinetes de fricción.
El desarrollo de productos se efectúa en estrecha colaboración con fabricantes de automóviles de renombre.

TRANSFERENCIA DE EXPERIENCIAS
CONOCIMIENTOS TÉCNICOS DEL EXPERTO

CURSOS FORMATIVOS EN TODO EL MUNDO
Directamente del fabricante
Anualmente, alrededor de 4.500 mecánicos y técnicos se benefician de nuestros cursos formativos y seminarios, que realizamos a escala mundial in situ o también en nuestros centros de formación en Neuenstadt y Dormagen y Tamm (Alemania).

INFORMACIONES TÉCNICAS
De la práctica para la práctica
Con las Product Information, las Service Information, los folletos técnicos y los pósters, estará usted siempre a la vanguardia de la técnica.

VÍDEOS TÉCNICOS
Difusión de conocimientos por vídeo
En nuestros vídeos encontrará indicaciones prácticas para el montaje y aclaraciones sistemáticas sobre nuestros productos.

YouTube

PRODUCTOS EN EL PUNTO DE MIRA ONLINE
Nuestras soluciones explicadas de forma gráfica
Conozca, gracias a los elementos interactivos, las animaciones y los clips de vídeo, aspectos curiosos de nuestros productos para y acerca del motor.

TIENDA ONLINE
Su acceso directo a nuestros productos
Realice pedidos las 24 horas. Rápida comprobación de la disponibilidad. Amplia búsqueda de productos del motor, el vehículo, las dimensiones, etc.

NOVEDADES
Informaciones regulares por e-mail
Suscríbase de forma online a nuestro Newsletter gratuito y recibirá periódicamente informaciones sobre productos recién incluidos, publicaciones técnicas y mucho más.

INFORMACIONES INDIVIDUALES
Especialmente para nuestros clientes
Le ofrecemos numerosas informaciones y servicios sobre nuestro amplio espectro de prestaciones: como por ejemplo, materiales de promoción de ventas personalizados, asistencias de ventas, soporte técnico y mucho más.

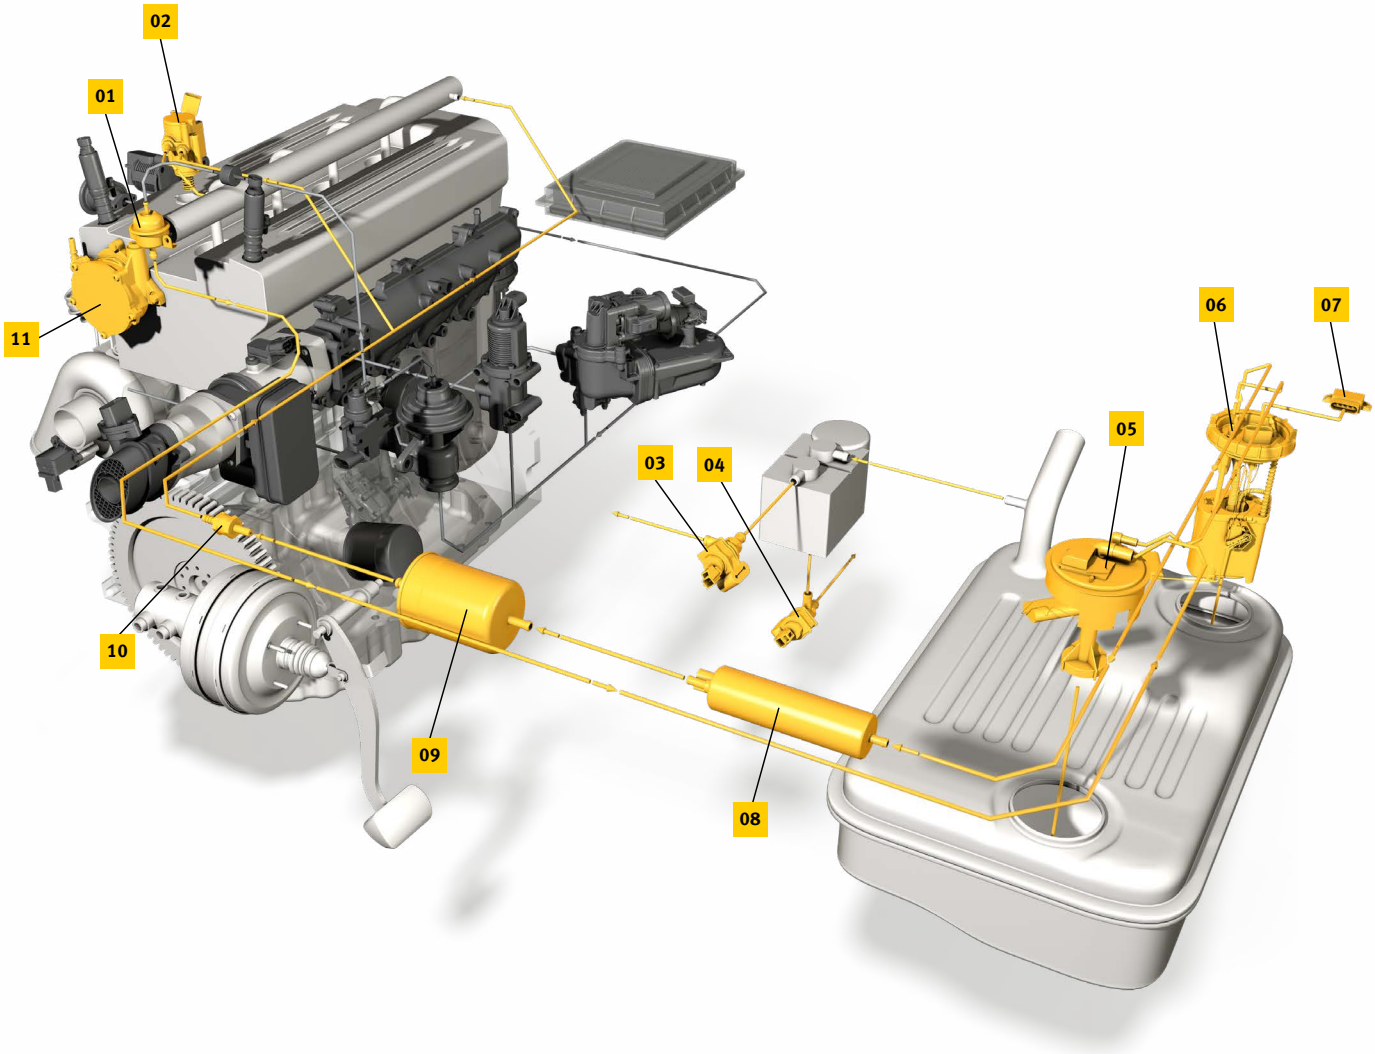
1. ALIMENTACIÓN DE COMBUSTIBLE

AMPLIO PROGRAMA DE PRODUCTOS ACREDITADOS POR SU CALIDAD

Desde bombas de combustible, módulos de alimentación y sensores del depósito, pasando por reguladores de presión del sistema, válvulas de retención y válvulas de regeneración, hasta las válvulas AKF: Motorservice ofrece una amplia gama de componentes esenciales para el sistema de alimentación de combustible, todo con la acreditada calidad de Pierburg.

PROGRAMA DE PRODUCTOS

01 Regulador de la presión del combustible
02 Bomba de combustible de alta presión
03 Válvula de regeneración del filtro de carbón activo
04 Válvula de cierre del filtro de carbón activo
05 Unidad de sensor del depósito
06 Módulo de alimentación de combustible (inmerso en el depósito)
07 Unidad de control de la bomba de combustible
08 Bomba de combustible (en línea)
09 Filtro de combustible (Kolbenschmidt)
10 Válvula de retención de combustible
11 Bomba tándem combustible / vacío



ESPAÑOL

ESPAÑOL

MÓDULOS DE ALIMENTACIÓN DE COMBUSTIBLE

Los módulos de alimentación de combustible se encuentran en el depósito. Se componen de la tapa de brida, la bomba de combustible en el vaso estabilizador, además de otros componentes adosados, como el sensor de depósito o el regulador de presión.

Junto a los módulos de alimentación de combustible completos, Motorservice también cuenta en su programa de productos con componentes adosados como sensores del depósito, juntas y juegos de reparación para facilitar el mantenimiento.

BOMBAS DE COMBUSTIBLE ELÉCTRICAS

Las bombas de combustible eléctricas impulsan el combustible con una presión definida a las válvulas de inyección. Están disponibles tanto en versión específica para el vehículo como para uso universal en diferentes niveles de presión y potencia. Las bombas de combustible en línea se instalan en la tubería de combustible. Las bombas de combustible inmersas en el depósito están montadas en el depósito.

Motorservice es uno de los principales proveedores de bombas de combustible eléctricas en el mercado posventa.

BOMBAS DE COMBUSTIBLE MECÁNICAS

Las bombas de combustible mecánicas están instaladas mayoritariamente en los vehículos más antiguos. Estas se accionan directamente desde el motor mediante taqués o palancas. Motorservice ha incorporado al programa de productos diversos tipos para su aplicación en el vehículo. Las bombas de alta presión mecánicas proporcionan a los motores FSI, TFSI y TSI la presión de inyección necesaria de 120 a 200 bares. Las bombas tándem cumplen con las funciones de las bombas de vacío mecánicas y se usan adicionalmente a la alimentación de combustible.

UNIDADES DE CONTROL PARA BOMBAS DE COMBUSTIBLE

La unidad de control forma parte de la alimentación de combustible de los motores modernos. Al contrario que la alimentación de combustible no regulada, en este caso solamente se transporta la cantidad de combustible necesaria. Esto reduce el consumo de potencia y ahorra combustible. La curva característica es específica para cada motor y modelo de vehículo.

Con nuestro programa de 19 unidades de control con calidad de recambios originales se consigue una cobertura de mercado de más de 10 millones de vehículos.

REGULADOR DE LA PRESIÓN DEL COMBUSTIBLE

Los reguladores de la presión del combustible se utilizan en motores de gasolina con inyección de combustible. Mantienen el combustible a la presión constante requerida para los inyectores.

VÁLVULAS DE RETENCIÓN DE COMBUSTIBLE

Las válvulas de retención de combustible se instalan en las tuberías de combustible. Hacen que el combustible fluya solo en una dirección e impiden el derrame del depósito o el vaciado de las tuberías.

Motorservice ofrece válvulas de retención de combustible con 6, 8, 10 y 12 mm de diámetro de conexión.

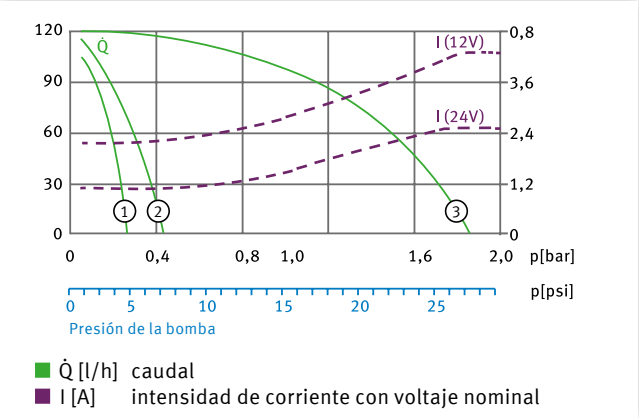
2. BOMBAS DE COMBUSTIBLE ELÉCTRICAS

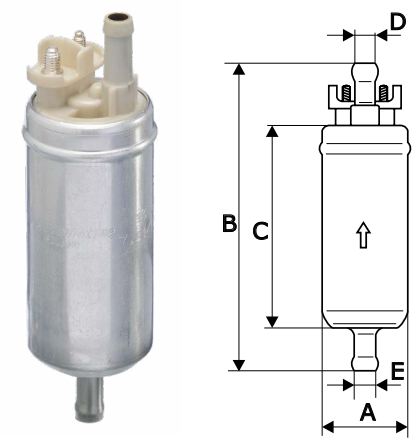
BOMBAS DE COMBUSTIBLE ELÉCTRICAS TIPO E1F

Una bomba utilizada a menudo es la E1F. Se trata de una bomba volumétrica en línea con mecanismo de bombeo de aletas y adecuada para presiones del sistema de 0,1-1,0 bares. Esta bomba está disponible para funcionamiento con 12 y 24 voltios y se instala en la tubería. Para el funcionamiento con 6 voltios (p. ej., en oldtimers) se recomienda la E1F n.º 7.21440.53.0. Con el funcionamiento a 6 voltios la presión y el caudal se reducen aproximadamente a la mitad.

ATENCIÓN

Al reequipar una bomba de combustible eléctrica está prescrito el montaje de una desconexión de seguridad.





N.º Pierburg	Curva	Voltaje nominal	Presión estát. con Q=0 l/h	Caudal con	Presión del sistema con	Medidas de montaje y conexión (véase la fig.) [mm]					Absorción de corriente
		[V]	[bar/(psi)]	[l/h]	[bar/(psi)]	Ø A	B	C	Ø D	Ø E	[A]
7.21440.51.0	1	12	0,27–0,38 (4–5,5)	95	0,10 (1,5)	38	133,5	84,5	8	8	≤ 2,0
7.21440.53.0	2	12*)	0,44–0,57 (6,3–8,3)	100	0,15 (2,2)	38	133,5	84,5	8	8	≤ 2,05
7.21440.63.0	2	24	0,44–0,57 (6,3–8,3)	100	0,15 (2,2)	38	134,2	84,5	8	8	≤ 1,35

7.21440.78.0	3	12	› 1,85 (› 26,8)	95	1,00 (14,5)	38	141,5	91,0	8	12	≤ 4,3

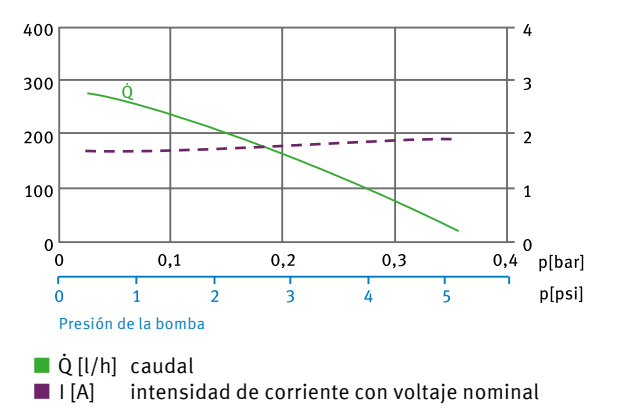
*) También apto para funcionamiento a 6 voltios

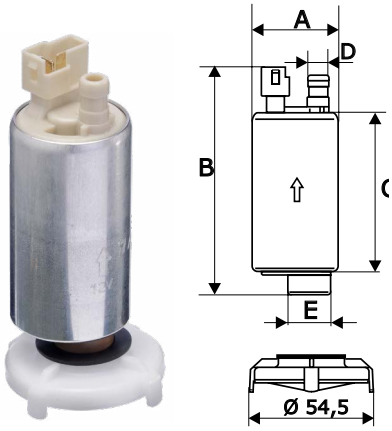
BOMBAS DE COMBUSTIBLE ELÉCTRICAS TIPO E1S

La E1S se ofrece para el montaje en un depósito de combustible. Es una bomba de drenaje con mecanismo de bombeo de canal lateral en versión de 12 voltios. Esta bomba se utiliza de preferencia como bomba de prealimentación. Las bombas de prealimentación impulsan el medio bombeado de la bomba principal con una presión reducida. De este modo se evita la generación de un vacío en el lado de aspiración de la bomba principal y que la bomba principal sufra daños por cavitación.

ATENCIÓN

Altura máxima de aspiración: 0 mm. La bomba debe estar montada en el medio bombeado. Las bombas del tipo E1S se pueden utilizar como bombas de prealimentación para un caudal de aprox. 220 l/h.

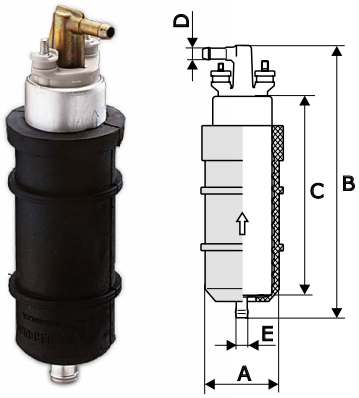




N.º Pierburg	Voltaje nominal	Presión estát. con Q=0 l/h	Caudal con	Presión del sistema con	Medidas de montaje y conexión (véase la fig.) [mm]					Absorción de corriente	Altura de aspiración máx.
	[V]	[bar/(psi)]	[l/h]	[bar/(psi)]	Ø A	B	C	Ø D	Ø E	[A]	[mm]
7.21088.62.0	12	0,35	75	0,24 (3,5)	38	100	75,3	8	19	3	0

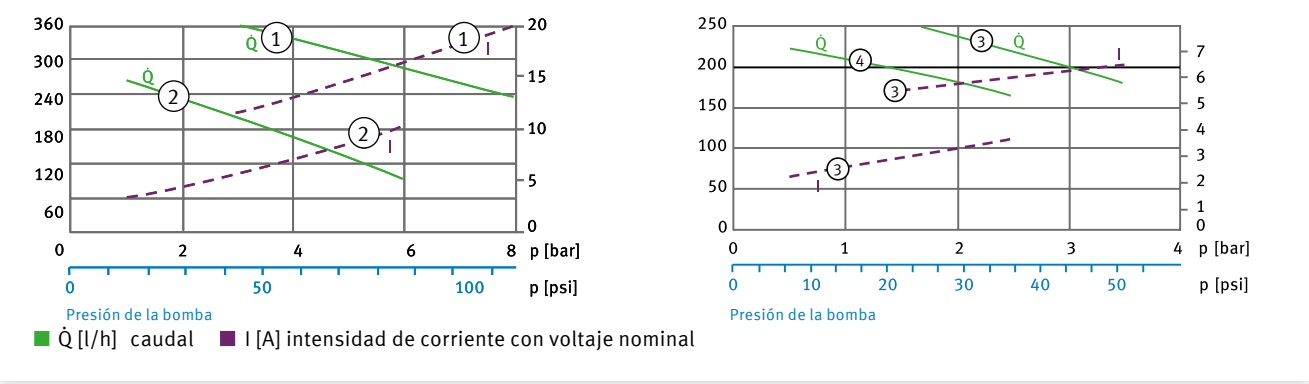
BOMBAS DE COMBUSTIBLE ELÉCTRICAS TIPO E3L

Las bombas del tipo E3L son bombas en línea con un mecanismo de bomba helicoidal. Son especialmente eficaces, silenciosas y tienen una absorción de corriente comparativamente reducida incluso a presiones más altas.



ATENCIÓN

Altura máxima de aspiración: 500 mm (con las tuberías llenas).



N.º Pierburg	Curva	Voltaje nominal	Caudal con	Presión del sistema con	Medidas de montaje y conexión (véase la fig.) [mm]					Absorción de corriente
		[V]	[l/h]	[bar/(psi)]	Ø A	B	C	Ø D	Ø E	[A]

[1] Corresponde a 7.22156.50.0 con revestimiento de goma [2] Medida incluido el revestimiento de goma [3] Autorizado para biodiésel según la norma EN 14214 (FAME)

PIERBURG

BOMBAS DE COMBUSTIBLE ELÉCTRICAS TIPO E2T / E3T

Las bombas de combustible de la serie E2T / E3T son bombas de engranaje autosuccionantes y están diseñadas para mayores caudales de alimentación. En el lado de escape se encuentra una válvula de mantenimiento de presión que, según la versión de la bomba, está integrada en la bomba o instalada en la tubuladura roscada intercambiable. Una válvula limitadora de presión integrada impide un aumento excesivo de presión y con ello previene posibles daños en el sistema de alimentación de combustible. La válvula limitadora de presión es una válvula de seguridad y no es adecuada para la regulación de la presión!

ATENCIÓN

Altura máxima de aspiración: 500 mm. Las bombas de combustible eléctricas E2T / E3T tienen un diámetro exterior de 43 mm. Junto con el revestimiento de goma suministrado, estas bombas son adecuadas para sustituir bombas de combustible de otros fabricantes con diámetros exteriores de 52 a 60 mm (véase la tabla, cota «A»). El revestimiento de goma sirve, además, como revestimiento insonorizante.

TUBULADURA ROSCADA

Según la versión, las bombas de combustible disponen de una conexión con rosca interior M10x1 en el lado de presión. Con estas bombas de combustible se adjuntan una o varias tubuladuras roscadas o estas ya están premontadas (véase la tabla, cota «D» y la codificación detallada a continuación).

UNIDADES DE CONTROL PARA BOMBAS DE COMBUSTIBLE

Hemos ampliado nuestro surtido para usted:
con 19 unidades de control para bombas de combustible podrá tener una amplia cobertura de mercado para 10 millones de vehículos en el mercado posventa. Esté siempre un paso por delante frente a la competencia, utilice nuestra oferta y ofrezca a sus clientes productos de precisión en calidad de repuestos originales.

INFORMAZIONI IMPORTANTI

Tutte le informazioni contenute in questo catalogo sono non vincolanti. Decliniamo ogni responsabilità quanto alla loro correttezza e completezza. Le segnalazioni di eventuali errori presenti nel catalogo sono sempre benvenute e verranno utilizzate a fini di rettifica delle edizioni future.

I nomi, le descrizioni e i numeri dei veicoli o dei costruttori ecc., nonché i numeri delle parti originali dei costruttori di veicoli e motori, sono indicati solo a scopo di confronto. Tali indicazioni non costituiscono denominazioni di origine e non possono essere utilizzate nei confronti di terzi. Si noti, inoltre, che non si possono escludere modifiche all'attrezzatura da parte dei costruttori di veicoli o motori né modifiche alle denominazioni. Pertanto, non ci assumiamo nessuna responsabilità riguardo all'uso delle liste di comparazione.

Ci riserviamo espressamente di modificare in qualsiasi momento le specifiche, i materiali, l'aspetto e l'ambito di consegna dei nostri prodotti. Le illustrazioni del catalogo non sono quindi vincolanti.

Prima dell'installazione, verificare sempre che il prodotto acquistato sia idoneo all'uso che se ne intende fare. Dalle nostre informazioni non è lecito desumere affermazioni su una particolare natura o sull'idoneità a uno scopo particolare. Si noti, in particolare, che i prodotti presentati nel catalogo non sono destinati all'uso in aeromobili e veicoli spaziali. In caso di utilizzo in motori Off-Highway (ad es. marini, stazionari o ferroviari), tenere presente che per la stessa denominazione di motore possono trovare impiego componenti del motore differenti (ad es. pistoni). Pertanto, prima dell'installazione dei prodotti potrebbe essere necessario il parere di un esperto del produttore o della sua officina autorizzata. Si ricorda, inoltre, che l'installazione deve sempre essere eseguita da personale specializzato e qualificato. Le illustrazioni, i disegni schematici e le altre informazioni hanno uno scopo illustrativo e esplicativo e non possono essere utilizzate come base per l'installazione.

Qualsiasi riproduzione, imitazione, distribuzione o comunicazione pubblica di questo catalogo, anche in estratti, è consentita solo con il nostro preventivo consenso scritto, e citando correttamente la fonte. Con la pubblicazione di questo catalogo tutte le precedenti edizioni perdono di validità.

CERTIFICAZIONI

MS Motorservice International GmbH dispone di un sistema di gestione della qualità certificato ISO 9001 e di un sistema di gestione ambientale certificato ISO 14001.

GRUPPO MOTORSERVICE

QUALITÀ E ASSISTENZA DA UN UNICO FORNITORE

Il gruppo Motorservice è l'organizzazione di distribuzione per le attività aftermarket di Rheinmetall a livello globale. L'azienda rappresenta uno dei fornitori leader per componenti del motore nel mercato libero dei ricambi. Con i marchi premium Kolbenschmidt, Pierburg, TRW Engine Components e i marchi BF e turbo by Intec, Motorservice offre ai suoi rivenditori e alle officine un ampio e vario assortimento di elevata qualità.

RHEINMETALL

TECNOLOGIE PER LA MOBILITÀ DEL FUTURO

In qualità di partner privilegiato dell'industria automobilistica, Rheinmetall è leader a livello mondiale nei settori dell'alimentazione dell'aria, della riduzione delle sostanze nocive e delle pompe nonché nello sviluppo, nella produzione e nella fornitura di ricambi di pistoni, blocchi motore e cuscinetti a strisciamento. Lo sviluppo dei prodotti avviene in stretta collaborazione con i principali costruttori automobilistici.

TRASFERIMENTO DI KNOW-HOW
CONSULENZA DI ESPERTI

FORMAZIONE A LIVELLO GLOBALE
Direttamente dal produttore
Ogni anno circa 4.500 meccanici e tecnici colgono l'opportunità e partecipano ai nostri corsi di formazione e seminari che organizziamo in loco in tutto il mondo o anche nei nostri centri di formazione a Dormagen e Tamm (Germania).

INFORMAZIONI TECNICHE
Consigli pratici per il lavoro quotidiano
Con le Product Information, le Service Information, le brochure e i poster tecnici lo stato attuale della tecnica non è più un mistero.

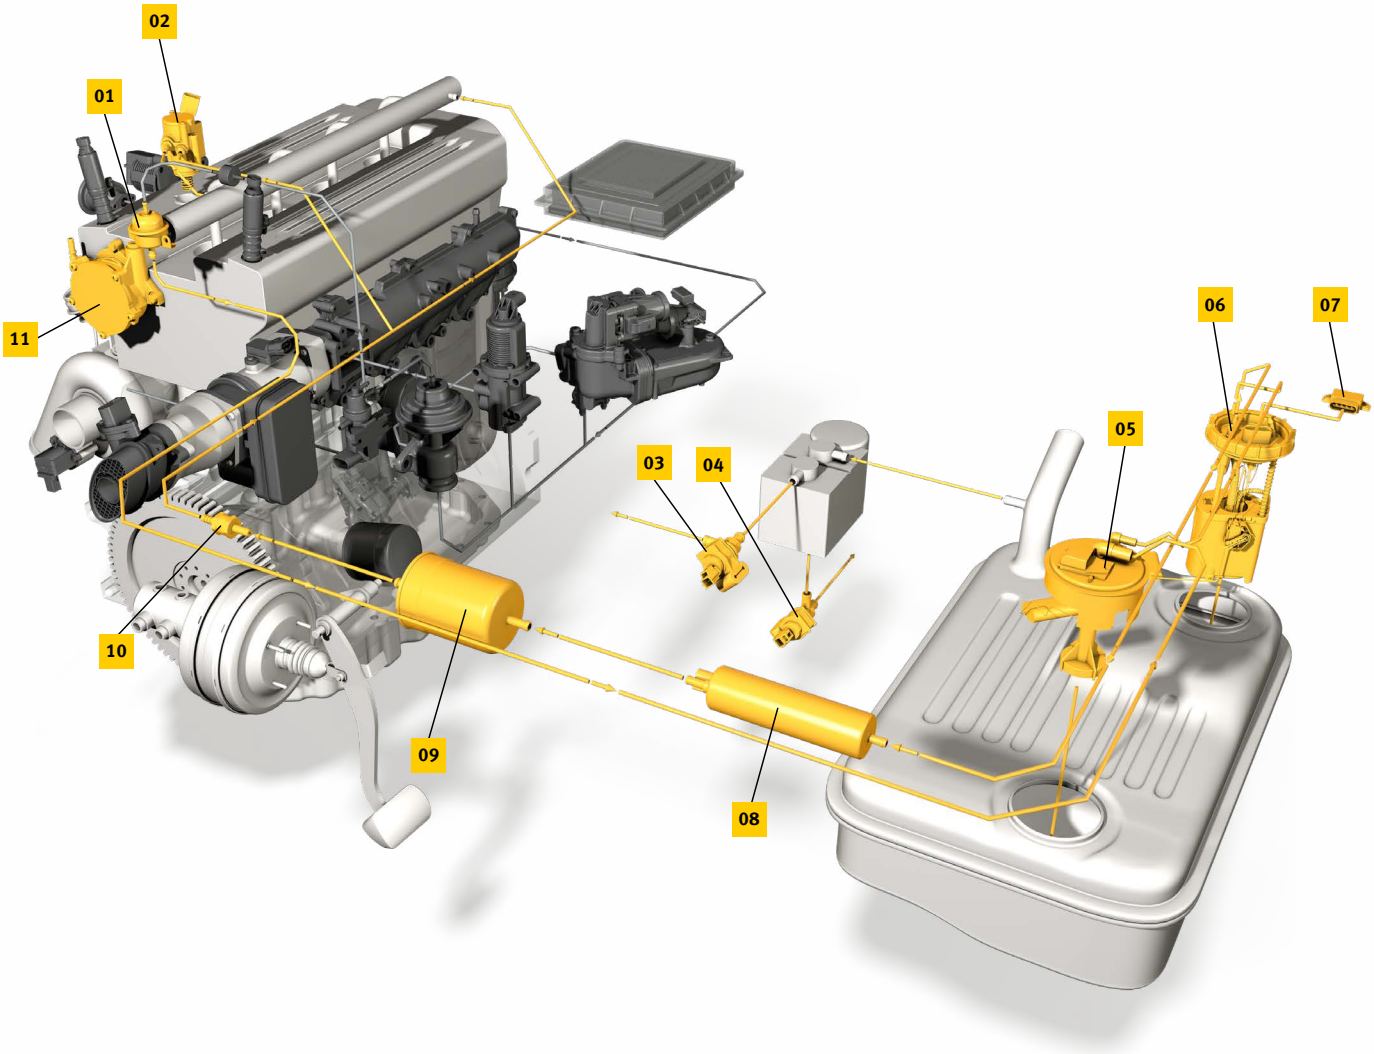
1. ALIMENTAZIONE DEL CARBURANTE

AMPIA GAMMA DI PRODOTTI DALLA QUALITÀ COMPROVATA

Dalle pompe di alimentazione carburante, ai moduli d'alimentazione e trasduttori livello carburante, dai regolatori della pressione di sistema, alle valvole di non ritorno alle valvole di rigenerazione fino a includere le valvole FCA: Motorservice offre un ampio spettro di componenti essenziali per il sistema di alimentazione del carburante – con la comprovata qualità Pierburg.

GAMMA DI PRODOTTI

01 Regolatore di pressione del carburante
02 Pompa ad alta pressione per il carburante
03 valvola di rigenerazione filtro a carbone attivo
04 Valvola di intercettazione filtro a carbone attivo
05 Trasduttore di livello carburante
06 Modulo alimentazione carburante (intank)
07 Centralina di comando per la pompa di alimentazione carburante
08 Pompa di alimentazione carburante (inline)
09 Filtro carburante (Kolbenschmidt)
10 Valvola di non ritorno carburante
11 Pompa tandem carburante / vuoto



MODULI ALIMENTAZIONE CARBURANTE

I moduli di alimentazione carburante sono disposti nel serbatoio. Sono composti da un coperchio della flangia, dalla pompa di alimentazione carburante nello stabilizzatore di livello nonché da altre parti annesse come il trasduttore livello carburante e il regolatore di pressione.

Oltre a moduli alimentazione carburante completi, la gamma di prodotti di Motorservice propone anche parti annesse come trasduttore livello carburante, guarnizioni e kit di riparazione semplici da utilizzare.

POMPE ELETTRICHE DI ALIMENTAZIONE DEL CARBURANTE

Le pompe elettriche di alimentazione del carburante convogliano il carburante alle valvole d'iniezione con una pressione definita. Esse sono disponibili sia in versioni specifiche per veicolo che per l'impiego universale in diversi livelli di pressione e di potenza. Le pompe di alimentazione carburante in-line sono disposte nel
condotto del carburante. Le pompa di alimentazione carburante intank sono montate nel serbatoio.

Motorservice è uno dei fornitori leader di pompe elettriche di alimentazione del carburante nell'aftermarket.

POMPE MECCANICA DI ALIMENTAZIONE DEL CARBURANTE

Le classiche pompe meccaniche di alimentazione del carburante sono spesso montate nei veicoli più datati. Esse vengono azionate tramite punteria oppure leva direttamente dal motore. Motorservice ne ha introdotto diversi tipi nella gamma di prodotti per l'uso nei veicoli più datati. Le pompe ad alta pressione meccaniche nei motori FSI, TFSI e TSI di VAG generano una pressione di iniezione da ca. 120 a 200 bar.
Le pompe tandem svolgono la funzione di una pompa per vuoto meccanica e sono inoltre utilizzate per l'alimentazione del carburante.

CENTRALINE DI COMANDO PER POMPE DI ALIMENTAZIONE CARBURANTE

Nei motori moderni la centralina di comando è parte dell'alimentazione del carburante regolata. Al contrario dell'alimentazione del carburante non regolata viene convogliata solo la quantità di carburante effettivamente necessaria. Questo riduce l'assorbimento di potenza
con risparmio di carburante. Il diagramma caratteristico è specifico per il modello e il motore del veicolo.

Con il nostro programma di 19 centraline di comando di qualità OE ottenete una copertura del mercato di oltre 10 milioni di veicoli.

REGOLATORE DI PRESSIONE DEL CARBURANTE

I regolatori di pressione del carburante vengono utilizzati nei motori a benzina con iniezione del carburante. Essi provvedono a mantenere il carburante ad una pressione costante necessaria per gli iniettori.

VALVOLE DI NON RITORNO CARBURANTE

Le valvole di non ritorno carburante vengono montate nei condotti del carburante. Esse fanno sì che il carburante possa fluire in una sola direzione e impediscono lo svuotamento del serbatoio o delle tubazioni.

Motorservice propone valvole di non ritorno carburante con diametro esterno di 6, 8, 10 e 12 mm.

ITALIANO

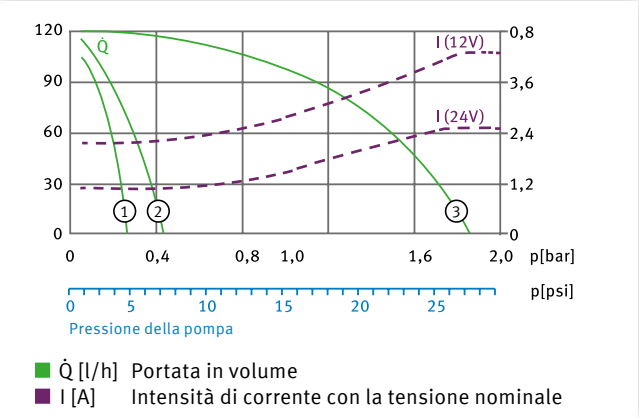
2. POMPE ELETTRICHE DI ALIMENTAZIONE DEL CARBURANTE

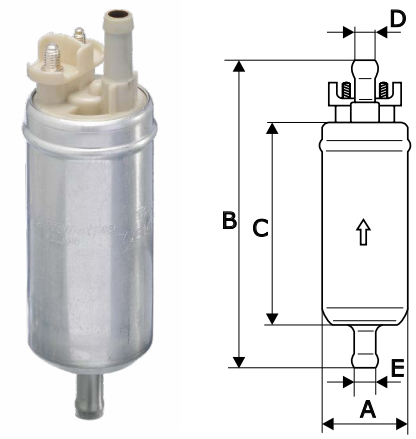
POMPE ELETTRICHE DI ALIMENTAZIONE DEL CARBURANTE, TIPO E1F

Una pompa spesso utilizzata è la E1F. Si tratta di una pompa volumetrica inline con impianto di pompaggio rotativo a palette, adatta per pressioni del sistema comprese tra 0,1 e 1,0 bar. Questa pompa è disponibile per l'esercizio a 12 e 24 volt e viene posizionata nella tubazione. Per l'esercizio a 6 volt (per es. con le oldtimer) consigliamo la E1F n. 7.21440.53.0. Nell'esercizio a 6 volt la pressione e la portata in volume si riducono di ca. la metà.

ATTENZIONE

Se la pompa elettrica di alimentazione del carburante viene montata a posteriori è prescritto il montaggio di un disinserimento di sicurezza.





N. Pierburg	Curva	Tensione nominale	Press. stat. a Q=0 l/h	Portata in volume a	Pressione del sistema a	Dimensioni di montaggio e quote di attaco (vedere fig.) [mm]					Assorbimento di corrente
		[V]	[bar/(psi)]	[l/h]	[bar/(psi)]	Ø A	B	C	Ø D	Ø E	[A]

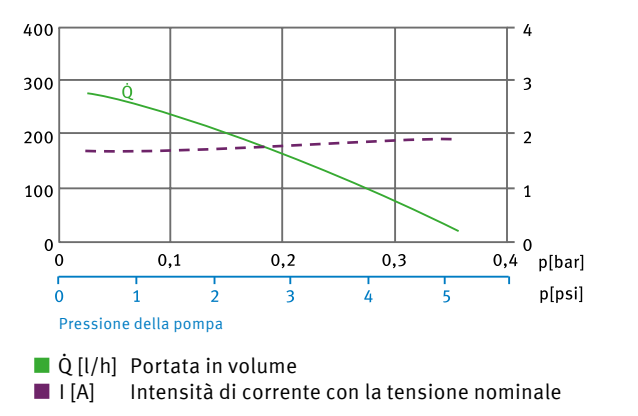
*) Adatto anche per l'esercizio a 6 volt

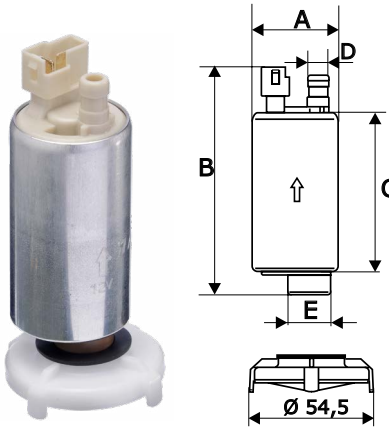
POMPE ELETTRICHE DI ALIMENTAZIONE DEL CARBURANTE, TIPO E1S

Per il montaggio in un serbatoio del carburante si offre la E1S. Si tratta di una pompa idrodinamica con un impianto di pompaggio a canale laterale nella versione da 12 volt. Questa pompa viene impiegata preferibilmente come pompa di pre-mandata. Le pompe di pre-mandata convogliano il mezzo di alimentazione della pompa principale con una pressione ridotta. In questo modo si evita che sul lato di aspirazione della pompa principale si formi una depressione e che la pompa principale si danneggi a causa della cavitazione.

ATTENZIONE

Altezza di aspirazione massima: 0 mm. La pompa deve essere montata nel mezzo di alimentazione. Le pompe del tipo E1S possono essere impiegate come pompe di pre-mandata fino a una portata in volume di ca. 220 l/h.





N. Pierburg	Tensione nominale	Press. stat. a Q=0 l/h	Portata in volume a	Pressione del sistema a	Dimensioni di montaggio e quote di attacco (vedere fig.) [mm]					Assorbimento di corrente	Altezza di aspirazione max.

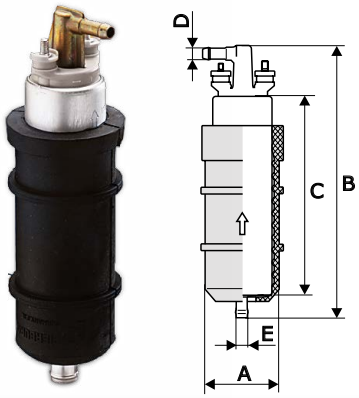
7.21088.62.0	12	0,35	75	0,24 (3,5)	38	100	75,3	8	19	3	0

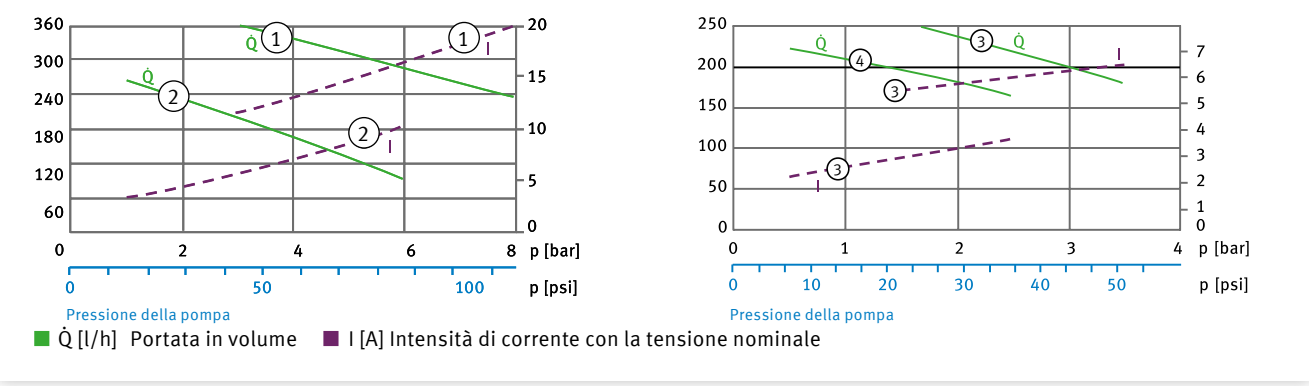
POMPE ELETTRICHE DI ALIMENTAZIONE DEL CARBURANTE, TIPO E3L

Le pompe del tipo E3L sono pompe inline con impianto di pompaggio a vite. Sono particolarmente efficienti, silenziose e hanno un assorbimento di corrente ridotto rispetto agli altri modelli anche con pressioni più elevate.



⚠ ATTENZIONE

Altezza di aspirazione massima: 500 mm (con le tubazioni piene).



N. Pierburg	Curva	Tensione nominale	Portata in volume a	Pressione del sistema a	Dimensioni di montaggio e quote di attacco (vedere fig.) [mm]					Assorbimento di corrente

[1] corrisponde al 7.22156.50.0 con mantello in gomma [2] misura incluso mantello in gomma [3] adatto per il biodiesel in conformità a EN 14214 (FAME)

POMPE ELETTRICHE DI ALIMENTAZIONE DEL CARBURANTE TIPO E2T / E3T

Le pompe di alimentazione carburante della serie E2T / E3T sono pompe ad anello dentato e sono studiate per portate superiori. Sul lato scappamento si trova una valvola di mantenimento pressione che, a seconda della versione della pompa, è integrata nella pompa stessa o è sistemata nel bocchettone filettato selezionabile. Una valvola limitatrice di pressione integrata impedisce un eccessivo aumento della pressione e, quindi, eventuali danni nel sistema di alimentazione del carburante. La valvola limitatrice di pressione è una valvola di sicurezza e non è adatta alla regolazione della pressione.

ATTENZIONE

Altezza di aspirazione massima: 500 mm. Le pompe elettriche di alimentazione del carburante carburante E2T / E3T hanno un diametro esterno di 43 mm. In combinazione con il mantello in gomma talvolta fornito, sono adatte per la sostituzione di pompe di alimentazione carburante di altri produttori con diametri esterni di 52 e 60 mm (vedere tabella, misura “A”). Il mantello in gomma serve inoltre all'isolamento acustico.

BOCCHETTONE FILETTATO

A seconda della versione, le pompe di alimentazione carburante dispongono di un collegamento con filettatura interna M10x1 sul lato mandata.

A queste pompe di alimentazione carburante sono allegati uno o più bocchettoni filettati. In alternativa, questi sono già premontati (vedere tabella misura “D” e ripartizione sottostante).

CENTRALINE DI COMANDO PER POMPE DI ALIMENTAZIONE CARBURANTE

Abbiamo ampliato per voi il nostro assortimento:
con 19 centraline di comando per pompe di alimentazione carburante potrete raggiungere un'ampia copertura del mercato pari a 10 milioni di veicoli nell'aftermarket. Mantenete un passo avanti rispetto alla concorrenza sfruttando la nostra offerta e offrite ai vostri clienti i prodotti gusti di qualità OE.

ВАЖНЫЕ УКАЗАНИЯ

Все приведенные в этом каталоге данные не являются обязательными. Мы не можем принять на себя ответственность за их правильность и полноту. Мы всегда рады получить информацию о возможных допущенных в каталоге ошибках, которые мы исправляем в следующих изданиях.

Названия, описания и номера автомобилей, производителей и т. п., а также оригинальные артикулы производителей автомобилей и двигателей приводятся только для сравнения. Соответствующие данные не являются данными о происхождении и не могут быть использованы против третьих лиц. Просим вас также учитывать, что не исключаются изменения в оснащении, внесенные производителями автомобилей или двигателей, а также изменения обозначений. По этой причине мы не можем принять на себя ответственность за использование списков сравнения.

Мы оставляем за собой право в любое время изменять спецификации, материалы, внешний вид и комплекты поставки наших компонентов. Поэтому приведенные в каталоге рисунки не являются обязательными.

Перед установкой всегда необходимо проверять пригодность приобретенного компонента к использованию в намеченных целях. На основании предоставленных нами данных нельзя сделать заключения о наличии определенных характеристик или о пригодности к использованию в какой-либо области применения.
В частности, следует учесть, что предлагаемые в каталоге компоненты не предназначены для использования в воздушных и космических транспортных средствах.
В случае применения в двигателях, не предназначенных для дорожного транспорта (напр., судовых и стационарных двигателях, а также тяговых двигателях рельсового транспорта) необходимо учитывать, что при одном и том же обозначении двигателей в них могут использоваться разные компоненты (например, поршни). По этой причине перед установкой компонентов может потребоваться компетентная консультация производителя или авторизованной СТО. Мы также обращаем ваше внимание на то, что установку компонентов всегда должны выполнять квалифицированные специалисты. Рисунки, схематические чертежи и прочие данные используются для пояснения и иллюстрации; они не могут служить основой для установки.

Любое копирование, повторение, распространение или публичная демонстрация настоящего каталога или его частей возможны только с нашего предварительного письменного согласия с соответствующим указанием источника. С момента выпуска данного каталога все предыдущие издания теряют свою силу.

СЕРТИФИКАТЫ

Компания MS Motorservice International GmbH успешно прошла сертификацию системы менеджмента качества по ISO 9001 и системы экологического менеджмента по ISO 14001.

ГРУППА MOTORSERVICE
КАЧЕСТВО И СЕРВИС ИЗ ОДНИХ РУК

Группа Motorservice — это организация по сбыту продукции концерна Rheinmetall, активно действующая на мировом рынке послепродажного обслуживания автомобилей. Она является ведущей фирмой, предлагающей компоненты двигателей для свободного рынка запасных частей. Клиенты Motorservice получают из магазинов и СТО широкий и глубокий ассортимент продукции высочайшего качества, охватывающий премиум-марки Kolbenschmidt, Pierburg, TRW Engine Components, а также марки BF и turbo by Intec.

RHEINMETALL
ТЕХНОЛОГИИ В СФЕРЕ МОБИЛЬНОСТИ БУДУЩЕГО

В качестве поставщика автомобильной промышленности в мировом масштабе Rheinmetall, благодаря своему профессионализму, занимает на соответствующих рынках ведущие в мире позиции в таких областях, как снабжение воздухом, уменьшение содержания вредных веществ и насосы, а также по разработке и производству поршней, блоков цилиндров двигателей и подшипников скольжения, включая поставку запасных частей к ним. Разработка продуктов осуществляется в тесном сотрудничестве с известными компаниями-производителями транспортных средств.

ПЕРЕДАЧА НОУ-ХАУ
СПЕЦИАЛЬНЫЕ ЗНАНИЯ ОТ ЭКСПЕРТА

КУРСЫ ОБУЧЕНИЯ ПО ВСЕМУ МИРУ
Напрямую от изготовителя

Ежегодно около 4 500 механиков и техников приобретают новые знания на наших курсах обучения и семинарах, которые мы проводим как на местах, в различных странах мира, так и в наших учебных центрах, расположенных в Нойенштадте, Дормагене и Тамме (Германия).

ТЕХНИЧЕСКАЯ ИНФОРМАЦИЯ
Практические навыки для практического применения

Благодаря нашим Product Information, Service Information, техническим брошюрам и плакатам Вы всегда будете идти в ногу со временем.

ТЕХНИЧЕСКИЕ ВИДЕОФИЛЬМЫ
Передача знаний по видео

Наши видеофильмы содержат проверенные на практике инструкции по монтажу и системные пояснения к нашим продуктам.

YouTube

ПРОДУКТЫ В ФОКУСЕ ВНИМАНИЯ ОНЛАЙН
Наглядное описание наших решений

Вы узнаете много интересного о наших продуктах, установленных внутри двигателя и вокруг него, благодаря интерактивным элементам, анимации и видеороликам.

ВИРТУАЛЬНЫЙ МАГАЗИН
Ваш прямой доступ к нашим продуктам

Оформление заказов круглосуточно. Быстрый контроль наличия. Обширный поиск продуктов по двигателю, транспортному средству, размерам и т. д.

НОВОСТИ
Регулярно рассылаемая по e-mail информация

Подпишитесь онлайн на наш бюллетень, и Вы будете регулярно и бесплатно получать информацию о новых продуктах в программе, технические издания и многое другое.

ИНДИВИДУАЛЬНАЯ ИНФОРМАЦИЯ
Специально для наших заказчиков

Подробная информация и сервис из нашего обширного спектра услуг, например: индивидуализированные материалы для содействия сбыту, поддержка сбыта, техническая поддержка и многое другое.

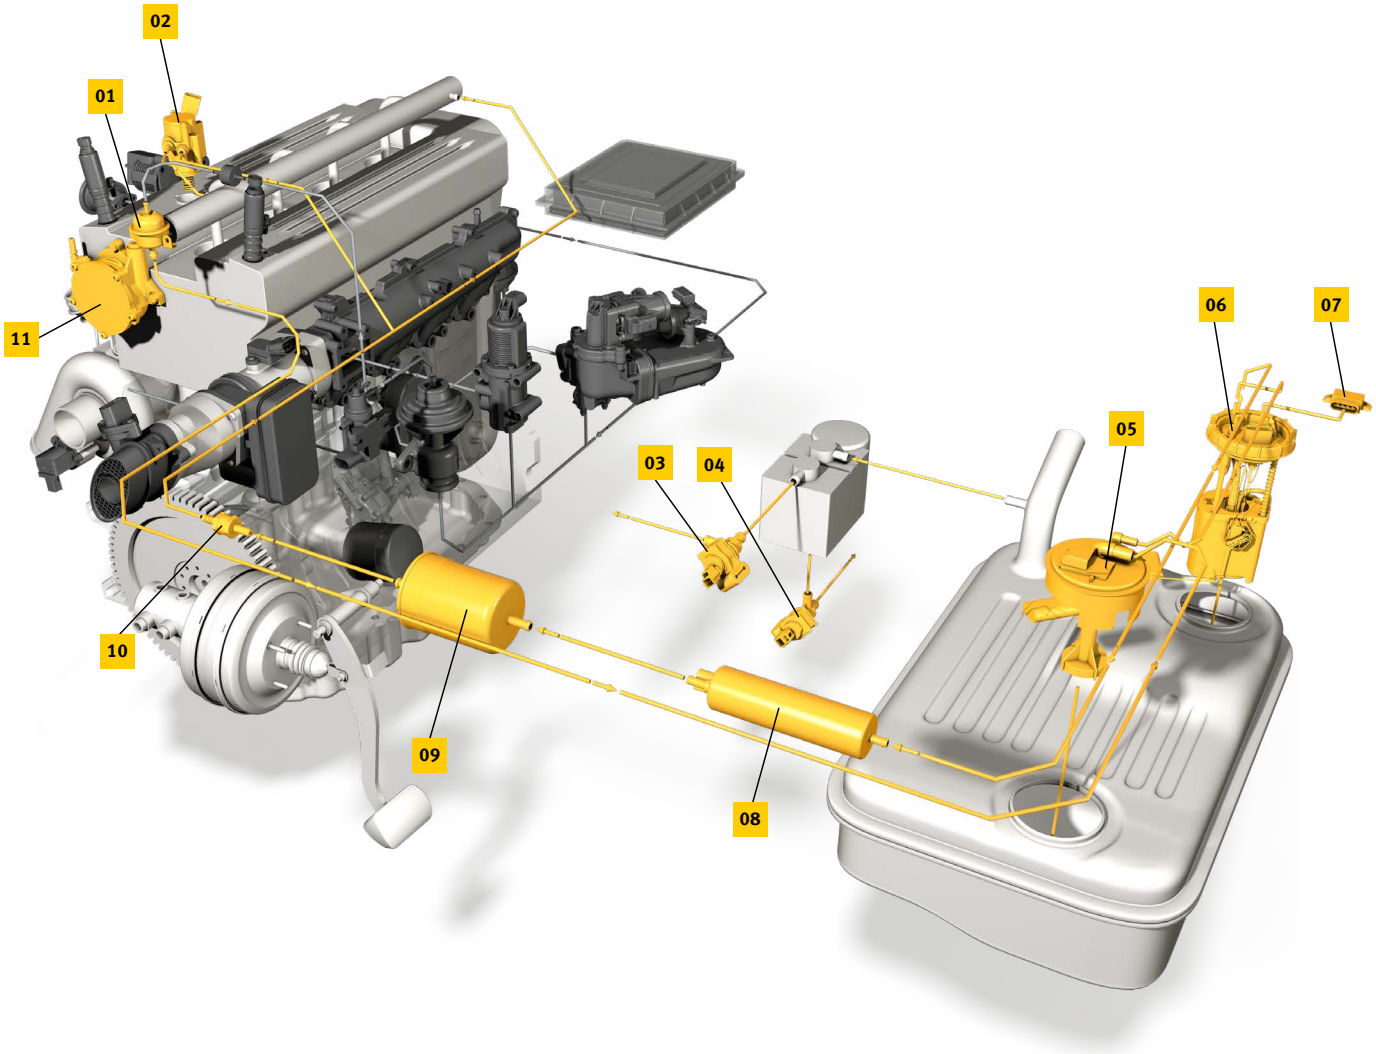
1. СНАБЖЕНИЕ ТОПЛИВОМ

ОБШИРНЫЙ ПРОИЗВОДСТВЕННЫЙ АССОРТИМЕНТ ПРОВЕРЕННОГО КАЧЕСТВА

Будь то топливные насосы, модули подачи топлива, датчики уровня топлива, регуляторы давления топлива, обратные клапаны или клапаны системы поглощения топливных испарений: компания Motorservice предлагает широкий выбор незаменимых компонентов топливной системы — проверенного качества Pierburg.

ПРОИЗВОДСТВЕННЫЙ АССОРТИМЕНТ

01 Регулятор давления топлива
02 Топливный насос высокого давления
03 Клапан продувки угольного адсорбера
04 Запорный клапан угольного адсорбера
05 Узел датчика уровня топлива
06 Модуль подачи топлива (In-Tank)
07 Блок управления топливным насосом
08 Топливный насос (In-Line)
09 Топливный фильтр (Kolbenschmidt)
10 Топливный обратный клапан
11 Тандемный насос топливо / вакуум



МОДУЛИ ПОДАЧИ ТОПЛИВА

Модули подачи топлива устанавливаются в топливном баке. Они включают в себя крышку с фланцем, запасной резервуар с установленным в нём топливным насосом, а также другие возможные компоненты, например, датчик уровня топлива или регулятор давления.

Наряду с модулями подачи топлива в сборе, в производственный ассортимент Motorservice входят также комплектующие:
датчики уровня топлива, уплотнения и удобные ремонтные наборы.

ЭЛЕКТРИЧЕСКИЕ ТОПЛИВНЫЕ НАСОСЫ

Электрические топливные насосы подают топливо под заданным давлением к топливным форсункам. Предлагаются насосы с различными значениями давления и производительности, предназначенные как для определенных моделей автомобилей, так и для универсального применения. Топливные насосы In-Line устанавливаются в топливопроводе, а топливные насосы In-Tank — в топливном баке.

Motorservice является одной из ведущих компаний, предлагающих электрические топливные насосы на рынке запасных частей.

МЕХАНИЧЕСКИЕ ТОПЛИВНЫЕ НАСОСЫ

Традиционные механические топливные насосы часто встречаются в автомобилях старых моделей. Они приводятся в действие непосредственно от двигателя толкателем или рычагом. Компания Motorservice включила в свой производственный ассортимент различные типы насосов для старых моделей автомобилей. В двигателях FSI, TFSI и TSI производства VAG механические топливные насосы высокого давления обеспечивают необходимое давление впрыска от 120 до 200 бар. Тандемные насосы выполняют функции механических вакуумных насосов и, помимо этого, используются для подачи топлива.

БЛОКИ УПРАВЛЕНИЯ ТОПЛИВНЫМИ НАСОСАМИ

Блок управления является одним из компонентов регулируемой системы подачи топлива современных двигателей. В отличие от нерегулируемой топливной системы, обеспечивается подача только необходимого количества топлива. Благодаря этому снижаются потребляемая мощность и расход топлива. В каждом случае обеспечиваются необходимые для данного двигателя и модели автомобиля характеристики.

Наш ассортимент, включающий в себя 19 типов блоков управления конвейерного качества, обеспечивает применяемость более чем на 10 миллионах автомобилей.

РЕГУЛЯТОРЫ ДАВЛЕНИЯ ТОПЛИВА

Регуляторы давления топлива используются в бензиновых двигателях с впрыском топлива. Они поддерживают постоянное давление топлива, требуемое для впрыскивающих форсунок.

ТОПЛИВНЫЕ ОБРАТНЫЕ КЛАПАНЫ

Топливные обратные клапаны устанавливаются в топливопроводах. Они пропускают топливо только в одном направлении, предотвращая опустошение бака или топливопроводов.

Компания Motorservice предлагает топливные обратные клапаны с присоединительными диаметрами 6, 8, 10 и 12 мм.

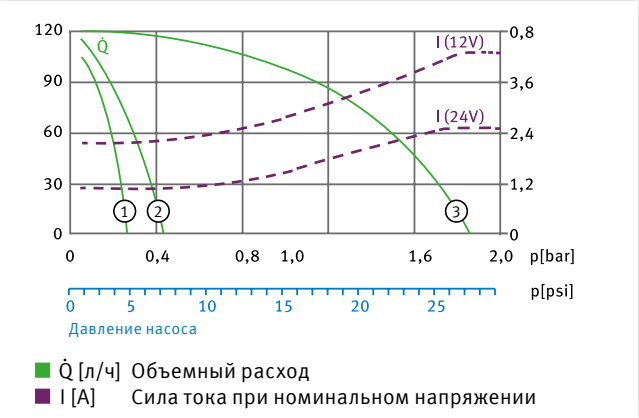
2. ЭЛЕКТРИЧЕСКИЕ ТОПЛИВНЫЕ НАСОСЫ

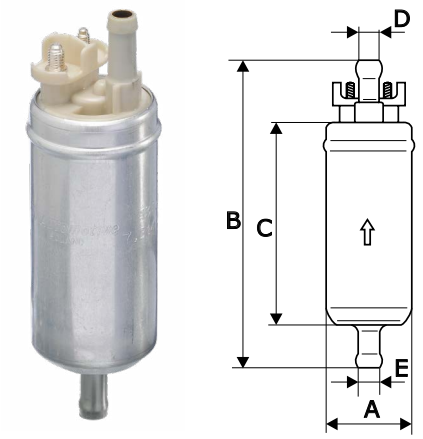
ЭЛЕКТРИЧЕСКИЕ ТОПЛИВНЫЕ НАСОСЫ ТИПА E1F

Насос E1F находит широкое применение. Этот объемный насос с лопастным насосным механизмом устанавливается в топливопроводе и предназначен для работы при давлении в системе 0,1–1,0 бар. Предлагаются насосы для режимов работы 12 и 24 Вольт. Для работы в режиме 6 Вольт (например, на олдтаймерах) мы рекомендуем насос E1F № 7.21440.53.0. В режиме работы 6 Вольт давление и объемный расход снижаются почти вдвое.

ВНИМАНИЕ

В случае дооснащения электрическим топливным насосом требуется установка устройства аварийного отключения!





Pierburg №	Кривая	Номинальное напряжение	Стат. давление при Q=0 л/ч	Объемный расход при	Давление в системе при	Монтажные или присоед. размеры (см. рис.) [мм]					Потребление тока
		[В]	[бар/(psi)]	[л/ч]	[бар/(psi)]	Ø A	B	C	Ø D	Ø E	[A]
7.21440.51.0	1	12	0,27–0,38 (4–5,5)	95	0,10 (1,5)	38	133,5	84,5	8	8	≤ 2,0
7.21440.53.0	2	12*)	0,44–0,57 (6,3–8,3)	100	0,15 (2,2)	38	133,5	84,5	8	8	≤ 2,05
7.21440.63.0	2	24	0,44–0,57 (6,3–8,3)	100	0,15 (2,2)	38	134,2	84,5	8	8	≤ 1,35
7.21440.68.0	3	24	› 1,85 (› 26,8)	95	1,00 (14,5)	38	139,5	90,5	8	8	≤ 3,0
7.21440.78.0	3	12	› 1,85 (› 26,8)	95	1,00 (14,5)	38	141,5	91,0	8	12	≤ 4,3

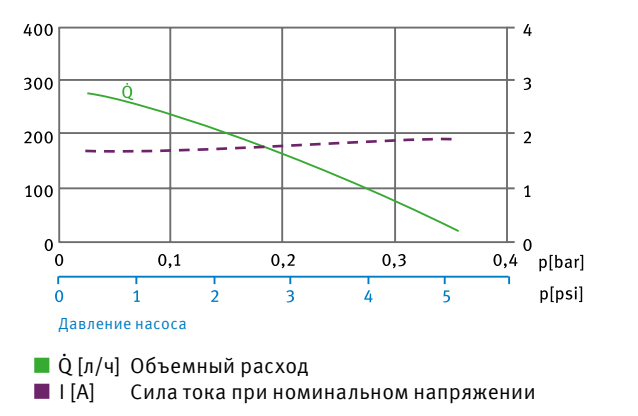
*) подходит также для режима работы 6 Вольт

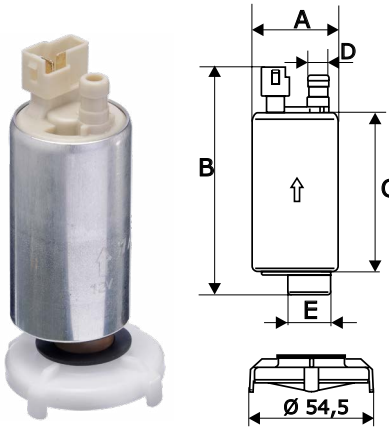
ЭЛЕКТРИЧЕСКИЕ ТОПЛИВНЫЕ НАСОСЫ ТИПА E1S

Для установки в топливный бак предназначен насос E1S. Этот динамический насос в исполнении на 12 Вольт имеет насосный механизм с боковым каналом. Данный насос используется главным образом в качестве насоса предварительной подкачки. Насосы предварительной подкачки подают транспортируемую среду в главный насос под незначительным давлением. Благодаря этому предотвращаются разрежение со стороны впуска главного насоса и повреждение главного насоса под действием кавитации.

ВНИМАНИЕ

Максимальная высота всасывания: 0 мм. Насос должен быть размещен в транспортируемой среде. Насосы типа E1S можно использовать в качестве насосов предварительной подкачки при объемном расходе примерно до 220 л/ч.

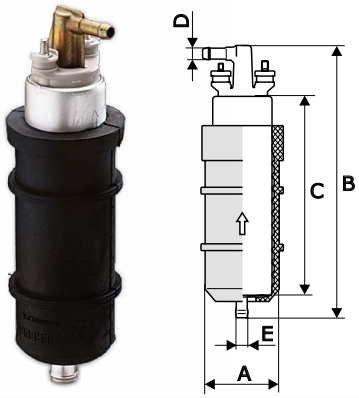




Pierburg №	Номинальное напряжение	Стат. давление при Q = 0 л/ч	Объемный расход при	Давление в системе при	Монтажные или присоед. размеры (см. рис.) [мм]					Потребление тока	Макс. высота всасывания
	[В]	[бар/(psi)]	[л/ч]	[бар/(psi)]	Ø A	B	C	Ø D	Ø E	[A]	[мм]
7.21088.62.0	12	0,35	75	0,24 (3,5)	38	100	75,3	8	19	3	0

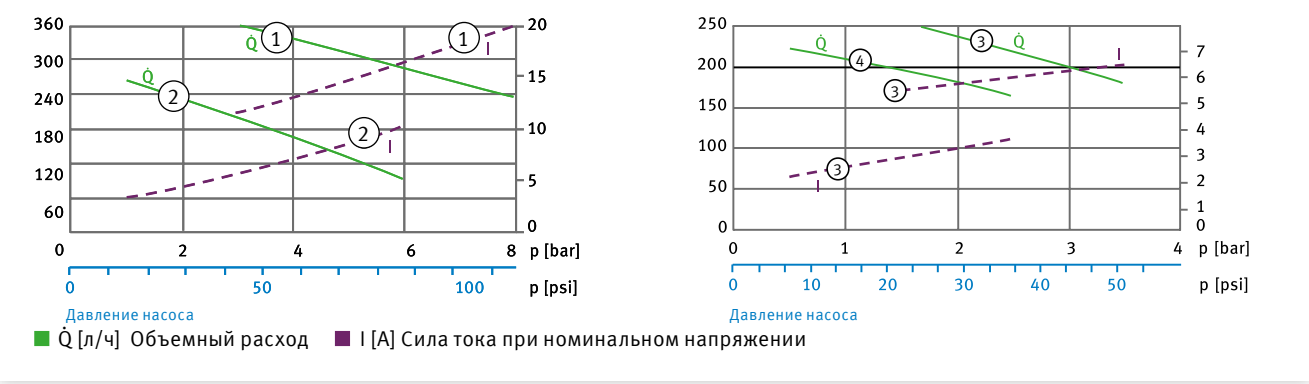
ЭЛЕКТРИЧЕСКИЕ ТОПЛИВНЫЕ НАСОСЫ ТИПА E3L

Насосы типа E3L представляют собой насосы In-Line с винтовым насосным механизмом. Эти малошумные насосы отличаются повышенной производительностью и сравнительно низким потреблением тока даже при высоком давлении.



ВНИМАНИЕ

Максимальная высота всасывания: 500 мм (при заполненных топливопроводах).



Pierburg №	Кривая	Номинальное напряжение	Объемный расход при	Давление в системе при	Монтажные или присоед. размеры (см. рис.) [мм]					Потребление тока
		[В]	[л/ч]	[бар/(psi)]	Ø A	B	C	Ø D	Ø E	[A]

7.28242.01.0	4	13,5	180–260	0,5 (7)	43,5	211	166	8	8	‹ 4,5

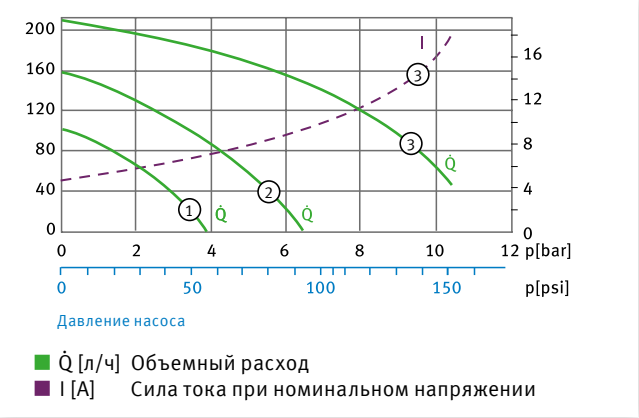
[1] соответствует 7.22156.50.0 с резиновым кожухом [2] размер с учетом резинового кожуха [3] допуск для подачи биодизеля согласно EN 14214 (FAME)

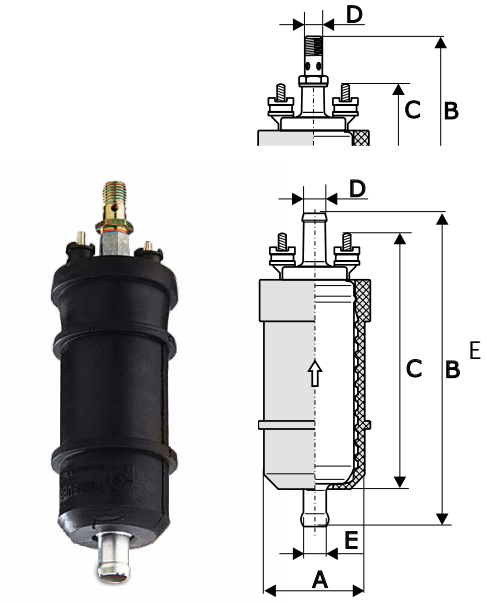
ЭЛЕКТРИЧЕСКИЕ ТОПЛИВНЫЕ НАСОСЫ ТИПА E2T / E3T

Топливные насосы серии E2T / E3T – это самовсасывающие шестеренчатые насосы, рассчитанные на более высокую производительность. На стороне выпуска находится клапан постоянного давления, который либо встроен в насос, либо размещен в сменном резьбовом штуцере, в зависимости от исполнения насоса. Встроенный клапан ограничения давления предотвращает чрезмерное увеличение давления и, следовательно, возможные повреждения топливной системы. Клапан ограничения давления представляет собой предохранительный клапан и не подходит для регулирования давления!

ВНИМАНИЕ!

Максимальная высота всасывания: 500 мм. Электрические топливные насосы E2T / E3T имеют наружный диаметр 43 мм. В сборе с входящим в комплект поставки резиновым кожухом они подходят для замены топливных насосов других производителей с наружными диаметрами 52 и 60 мм (см. таблицу, размер «A»). Резиновый кожух служит также для шумоизоляции.





Pierburg №	Кривая	Номинальное напряжение	Стат. давление при Q = 0 л/ч	Объемный расход при	Давление в системе при	Монтажные или присоед. размеры (см. рис.) [мм]					Потребление тока
		[В]	[бар/(psi)]	[л/ч]	[бар/(psi)]	Ø A	B	C	Ø D	Ø E	[A]

РЕЗЬБОВОЙ ШТУЦЕР

В зависимости от исполнения, топливные насосы имеют на стороне нагнетания место подсоединения с внутренней резьбой M10x1. К таким топливным насосам прилагаются один или несколько резьбовых штуцеров, которые могут быть также предварительно смонтированы (см. в таблице размер «D» и приведенное ниже пояснение).

БЛОКИ УПРАВЛЕНИЯ ТОПЛИВНЫМИ НАСОСАМИ

Для вас мы расширили свой ассортимент:
19 типов блоков управления топливными насосами обеспечивают широкую применяемость более чем на 10 миллионах автомобилей на рынке автозапчастей. Опередите своих конкурентов, воспользуйтесь нашим ассортиментом и предложите своим клиентам высокоточные компоненты конвейерного качества.

وحدات التحكم في مضخات الوقود

قمنا بتوسيع نطاق منتجاتنا لك:

عن طريق ١٩ وحدة تحكم لمضخات الوقود سوف تصل إلى نطاق تغطية واسعة للسوق تبلغ ١٠ مليون مركبة في سوق ما بعد البيع. إذا كنت متقدمًا خطوة واحدة في سوقك التنافسية فسوف تستفيد من عرضنا وسوف تقدم لعملائك منتجات متناسبة بدقة فائقة بجودة OE.

مضخات الوقود الكهربائية النوع E2T/E3T

مضخات الوقودمن النوع E2T/E3T هي مضخات بتروس مسننة ذاتية السحب، وهي مصممة لقدرات الضخ العالية. يوجد على جانب التفريغ صمام لتثبيت الضغط، وهذا الصمام مدمج في المضخة حسب تصميمها أو يمكن تركيبه في فوهة لولبية قابلة للتغيير. هناك صمام مدمج لتحديد الضغط يمنع الارتفاع الزائد للضغط وبالتالي يحول دون حدوث تلفيات لنظام الوقود. صمام تحديد الضغط هو عبارة عن صمام أمان ولا يتناسب مع التحكم في الضغط!

تنبيه

أقصى ارتفاع للسحب: ٥٠٠ مم. مضخات الوقودالكهربائية E2T/E3T تتميز بقطر خارجي ٤٣ مم. وارتباطا بالغلاف المطاطي الذي يتم توريده في بعض الأحيان فهي تتناسب مع مضخات الوقود من الماركات الأخرى والتي يبلغ قطرها الخارجي ٥٢ و ٦٠ مم (انظر الجدول، المقاس "أ"). الغطاء المطاطي يستخدم بشكل إضافي لإخمادالضجيج.

مضخات الوقود الكهربائية النوع E3L

المضخة من النوع E3L عبارة عن مضخات للتركيب في الوصلة ذات مجموع ضخ لولبية.
وتتميز بقدرة ضخ مرتفعة وانخفاض الضجيج، كما تتميز بارتفاع قيم الضغط وانخفاض سحب الكهرباء.

تنبيه

أقصىارتفاع سحب: ٥٠٠ مم (في حالة امتلاء الوصلات).

[١] يطابق 7.22156.50.0 بغطاء مطاطي [٢] المقاس شاملًا غطاء مطاطي [٣] مصرح به للوقود الحيوي وفقًا للمواصفة EN 14214 (FAME)

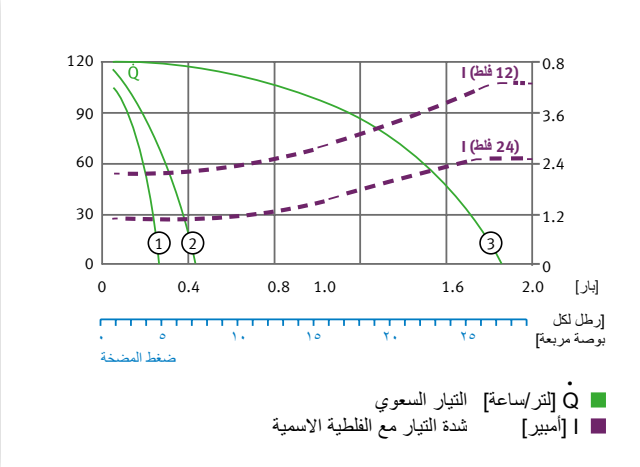
٢- مضخات الوقود الكهربائية

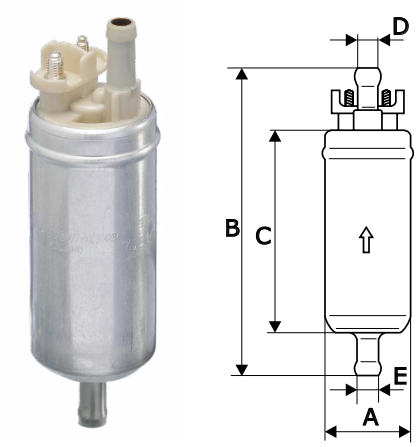
مضخات الوقود الكهربائية النوع E1F

المضخة E1F تعتبر من المضخات كثيرة الاستخدام. وهي مضخة تُركب في الوصلة مع مجموعة خلايا مجنحة لتتناسب مع قيم ضغط النظام ٠,١–١,٠ بار. هذه المضخة متوافرة للتشغيل بجهد ١٢ و ٢٤ فلط ويتم تركيبها في الوصلة. وللتشغيل بجهد ٦ فلط (مثلًا مع الطرازات القديمة) فإننا ننصح باستخدام المضخة E1F رقم 7.21440.53.0. مع التشغيل بجهد ٦ فلط تقل قيمة الضغط والدفق الحجمي بمقدار النصف.

تنبيه

في حالة التجهيز اللاحق بمضخة وقود كهربائية يجب تركيب تجهيزة إيقاف للأمان!





رقم Pierburg	منحنى	فلطية اسمية	ساكن ضغط عند Q = ٠ لتر/ساعة	التيار السعوي عند	ضغط النظام عند	أبعاد التركيب أو التوصيل (انظر الشكل) [مم]					استهلاك التيار

(*) مناسبة أيضًا للتشغيل بقوة ٦ فلط

مضخات الوقود الكهربائية النوع E1S

المضخة E1S مناسبة للتركيب في خزان وقود. وهي عبارة عن مضخة دفق بمجموعة قنوات جانبية بتصميم ١٢ فلط. يفضل استخدام المضخة كمضخة للضخ الأولي. تقوم مضخات الضخ الأولي بضخ وسيط ضخ المضخة الرئيسية بضغط منخفض. وبذلك يتم منع حدوث ضغط منخفض على جانب السحب بالمضخة الرئيسية والحيلولة دون تعرض المضخة الرئيسية للضرر.

تنبيه

أقصى ارتفاع للسحب: ٠ مم. يجب أن تكون المضخة في وسيط الضخ. المضخات من النوع E1S يمكن استخدامها حتى دفق حجمي ٢٢٠ لتر/ساعة تقريبا كمضخات للدفق الأولي.

وحدات ضخ الوقود

وحدات ضخ الوقود موجودة في الخزان. وهي تتكون من غطاء بفلانشة ومضخة وقود في وعاء تجميع وأجزاء تركيبية محتملة أخرى، مثل وحدة إرسال الخزان أو منظم الضغط.

تقدم شركة Motorservice في برنامج منتجاتها، إلى جانب وحدات إمداد الوقود الكاملة، أيضًا أجزاء تركيبية أخرى، مثل وحدة إرسال الخزان وحلقات الإحكام وأطقم الإصلاح صديقة للصيانة.

مضخات الوقود الكهربائية

توفر مضخات الوقود الكهربائية الوقود بضغط محدد لصمامات الحقن. توجد عدة مستويات مختلفة للضغط والطاقة خاصة بالمركبة وأيضًا خاصة للاستخدام العام.
مضخات الوقود في الخط موجودة في وصلة الوقود. مضخات الوقود في الخط مركبة في الخزان.

شركة Motorservice تعد إحدى شركات مضخات الوقود الكهربائية الرائدة في سوق ما بعد البيع.

مضخات الوقود الميكانيكية

مضخات الوقود الميكانيكية الكلاسيكية يكثر تركيبها في المركبات القديمة نسبيًا. وهي يتم دفعها مباشرة من المحرك من خلال أذرع الدفع أو الأذرع. أدخلت شركة Motorservice ضمن برنامج منتجاتها أنواعًا مختلفة لتطبيقات المركبة.
مضخات الضغط العالي الميكانيكية تعنى مع محركات FSI و TFSI و TSI من إنتاج VAG بتوفير ضغط الحقن المطلوب بقيمة تتراوح من حوالي ١٢٠ إلى ٢٠٠ بار. المضخات الترادفية تفي بوظيفة مضخة التفريغ الميكانيكية ويتم استخدامها بشكل إضافي للإمداد بالوقود.

وحدات التحكم في مضخات الوقود

وحدة التحكم جزء من نظام الإمداد بالوقود المناسب للاحتياجات في المحركات الحديثة. وفي مقابل نظام الإمداد بالوقود غير المنتظم فسيتم الإمداد بكمية الوقود الضرورية فقط، الأمر الذي من شأنه أن يقلل استهلاك الطاقة ويوفر في الوقود. منحنى خصائص الأداء يكون خاصًا لمحرك المركبة وطرازها.

من خلال برنامجنا الذي يضم ١٩ وحدة تحكم بجودة التجهيزات الأصلية فسوف تحصل على نطاق تغطية سوقية تضم ما يزيد عن ١٠ مليون مركبة.

منظم ضغط الوقود

منظمات ضغط الوقود مستخدمة في محركات البنزين بنظام حقن الوقود. وهي تحافظ على الوقود على درجة الضغط الثابتة الضرورية لفوهات الحقن.

صمامات الوقود أحادية الاتجاه

تركب صمامات الوقود أحادية الاتجاه في أنابيب الوقود. ولا يقتصر دورها على إتاحة إمكانية دفق الوقود في اتجاه معين فحسب، بل إنها أيضًا تمنع تسرب الخزان أو تشغيل الأنابيب في وضع اللاحمل.

تقدم شركة Motorservice صمامات الوقود أحادية الاتجاه بقطر توصيل يبلغ ٦ و ٨ و ١٠ و ١٢ ملم.

١- الإمداد بالوقود

برنامج منتجات شامل بجودة مضمونة

بدايةً من مضخات الوقود ونماذج الدعم ووحدة إرسال الخزان ومرورًا بمنظمات ضغط النظام وصمامات الارتجاع ومرورًا بصمامات التجديد وحتى صمامات فلتر الكربون النشط:
تقدم شركة Motorservice تشكيلة كبيرة من المكونات لا غنى عنها في أنظمة الوقود - بجودة Pierburg الفائقة.

مجموعة المنتجات

٠١ منظم ضغط الوقود
٠٢ مضخة الضغط العالي للوقود
٠٣ صمام متجدد لفلتر الكربون النشط
٠٤ محبس فلتر الكربون النشط
٠٥ وحدة إرسال الخزان
٠٦ وحدة إمداد الوقود (في الخزان)
٠٧ وحدة تحكم في مضخة الوقود
٠٨ مضخة الوقود (في الخط)
٠٩ فلتر الوقود (Kolbenschmidt)
١٠ صمام ارتجاع الوقود
١١ مضخة ترادفية الوقود/التخوية

تقنيات للتنقل في المستقبل

بصفتها مورد سيارات على مستوى العالم، تتمتع شركة Rheinmetall بالكفاءة العليا في الأسواق المعنية في مجالات إمداد الهواء، وخفض الانبعاثات الضارة والمضخات وكذلك في تطوير وتصنيع وتوريد قطع غيار المكابس وكتل المحركات والمحامل الانزلاقية. يتم تطوير المنتجات بالتعاون الوثيق مع مُصنعي السيارات المعروفين.

إرشادات مهمة

كل البيانات الواردة في هذا الكتالوج غير ملزمة. ولا يمكننا تحمل أية مسئولية عن سلامتها واكتمالها. ويسعدنا دائماً تلقي إخطاراتكم بخصوص أية أخطاء قد ترد في الكتالوج على أن نصححها في الطبعات القادمة.

السماء والتوصيفات وبيانات الأرقام الخاصة بالمركبات أو الجهات المصنعة وما شابه واردة فقط لأغراض المقارنة، تمامًا مثل أرقام القطع الأصلية للجهات المصنعة للمركبات والمحركات. مثل هذه البيانات ليست رسومًا أساسية ولا يجوز استخدامها ضد أطراف أخرى. يرجى في هذا الإطار مراعاة أنه يمكن إدخال تغييرات على التجهيزات من قبل الشركات الصانعة للسيارات والمحركات أو قد تطرأ تغييرات على المسميات. ولذلك فلا يمكننا تحمل أية مسئولية عن استخدام قوائم المقارنة.

نحن نحتفظ صراحة بحق إدخال تغييرات على مواصفات المنتجات والخامات والمظهر الخارجي ونطاق توريد منتجاتنا في أي وقت. ولذلك فإن الأشكال الواردة في الكتالوج ليست ملزمة.

يتعين دائمًا قبل التركيب القيام بالفحص للتحقق مما إذا كان المنتج المعني مناسبًا لغرض الاستخدام المقصود. لا يمكن الاطلاع على بياناتنا ومعرفة أي معلومات عن طبيعة معينة أو التحقق من ملاءمة لغرض معين. وبصفة خاصة يرجى مراعاة أن المنتجات المطروحة في الكتالوج ليست مناسبة للاستخدام في المركبات الهوائية أو الفضائية. عند الاستخدام في محركات الطرق الوعرة (مثل المحركات البحرية أو الثابتة أو محركات القطارات) يجب مراعاة أنه حتى في حالة تشابه مسمى المحرك فهناك أجزاء أخرى مختلفة من المحرك (المكابس مثلاً). ولذلك فقد يتعين أيضًا قبل تركيب المنتجات طلب المشورة الفنية المتخصصة من الجهة الصانعة أو الورشة الفنية المعتمدة. وفي هذا الصدد فإننا نشير إلى ضرورة إجراء أعمال التركيب دائمًا على يد عمالة فنية متخصصة ومدربة. الصور والرسوم التوضيحية وغيرها من البيانات الأخرى تستخدم للشرح والإيضاح ولا يمكن استخدامها كأساس للتركيب.

لا يُسمح بأي نسخ أو محاكاة أو توزيع أو استنساخ عام لهذا الكتالوج، حتى ولو بشكل جزئي دون الحصول على تصريح كتابي مسبق وأن يكون هناك بيان مصدر يحمل هذا المضمون. إصدار هذا الكتالوج يُفقد الإصدارات السابقة صلاحيتها.

شهادات الاعتماد

شركة MS Motorservice International GmbH مزودة بنظام لإدارة الجودة معتمد طبقًا للمواصفة ISO 9001 ونظام لإدارة البيئة معتمد وفقًا للمواصفة ISO 14001.

RHEINMETALL

Voraussetzungen für Kundenretouren
(keine Reklamationen)

Lieber Geschäftspartner,

für Retouren von Waren gibt es vielerlei Gründe. Sollten Sie etwas zurückschicken, bitten wir Sie folgende Hinweise zu beachten.

Voraussetzungen für Retouren verkaufsfähiger Ware:

- Die Verpackung muss unbeschädigt, nicht beschrieben oder beklebt und sauber sein.
- Die Ware muss original verpackt sein.
- Bitte informieren Sie vor jeder Retoure Ihren Gebietsverkaufsleiter.
- Sie erhalten von Ihrem Gebietsverkaufsleiter eine Retourenauftragsnummer.
  Bitte geben Sie diese Nummer bei Ihrer Rücksendung an.
- Fügen Sie bei Ihrer Retoure pro Artikelposition eine Kopie der Rechnung bei.
- Das Rechnungsdatum darf nicht länger als 3 Jahre zurück liegen.

Die Abzüge vom Warenwert sind abhängig vom Rechnungsdatum und lauten wie folgt:

a) Rechnungsdatum nicht älter als	3 Monate	0%
b) Rechnungsdatum	3–12 Monate	20%
c) Rechnungsdatum	13–24 Monate	30%
d) Rechnungsdatum	25–36 Monate	40%

Wir behalten uns vor, durch ungeplante Kontrollprozesse oder sonstige Aufwände, die daraus entstandenen Kosten entsprechend in Abzug zu bringen. Nähere Informationen hierzu erhalten Sie von Ihrem Gebietsverkaufsleiter.

Grundsätzlich nicht zurückgenommen werden können:

- Waren aus Sonderverkäufen
- landesspezifische Waren
- Abverkaufsprodukte
- Produkte, die durch andere Artikel ersetzt wurden
- nicht mit uns abgestimmte Retouren
- Waren in unverkäuflichem Zustand (siehe oben)
- Kataloge und andere Drucksachen, CD/DVD, Werbematerial

Bitte stimmen Sie das weitere Vorgehen vor der Rücklieferung mit uns ab.

Vielen Dank.

Ihr Vertriebsteam

RHEINMETALL

Requirements for customer returns
(not claims)

Dear business partner,

There are many reasons why goods may need to be returned. Should you need to return goods to us where no claims apply, please observe the following instructions.

Requirements for returning saleable goods:

- The packaging must be clean and free from damage, writing and labels.
- The goods must be in their original packaging.
- Please inform your area sales manager before returning any goods.
- Your area sales manager will provide you with a returns order number.
  Please include the number on your return.
- A copy of the invoice must be included with your return for each item position.
- The invoice must be dated within the last three years.

The deductions from the value of the goods depend on the invoice date and are as follows:

a) Invoice date not more than	3 months ago	0%
b) Invoice date	3-12 months	20%
c) Invoice date	13-24 months	30%
d) Invoice date	25-36 months	40%

We reserve the right to apply deductions for costs incurred as a result of inspections, re-storage processes and any other unplanned expenditure. Please contact your area sales manager for more information.

The following can not be returned:

- Goods from special sales
- Country-specific goods
- Sale products
- Products that have been replaced with other articles
- Returns that have not been agreed with us
- Goods in an unsaleable condition (see above)
- Catalogues and other printed items, CDs/DVDs, advertising material

Please agree the further procedure with us before returning the goods.

Thank you.

Your sales team

Vorgehensweise bei Reklamationen

Sehr geehrter Motorservice Partner,
für eine schnelle und reibungslose Reklamationsbearbeitung bitten wir um die Beachtung der nachfolgenden Punkte.

Voraussetzungen für Reklamationen
Der Motorservice Handelspartner garantiert gegenüber Motorservice, dass die Voraussetzungen für eine Reklamation erfüllt sind. Der Handelspartner von Motorservice hat im Vorfeld geprüft, ob das reklamierte Teil aus dem Motorservice Lieferprogramm stammt. Ferner ist anhand von Lieferscheinen oder Rechnungen zu prüfen und zu belegen, dass seit der Lieferung des Ersatzteils weniger als 12 Monate vergangen sind.
Der Handelsweg muss eingehalten werden.

Einreichung von Reklamationen
Wenn die Teile über den Motorservice OnlineShop bestellt wurden, erfolgt die Einreichung der Reklamation direkt über den OnlineShop. Bitte wählen Sie hierzu im Menü „Mein Konto“ den Eintrag „Reklamationen“ und geben Sie die Daten in das bereitgestellte Webformular ein. Für alle übrigen Reklamationen benutzen Sie bitte das nachfolgende Formular. Bitte beachten Sie, dass die für die Bearbeitung notwendigen Pflichtdatenfelder vollständig ausgefüllt sind. Der Umfang der Reklamation (Schadenshöhe) muss stets vollständig angegeben werden. Darüber hinaus sind wir auch umgehend über ggf. entstandene Personenschäden zu informieren. Werden Reparatur- oder Folgekosten geltend gemacht, müssen die entsprechenden Rechnungen als Kopie beigefügt werden. Nachträglich eingereichte Kostenansprüche, die nach unserer Diagnose oder Ergebnismitteilung eingehen, können nicht mehr anerkannt werden.

Rücksendung von Reklamationsteilen
Senden Sie Reklamationsteile nur dann zurück, wenn diese explizit von Motorservice zurückgefordert werden. Ob und welche Teile zurückgesendet werden müssen, teilen wir Ihnen nach Eingang der Reklamationsmeldung mit. Produkte, die aus mehreren Teilen bestehen, müssen stets in dem Umfang zurückgesandt werden, wie diese bezogen wurden. Wir behalten uns vor, Teile die ebenfalls beschädigt wurden bzw. zur Schadensentstehung beigetragen haben, anzufordern oder nachzufordern, auch wenn diese nicht zum Lieferprogramm von Motorservice gehören.

Reklamationsteile sind für Motorservice kostenfrei einzusenden. Wenn in einer Lieferung Teile von unterschiedlichen Reklamationen enthalten sind, müssen diese jeweils separat verpackt und gekennzeichnet werden. Teile aus Reklamationen die über das Online Reklamationsmanagement eingereicht werden, müssen für den Rückversand mit dem von der Webanwendung bereit gestellten Rücksendeetikett versehen werden. Bereits benutzte Teile müssen frei von Öl und sonstigen Verunreinigungen sein. Der Handelspartner muss sicherstellen, dass die Teile ordnungsgemäß verpackt sind und beim Transport nicht beschädigt werden können. Die Teile sind zweckmäßig in einer Originalverpackung unter Einhaltung größtmöglicher Sorgfalt einzusenden. Der Rücktransport erfolgt auf Risiko und Gefahr des Handelspartners. Bei einem Teilerückversand außerhalb der europäischen Union sind die zolltechnischen Bestimmungen (z. B. Mitsendung einer Proformarechnung, Mitteilung der ursprünglichen Handelsrechnungsnummer, Teiledeklaration) in jedem Fall einzuhalten.

Adressen für den Teilerückversand :

PIERBURG Schadensteile:
MS Motorservice International GmbH
Hamburger Straße 15
41540 Dormagen, Germany

Alle Neuteilreklamationen und alle sonstigen Schadensteile
MS Motorservice International GmbH
Wilhelm-Maybach-Straße 14–18
74196 Neuenstadt, Germany

Zerstörende Bauteilprüfungen
Im Rahmen der Reklamationsbearbeitung kann es nötig sein, Teile oder Baugruppen für eine Diagnose oder Werkstoffprüfung zu zerlegen oder einer zerstörenden Prüfung zu unterziehen. Sofern Sie sich bei der Einreichung der Reklamation schriftlich einverstanden erklärt haben, übernehmen wir für die bei der Analyse entstandenen Beschädigungen keine Haftung.

Sonstiges
Teile sind nur dann reklamationsfähig, wenn diese bestimmungsgemäß eingesetzt bzw. verwendet wurden. Modifizierte Teile, bereits zerlegte Komponenten und Teile, an denen Reparaturversuche unternommen wurden, sind nicht reklamationsfähig. Teile aus abgelehnten Reklamationen werden verschrottet, sofern diese nicht explizit zurückgefordert werden. Im Rahmen der Gewährleistung erstattete Teile gehen in das Eigentum von Motorservice über. Aus organisatorischen Gründen kann die Reklamationsabwicklung ausschließlich in den Sprachen Deutsch oder Englisch erfolgen.

Procedure in case of claims

Dear Motorservice Partner,
In order to ensure fast and trouble-free processing of claims, please observe the following points.

Prerequisites for claims
The Motorservice trading partner guarantees Motorservice that the prerequisites for a claim are met. The Motorservice trading partner has already verified whether the part subject to the claim is part of the Motorservice product range. Furthermore, it is to be checked and proven based on delivery notes or invoices that less than 12 months have passed since delivery of the spare part. The trade route must be adhered to.

Submitting claims
If the parts were ordered via the Motorservice OnlineShop, claims must be submitted directly via the OnlineShop. To do this, please select the "Claims" entry in the "My account" menu and enter the data in the web form provided. For all other claims, please use the following form. Please ensure that the compulsory fields required to process the claim are filled out completely. The scope of the claim (amount of loss) must always be fully specified. Furthermore, we need to be notified immediately about any resulting personal injury. If repair or follow-up costs are claimed, copies of the respective invoices must be enclosed. Claims for costs that were handed in after our diagnostics or communication of results cannot be accepted.

Returning claim parts
Claim parts should only be returned if explicitly requested by Motorservice. We will inform you whether and which parts have to be returned following receipt of your claim. Products made up of several parts must always be returned as a whole in the same scope as they were purchased. We reserve the right to request parts that were also damaged or that contributed to the damage being caused, even if they are not part of the Motorservice product range.

Claim parts must be sent in without incurring a charge for Motorservice. If a delivery includes parts relating to different claims, they must each be packaged and labelled separately. For parts from claims submitted via the online claims management, the returns label provided by the web application must be used for the return. Already used parts must be free from oil and other impurities. The trading partner must ensure that the parts are packaged properly and cannot be damaged during transport. The parts must be sent in appropriate original packaging with the greatest possible care. The items are returned at the trade partner's own risk and peril. When returning parts from outside the European Union, customs agreements (e.g. sending of a pro-forma invoice, communication of the original commercial invoice no., part declaration) must be adhered to at all times.

Addresses for returning parts:

PIERBURG damaged parts:
MS Motorservice International GmbH
Hamburger Straße 15
41540 Dormagen, Germany

All claims relating to new parts and all other damaged parts
MS Motorservice International GmbH
Wilhelm-Maybach-Straße 14–18
74196 Neuenstadt, Germany

Destructive component testing
When processing claims, it may be necessary to dismantle parts or assembly groups for diagnostics or material inspection, or to subject them to destructive testing. If you gave your consent in writing when submitting the claim, we can accept no liability for any damage that may occur during the analysis.

Other
Parts can only be claimed if they were deployed or used for their intended purpose. Modified parts, components and parts already taken apart in the course of repair attempts cannot be claimed. Parts from rejected claims will be scrapped unless an explicit request has been made for them to be returned. Parts refunded within the scope of the warranty become the property of Motorservice. For organisational reasons, only German or English can be used when dealing with claims.

Claims form

Address details:

Your claim number (not item number):

Motorservice customer number:

Verkaufs- und Lieferbedingungen der MS Motorservice International GmbH Stand: 2023

1. Geltungsbereich
1.1 Die Verkaufs- und Lieferbedingungen der MS Motorservice International GmbH (im Folgenden „Verkäufer“ genannt) gelten ausschließlich. Entgegenstehende oder von diesen Verkaufs- und Lieferbedingungen abweichende Bedingungen des Käufers werden nicht anerkannt, es sei denn, der Verkäufer hat ausdrücklich und schriftlich der Geltung abweichender Bedingungen zugestimmt. Diese Verkaufs- und Lieferbedingungen gelten auch dann, wenn der Verkäufer in Kenntnis entgegenstehender oder von den eigenen Verkaufs- und Lieferbedingungen abweichender Bedingungen des Käufers die Lieferung an den Käufer vorbehaltlos durchführt.
1.2 Von diesen Verkaufs- und Lieferbedingungen abweichende oder sie ergänzende separate Vereinbarungen zwischen den Parteien gelten vorrangig. Sie werden dort, sofern keine speziellen Regelungen getroffen sind, durch die vorliegenden Verkaufs- und Lieferbedingungen ergänzt. Für den Inhalt derartiger Vereinbarungen ist ein schriftlicher Vertrag bzw. die schriftliche Bestätigung des Verkäufers maßgebend.
1.3 Die Verkaufs- und Lieferbedingungen gelten auch für alle zukünftigen Geschäfte mit dem Käufer. Durch Bestellung des Käufers, spätestens aber durch Annahme der Ware, werden diese Verkaufs- und Lieferungsbedingungen vom Käufer anerkannt.
1.4 Diese Verkaufs- und Lieferbedingungen gelten nur gegenüber Unternehmern.

2. Angebot und Auftragsbestätigung
2.1 Angebote des Verkäufers sind stets unverbindlich. Ist eine Bestellung des Käufers, rechtlich als Angebot zu qualifizieren, gilt diese erst dann als angenommen, wenn sie vom Verkäufer innerhalb von vier Wochen schriftlich bestätigt wird. Spätestens kommt der Vertrag mit Versendung oder der Mitteilung über den Bereitstellungszeitpunkt der bestellten Ware, bei Teillieferung mit Absendung der ersten Lieferung, zustande.
2.2 Änderungen und sonstige Vereinbarungen sind nur dann verbindlich, wenn sie vom Verkäufer schriftlich bestätigt werden.
2.3 Die in den Angeboten enthaltenen Unterlagen, Zeichnungen, Gewichts- und Maßangaben, Muster etc. sind nur ungefähre Angaben und stellen keine Beschaffenheitsmerkmale dar. Der Verkäufer ist berechtigt, von den Beschreibungen im Angebot abzuweichen, sofern diese Abweichungen nicht grundlegender oder wesentlicher Art sind und der vertragsgemäße Zweck nicht wesentlich eingeschränkt wird.
2.4 Soweit Waren nach Käuferzeichnungen gefertigt werden, sind die vom Käufer erstellten und vom Verkäufer genehmigten Zeichnungen maßgeblich. Abweichungen von genehmigten Zeichnungen sind besonders zu vereinbaren und etwaige Mehrkosten hierfür sind dem Verkäufer zu vergüten.

3. Schutzrechte
3.1 Der Verkäufer behält sich an allen Abbildungen, Zeichnungen, Kalkulationen und sonstigen Unterlagen das Eigentums- und Urheberrecht vor; sie dürfen ohne vorherige schriftliche Zustimmung des Verkäufers weder für andere als die vom Verkäufer angegebenen Zwecke verwendet noch Dritten zugänglich gemacht werden. Dies gilt insbesondere für solche schriftlichen Unterlagen, die als „vertraulich“, „geheim“ oder ähnlich bezeichnet sind.
3.2 Der Verkäufer haftet nur für Ansprüche, die sich bei vertragsgemäßer Verwendung der Waren aus der Verletzung von Schutzrechten und Schutzrechtsanmeldungen (Schutzrechte) ergeben, von denen mindestens eines aus der Schutzrechtsfamilie entweder vom Europäischen Patentamt oder in einem der Staaten Bundesrepublik Deutschland, Frankreich, Großbritannien, Österreich, China, Japan oder USA veröffentlicht ist.
3.3 Erfolgen Lieferungen nach Zeichnungen oder sonstigen Angaben des Käufers und werden hierdurch Schutzrechte Dritter verletzt, stellt der Käufer den Verkäufer im Innenverhältnis von sämtlichen Ansprüchen frei.

4. Empfehlungen, Informationen und Auskünfte
Empfehlungen, Informationen und Auskünfte sind unverbindlich, soweit sie sich nicht auf die Ware selbst beziehen.

5. Preise
5.1 Alle Preise sind Nettopreise und gelten „ab Werk“ (Incoterms®2020, „EXW“) ausschließlich Verpackung, Fracht, Porto und Wertsicherung. Die gesetzliche Umsatzsteuer in der jeweils gültigen Höhe wird hinzugerechnet.
5.2 Etwaiger Mehraufwand, der durch Änderungswünsche entsteht, kann dem Käufer vom Verkäufer in Rechnung gestellt werden.
5.3 Treten nach Abschluss des Vertrages Ereignisse ein, die die Selbstkosten des Verkäufers beim Einkauf, der Herstellung und/oder dem Versand der Ware verteuern, so ist der Verkäufer zu entsprechender Preiserhöhung berechtigt.

6. Zahlungsbedingungen
6.1 Rechnungen sind innerhalb von 14 Tagen ab Rechnungsdatum ohne Abzug zur Zahlung fällig. Der Verkäufer ist, auch im Rahmen einer laufenden Geschäftsbeziehung, jederzeit berechtigt, eine Lieferung ganz oder teilweise nur gegen Vorkasse durchzuführen. Skonto gilt nur bei ausdrücklicher schriftlicher Vereinbarung.
6.2 Der Verkäufer ist berechtigt, selbst bei entgegenstehender Zweckbindung des Käufers eine Zahlung zunächst auf die jeweils älteste, nicht titulierte Schuld anzurechnen. Sind bereits Kosten oder Zinsen entstanden, ist der Verkäufer berechtigt, Zahlungen zunächst auf die Kosten, dann auf die Zinsen und zuletzt auf die Hauptleistung anzurechnen.
6.3 Das Recht zur Aufrechnung steht dem Käufer nur zu, wenn und soweit seine Gegenansprüche rechtskräftig festgestellt, unbestritten oder vom Verkäufer schriftlich anerkannt sind. Das Zurückbehaltungsrecht des Käufers ist auf Ansprüche aus dem Vertragsverhältnis beschränkt.
6.4 Der Verkäufer ist berechtigt, Verzugszinsen in Höhe des jeweils gültigen gesetzlichen Verzugszinssatzes zu verlangen. Das Recht, einen höheren Verzugsschaden nachzuweisen, bleibt ausdrücklich vorbehalten.

7. Lieferung / Lieferzeit / Verzug
7.1 Lieferfristen und Liefertermine gelten nur dann als verbindlich vereinbart, wenn diese vom Verkäufer ausdrücklich schriftlich zugesagt werden. Der Verkäufer ist an den Liefertermin bzw. die Lieferfrist nicht gebunden, wenn der Käufer seinen Obliegenheiten (Zahlung von Abschlägen, Beibringung erforderlicher Unterlagen, Beistellungen zur Fertigungen etc.) nicht rechtzeitig nachkommt. Die Einrede des nichterfüllten Vertrages bleibt vorbehalten.
7.2 Lieferfristen beginnen frühestens an dem Tag, an dem der Vertrag schriftlich geschlossen wurde und alle technischen Fragen geklärt sind.
7.3 Bei Änderungswünschen des Käufers ist der Verkäufer von der Einhaltung eines etwaig vereinbarten Liefertermins bzw. der Lieferfrist befreit. Die Parteien werden in diesem Fall einen neuen Liefertermin oder eine neue Lieferfrist vereinbaren.
7.4 Sofern nichts Abweichendes vereinbart wird, ist der Liefertermin bzw. die Lieferfrist eingehalten, wenn der Verkäufer die Ware an dem vereinbarten Ort bereitgestellt hat.
7.5 Wegen Lieferverzögerungen, die nicht auf Vorsatz oder grober Fahrlässigkeit des Verkäufers beruhen, kann der Käufer keine Ansprüche geltend machen. Dies gilt auch bei sonstiges Störungen, insbesondere für Lieferverzögerungen aufgrund von höherer Gewalt, Arbeitskämpfen, Unruhen, Epidemien und/oder Pandemien, Cyberattacken, behördlichen Maßnahmen, Ausbleiben von Zulieferungen der Zulieferanten und sonstigen unvorhersehbaren, unabwendbaren und schwerwiegenden Ereignissen. Der vereinbarte Liefertermin bzw. die Lieferfrist verschiebt sich in diesen Fällen entsprechend der Dauer des Lieferhindernisses, der Verkäufer informiert den Käufer hierüber und wird, sofern möglich, einen neuen voraussichtlichen Liefertermin mitteilen. Der Ersatz von entgangenem Gewinn und Schäden aus Betriebsunterbrechung ist auf Vorsatz beschränkt.
7.6 Kommt der Käufer in Annahmeverzug oder verletzt er sonstige Mitwirkungspflichten, so ist der Verkäufer berechtigt, den insoweit entstandenen Schaden einschließlich etwaiger Mehraufwendungen ersetzt zu verlangen. Der Verkäufer ist darüber hinaus berechtigt, dem Käufer eine angemessene Annahmefrist zu setzen und nach deren fruchtlosem Verstreichen vom Vertrag zurückzutreten und Schadensersatz statt der Leistung zu verlangen.
7.7 Teillieferungen sind in zumutbarem Umfang zulässig. Insofern sind Ansprüche des Käufers wegen der Teillieferung oder einer verspäteten Lieferung der Restmenge ausgeschlossen.

8. Eigentumsvorbehalt
8.1 Der Verkäufer behält sich das Eigentum an sämtlichen gelieferten Waren bis zum Eingang aller Zahlungen aus der Lieferbeziehung, auch der zukünftig entstehenden Verbindlichkeiten, vor. Bei vertragswidrigem Verhalten, insbesondere bei Zahlungsverzug, ist der Verkäufer berechtigt, die Waren zurückzufordern.
8.2 Der Käufer ist verpflichtet, die gelieferten Waren pfleglich zu behandeln und während der Dauer des Eigentumsvorbehaltes auf eigene Kosten gegen jede Form des Untergangs zum Kaufpreis zu versichern. Der Verkäufer bleibt berechtigt, die Ware auf Kosten des Käufers selbst zu versichern.
8.3 Bei Pfändungen oder sonstigen Eingriffen Dritter hat der Käufer den Verkäufer unverzüglich schriftlich zu benachrichtigen, damit dieser Drittwiderspruchsklage oder andere Rechtsmittel erheben kann. Soweit der Dritte die hierdurch entstehenden gerichtlichen und außergerichtlichen Kosten nicht erstattet, haftet hierfür der Käufer.
8.4 Der Käufer ist berechtigt, die Ware im ordentlichen Geschäftsgang weiter zu verkaufen; er tritt dem Verkäufer jedoch bereits jetzt alle Forderungen in Höhe des Faktura-Endbetrages (einschließlich gesetzlicher Umsatzsteuer) der Forderung ab, die ihm aus der Weiterveräußerung gegen seine Abnehmer oder Dritte erwachsen, und zwar unabhängig davon, ob die Ware ohne oder nach Verarbeitung weiterverkauft wurde. Zur Einziehung dieser Forderung bleibt der Käufer auch nach Auslieferung berechtigt. Die Befugnis des Verkäufers, die Forderung selbst einzuziehen, bleibt davon unberührt.
8.5 Wird die gelieferte Ware mit anderen, nicht dem Verkäufer gehörenden Gegenständen untrennbar vermischt oder verbunden, so erwirbt der Verkäufer das Miteigentum an der neuen oder verbundenen Sache im Verhältnis des Wertes der gelieferten Ware (Faktura-Endbetrag, einschließlich gesetzlicher Mehrwertsteuer) zu der oder den anderen Gegenständen zum Zeitpunkt der Vermischung oder Verbindung. Der Käufer verwahrt das so entstandene Allein- oder Miteigentum für den Verkäufer.
8.6 Übersteigt der Wert der gegebenen Sicherheiten die Forderungen des Verkäufers insgesamt um mehr als 20 %, so ist der Verkäufer auf Verlangen des Käufers verpflichtet, die überschießenden Sicherheiten nach Wahl des Verkäufers freizugeben.
8.7 Falls und soweit die maßgebliche Rechtsordnung keine Vereinbarung eines Eigentumsvorbehalts zulässt, wird der Käufer den Verkäufer bei Inanspruchnahme von Warenkredit angemessene andere Sicherheiten stellen.

9. Versand, Gefahrenübergang
9.1 Der Versand erfolgt auf Gefahr des Käufers. Die Gefahr geht stets spätestens mit Absendung der Ware, auch wenn weitere Leistungen von dem Verkäufer übernommen werden, auf den Käufer über.
9.2 Verzögert sich der Versand infolge von Umständen, die der Verkäufer nicht zu vertreten hat, so geht die Gefahr vom Tage der Anzeige der Versandbereitschaft auf den Käufer über. Auf schriftlichen Wunsch des Käufers wird die Sendung von dem Verkäufer gegen Bruch-, Transport-, Feuer- und Wasserschäden auf Kosten des Käufers versichert.
9.3 Transport- und alle sonstigen Verpackungen nach Maßgabe des Verpackungsgesetzes werden nicht zurückgenommen; ausgenommen sind Paletten. Der Käufer ist verpflichtet, die Entsorgung der Verpackung auf eigene Kosten zu besorgen.

10 Fertigungsmittel
10.1 Soweit der Käufer dem Verkäufer Fertigungsmittel (z.B. Werkzeuge, Formen) zur Verfügung stellt, sind diese dem Verkäufer kostenfrei zuzusenden. Für deren Untergang, Verschlechterung oder unvollständige Rücklieferung und daraus resultierende Schäden haftet der nur bei grober Fahrlässigkeit oder Vorsatz. Dies gilt nicht, soweit gesetzlich zwingend gehaftet wird.
10.2 Wenn Fertigungsmittel vom Verkäufer im Auftrag des Käufers angefertigt oder beschafft werden, stellt der Verkäufer dem Käufer hierfür die Kosten gesondert in Rechnung. Die Fertigungsmittel bleiben Eigentum des Verkäufers. Zur Herausgabe an den Käufer ist der Verkäufer nicht verpflichtet. Vorstehendes gilt auch für Folgewerkzeuge. Die nachfolgende Regelung in Ziffer 10.3 bleibt hiervon unberührt.
10.3 Im Falle der Amortisation der Kosten der Fertigungsmittel über den Teilepreis übernimmt der Käufer bei Nichtamortisation eines Werkzeuges die nicht gedeckten Kosten einschließlich der Kosten der sonstigen typengebundenen Einrichtungen. Kosten für Modelle gehen stets in vollem Umfang zu Lasten des Käufers.
10.4 Vom Verkäufer dem Käufer ausgehändigte Zeichnungen und Unterlagen sowie Vorschläge des Verkäufers für die Gestaltung und zur Herstellung der Ware dürfen an Dritte nicht weitergegeben und können vom Verkäufer jederzeit zurückverlangt werden.

11. Sachmängelhaftung / Haftung
11.1 Der Verkäufer haftet nicht für Schäden, die durch Verletzung von Bedienungs-, Wartungs- und Einbauvorschriften, ungeeignete, nicht bestimmungsgemäße oder unsachgemäße Verwendung, fehlerhafte oder nachlässige Behandlung, natürlicher Verschleiß, falsche Lagerung oder vom Käufer oder Dritten vorgenommene Veränderungen der Ware auftreten. Die Waren dürfen vom Käufer oder Dritten nur durch unterwiesenes Fachpersonal eingebaut werden.
11.2 Dem Verkäufer steht das Wahlrecht zwischen Nachbesserung und Neulieferung zu. Der Käufer hat dem Verkäufer die beanstandete Ware auf dessen Verlangen zu Untersuchungszwecken zu übergeben. Sofern dem Verkäufer aufgrund eines unberechtigten Mangelbeseitigungsverlangen des Käufers Kosten entstehen (insbesondere Prüf- und Transportkosten), so kann der Verkäufer Erstattung dieser Kosten verlangen
11.3 Die zum Zwecke der Nacherfüllung erforderlichen Aufwendungen werden nicht vom Verkäufer getragen, soweit die Aufwendungen sich dadurch erhöhen, dass die Ware nach der Lieferung an einen anderen Ort als den ursprünglichen Lieferort verbracht worden ist.
11.4 Erfolgt die Inanspruchnahme des Verkäufers durch den Käufer im Wege des Rückgriffs, nachdem der Käufer selbst wegen Mängel von seinem Kunden in Anspruch genommen worden ist, so gilt für die Rechtsdurchsetzung § 445a BGB.
11.5 Ansprüche aus Sachmängelhaftung verjähren in einem Jahr ab Übergabe der Ware, es sei denn, die Sachmängelhaftungsansprüche beruhen auf einer grob fahrlässigen oder vorsätzlichen Pflichtverletzung des Verkäufers oder seines Erfüllungsgehilfen oder auf einer Verletzung von Leben, Körper oder Gesundheit. Bei Mängelgewährleistungsansprüchen, die der Käufer im Wege des Rückgriffs gem. § 445a BGB gegen den Verkäufer geltend macht, gilt uneingeschränkt die Verjährungsregelung des § 445b BGB.
11.6 Der Käufer ist verpflichtet, seiner Untersuchungspflicht nach § 377 HGB auch bei Weiterveräußerung der Ware nachzukommen.
11.7 Das Rückgriffsrecht des Käufers gegen den Verkäufer wegen solcher Ansprüche aus Sachmängelhaftung, die dem Käufer von dessen Abnehmern entgegengesetzt werden, ist ausgeschlossen, wenn der Käufer seiner Untersuchungs- und Rügepflicht nicht nachgekommen ist oder die Ware durch Verarbeitung abgeändert wurde.
11.8 Die Haftung des Verkäufers nach den gesetzlichen Bestimmungen auf Schadensersatz ist uneingeschränkt gegeben, wenn eine dem Verkäufer zurechenbare Pflichtverletzung auf Vorsatz oder grober Fahrlässigkeit beruht. Soweit die dem Verkäufer zurechenbare Pflichtverletzung auf einfacher Fahrlässigkeit beruht und eine wesentliche Vertragspflicht schuldhaft verletzt ist, ist die Schadensersatzhaftung auf den vorhersehbaren Schaden beschränkt, der typischerweise in vergleichbaren Fällen eintritt. Im Übrigen ist die Haftung ausgeschlossen.
11.9 Der Ersatz von entgangenem Gewinn und Schäden aus Betriebsunterbrechung ist auf Vorsatz und grobe Fahrlässigkeit beschränkt.
11.10 Die Haftung nach den Bestimmungen des Produkthaftungsgesetzes oder vergleichbarer, unabdingbarer Rechte auch ausländischer Rechtsordnungen bleibt unberührt. Unberührt bleibt auch die Haftung wegen Verletzung von Leben, Körper und Gesundheit.
11.11 Soweit eine Haftung nach Tatbeständen der Ziffer 11.9 begründet wird, ist die Haftung des Verkäufers bei ausländischen Rechtsordnungen im Verhältnis zum Käufer insoweit beschränkt, als es nach dem jeweiligen ausländischen Recht zulässig wäre.
11.12 Soweit die Schadensersatzhaftung des Verkäufers ausgeschlossen oder eingeschränkt ist, gilt dies auch im Hinblick auf die persönliche Schadensersatzhaftung der Mitarbeiter, Vertreter und Erfüllungsgehilfen des Verkäufers.

12. Abtretungsverbot
12.1 Sämtliche Ansprüche des Käufers gegen den Verkäufer sind nicht abtretbar.
12.2 Der Verkäufer ist jederzeit auch ohne Zustimmung des Käufers dazu berechtigt, insbesondere mit ihm verbundene Unternehmen (im Sinne von § 15 AktG) als Erfüllungsgehilfen bei der Angebotserstellung und Vertragsabwicklung einzubinden.

13. Produkthaftung / Hinweispflichten
13.1 Der Käufer darf die Ware nur bestimmungsgemäß verwenden und muss dafür sorgen, dass diese Ware nur an mit den Produktgefahren und -risiken vertraute Personen weiterveräußert wird.
13.2 Der Käufer ist verpflichtet, bei Verwendung der Ware als Grundstoff und Teilprodukt von eigenen Produkten beim Inverkehrbringen des Endprodukts seiner Warnpflicht auch im Hinblick auf die von dem Verkäufer gelieferte Ware nachzukommen. Im Innenverhältnis stellt der Käufer den Verkäufer von der Geltendmachung von Ansprüchen bei Verletzung dieser Obliegenheit auf erstes Anfordern frei.

14. Geheimhaltung
Der Käufer muss alle geschäftlichen und technischen Informationen, die er vom Verkäufer erhalten hat, Dritten gegenüber wie Geschäfts- und Betriebsgeheimnisse behandeln, soweit diese nicht allgemein bekannt sind. Derartige Informationen dürfen ausschließlich zum vertragsgemäßen Zweck an Dritte, die über eine entsprechende Geheimhaltungsvereinbarung eingebunden sind, weitergegeben werden.

15. Datenschutz
Der Verkäufer erhebt, verarbeitet und nutzt personenbezogene Daten des Käufers nur unter Einhaltung der einschlägigen Datenschutzbestimmungen. Dementsprechend werden personenbezogene Daten des Käufers nur bei Vorliegen einer gesetzlichen Erlaubnis oder Vorliegen einer Einwilligung verwendet.

16. Sonstiges
16.1 Erfüllungsort ist der Ort des jeweiligen Verkäuferwerkes.
16.2 Gerichtsstand für sämtliche Streitigkeiten aus dem Vertrag ist Heilbronn. Der Verkäufer ist jedoch berechtigt, den Käufer auch an dessen allgemeinen Gerichtsstand zu verklagen.
16.3 Für die Abwicklung von Verträgen auf Grundlage dieser Verkaufs- und Lieferbedingungen gilt ausschließlich deutsches Recht unter Ausschluss des Kollisionsrechts und des UN-Kaufrechts (CISG).
16.4 Die Parteien sind verpflichtet, im Rahmen der Durchführung der Vertragsbeziehung sämtliche geltenden gesetzlichen Bestimmungen einzuhalten.
16.5 Soweit eine oder mehrere der vorstehenden Bestimmungen ganz oder teilweise unwirksam sein sollte, so bleibt die Gültigkeit der übrigen Bestimmungen hiervon unberührt. Die ungültige Bestimmung ist dann durch eine gesetzlich zulässige Bestimmung zu ersetzen, mit der Sinn und Zweck dieser Verkaufs- und Lieferbedingungen in möglichst gleicher Weise erreicht werden.

Terms and Conditions of Sale and Delivery of MS Motorservice International GmbH Version: 2023

RHEINMETALL

1. Scope of Application
1.1 The Terms and Conditions of Sale and Delivery of MS Motorservice International GmbH (hereinafter referred to as the "Seller") shall apply exclusively. Opposing terms of the Buyer or terms that deviate from these Terms and Conditions of Sale and Delivery shall not apply unless the Seller has expressly agreed to the validity of deviating terms in writing. These Terms and Conditions of Sale and Delivery shall also apply if the Seller effects delivery to the Buyer without reservation in full knowledge of opposing terms of the Buyer or terms that deviate from its own Terms and Conditions of Sale and Delivery.
1.2 Separate agreements between the parties deviating from or supplementing these Terms and Conditions of Sale and Delivery shall take precedence. They shall be supplemented by these Terms and Conditions of Sale and Delivery unless special provisions have been agreed. The content of such agreements is contingent on a written contract or the written confirmation of the Seller.
1.3 The Terms and Conditions of Sale and Delivery shall also apply to future business transactions with the Buyer. By placing a purchase order and at the latest upon acceptance of the goods, the Buyer accepts these Terms and Conditions of Sale and Delivery.
1.4 These Terms and Conditions of Sale and Delivery shall only apply in B2B relationships.

2. Offer and Order Confirmation
2.1 Offers by the Seller shall in all cases be non-binding. If a purchase order from the Buyer legally qualifies as an offer, it shall only be accepted once it has been confirmed in writing by the Seller within four weeks. The contract shall come into effect at the latest once the ordered goods have been dispatched or their delivery time has been communicated, and in case of partial delivery, once the first delivery has been dispatched.
2.2 Modifications and other agreements shall only be binding once they have been confirmed by the Seller in writing.
2.3 The documents, drawings, details relating to weight and dimensions, samples etc. contained in the offers are only approximate specifications and shall not constitute guaranteed qualities. The Seller shall be entitled to deviate from the descriptions in the offer to the extent that these deviations are not of a fundamental or significant nature and the purpose according to the contract is not substantially restricted.
2.4 Insofar as goods are manufactured according to Buyer's drawings, the drawings created by the Buyer and approved by the Seller shall be decisive. Deviations from approved drawings must be separately agreed and any additional costs in this regard shall be reimbursed to the Seller.

3. Industrial Property Rights
3.1 The Seller shall reserve industrial property rights and copyright to all illustrations, drawings, calculations, and other documents; these items may neither be used for purposes other than those stipulated by the Seller, nor made accessible to third parties without the prior written consent of the Seller. This shall apply in particular to written documents that are designated as "confidential", "secret" or similar.
3.2 The Seller shall only be liable for claims relating to violations of industrial property rights and applications for industrial property rights resulting from contractual use of the goods, if at least one property right from the family of industrial property rights has been published by the European Patents Office or in one of the following states: Federal Republic of Germany, France, United Kingdom, Austria, China, Japan or the USA.
3.3 Where deliveries are effected according to drawings or other specifications from the Buyer and where third-party property rights are breached as a result of this, the Buyer shall indemnify the Seller against any claims internally.

4. Recommendations and Information
Recommendations and information shall be non-binding insofar as they do not refer to the goods themselves.

5. Prices
5.1 All prices are net prices and shall be quoted ex works (Incoterms® 2020, "EXW") excluding packaging, freight, postage and insurance. Statutory VAT shall be added at the current applicable rate.
5.2 Any additional costs incurred as a result of modification requests may be charged to the Buyer by the Seller.
5.3 Where events occur after conclusion of the contract that result in increased costs for the Seller in terms of primary purchasing costs, manufacture and/or shipment of the goods, the Seller shall be entitled to increase its prices accordingly.

6. Conditions of Payment
6.1 Invoices shall be due for payment within 14 days of the invoice date without any deductions. Even as part of an active business relationship, the Seller is entitled, at any time, to only carry out a delivery, either fully or in part, in exchange for payment in advance. Discounts shall only apply where expressly agreed in writing.
6.2 The Seller shall be entitled to offset a payment against the oldest, not specifically titled debt, even where the Buyer has earmarked the payment for a different purpose. Where costs or interest have already been incurred, the Seller shall be entitled to offset payments, in the first instance, against the costs, then against the interest, and finally against the principal debt.
6.3 The Buyer shall only have the right to offset insofar as its counterclaims are legally binding, are uncontested or have been acknowledged in writing by the Seller. The right of retention on the part of the Buyer shall be limited to claims arising from the contractual relationship.
6.4 The Seller is entitled to charge default interest at the applicable statutory default interest rate. The right to prove a higher default damage shall be expressly reserved.

7. Delivery / Delivery Time / Delay
7.1 Delivery periods and delivery dates shall only be deemed to have been agreed with binding effect where these are expressly confirmed in writing by the Seller. The Seller shall not be bound to the delivery date or delivery period where the Buyer does not meet its obligations in due time (to make anticipated payments, to provide required documents, to supply materials for manufacture etc.). The plea for non-fulfilment of the contract shall remain reserved.
7.2 Delivery periods begin at the earliest on the day of written conclusion of the contract and once all technical issues have been clarified.
7.3 In the event of change requests from the Buyer, the Seller shall be exempt from compliance with any agreed delivery date or delivery period. In such cases, the parties shall agree a new delivery date or a new delivery period.
7.4 Unless otherwise agreed, the delivery date or delivery period shall be deemed to have been adhered to when the Seller has made the goods available at the location agreed.
7.5 The Buyer may not assert claims due to delivery delays that do not result from intent or gross negligence on the part of the Seller. In particular, including with regard to other disruptions, this shall apply to delivery delays caused by force majeure, labour disputes, unrest, epidemics and/or pandemics, cyber-attacks, official measures, failure to deliver by suppliers and any other unforeseeable, unavoidable and serious events. In such cases, the agreed delivery date or delivery period shall be extended according to the duration of the delivery impediment. The Seller shall notify the Buyer of this and, where possible, specify a new expected delivery date. Compensation for loss of profit and stop of production shall be limited to intent.
7.6 Where the Buyer delays acceptance or violates any other obligation to cooperate, the Seller shall be entitled to demand compensation for damage suffered in this respect, including any additional costs. Furthermore, the Seller shall have the right to set an appropriate acceptance period for the Buyer and to withdraw from the contract where this period has expired to no avail, and to demand compensation for damage instead of the performance.
7.7 Partial deliveries shall be permitted to a reasonable extent. In this regard, claims made by the Buyer due to partial delivery or delayed delivery of the remaining goods shall be excluded.

8. Retention of Title
8.1 The Seller shall reserve title of all goods delivered until all payments pertaining to the supplier relationship, including any dues as shall arise in the future, have been effected in full. In the event of conduct contrary to contract, in particular as regards payment default, the Seller shall be entitled to claim back the goods.
8.2 The Buyer shall be obliged to handle the delivered goods with care and to insure them at their purchase price against any kind of loss at its own expense during the period of retention of title. The Seller shall remain entitled to insure the goods itself at the expense of the Buyer.
8.3 In case of pledge or other third-party intervention, the Buyer shall immediately notify the Seller in writing so that the latter can initiate a third-party action or other legal remedies. Where the third party fails to reimburse the legal and extrajudicial costs arising from this, the Buyer shall be liable for such costs.
8.4 The Buyer shall be entitled to sell on the goods in the ordinary course of business; it hereby, however, assigns to the Seller all receivables arising from the resale to its customers or third parties to the value of the final invoice amount (including statutory VAT) of the receivables, irrespective of whether the goods were sold without or following further processing. The Buyer shall remain entitled to collect these receivables even after delivery. The Buyer's right to collect the receivables itself shall remain unaffected by this.
8.5 Where the goods delivered are inseparably mixed or combined with other items not belonging to the Seller, the Seller shall acquire joint ownership of the new or combined product in proportion to the value of the goods delivered (final invoice amount, including statutory VAT) in relation to the value of the other items at the time of combination or mixing. The Buyer shall safeguard the resulting sole ownership or joint ownership on behalf of the Seller.
8.6 Where the value of the securities granted exceeds the claims of the Seller by more than a total of 20%, the Seller shall be obliged to release the excess securities upon request of the Buyer, at the Seller's option.
8.7 If and to the extent that an agreement on the retention of title is not permitted under the relevant legal system, the Buyer shall provide the Seller with alternative appropriate securities on taking advantage of credit on goods.

9. Shipment, Transfer of Risk
9.1 Shipment shall be carried out at the risk of the Buyer. The risk shall transfer to the Buyer when the goods are dispatched at the very latest, even if the Seller has other services to perform.
9.2 Where shipment is delayed due to circumstances beyond the Seller's control, the risk shall pass to the Buyer from the day of notification of readiness for shipment. Upon written request of the Buyer and at the Buyer's expense, the Seller shall insure the shipment against breakage, damage in transit, as well as fire and water damage.
9.3 In accordance with the Packaging Act (Verpackungsgesetz), transport packaging and any other packaging shall not be taken back, with the exception of pallets. The Buyer shall be obliged to dispose of the packaging at its own expense.

10 Manufacturing Equipment
10.1 Insofar as the Buyer provides manufacturing equipment (e.g. tools, templates) to the Seller, these shall be sent to the Seller at no charge. The Seller can only be held liable for their loss, deterioration or incomplete return, including damage resulting from this, in cases of gross negligence or intent. This shall not apply in cases of legally mandatory liability.
10.2 Where manufacturing equipment is produced or procured by the Seller at the Buyer's request, the Seller shall invoice the Buyer for the costs for such equipment separately. The manufacturing equipment shall remain the property of the Seller. The Seller shall not be obliged to hand over said equipment to the Buyer. The above shall also apply in respect of follow-on tools. The following provision in Item 10.3 shall remain unaffected by this.
10.3 In the event of amortization of costs for the manufacturing equipment in excess of the part cost, the Buyer shall assume the costs not covered in case of non-amortization of a tool, including the costs for other type-specific equipment. Costs for models shall in all cases be for the account of the Buyer.
10.4 Drawings and documents provided to the Buyer by the Seller, as well as recommendations by the Seller in respect of design and production of the goods, may not be forwarded to third parties and can be claimed back by the Seller at any time.

11. Liability for Defects / Liability
11.1 The Seller shall not be liable for any damage caused by non-compliance with operating, maintenance and fitting instructions, inappropriate or improper use, faulty or negligent handling, natural wear and tear, incorrect storage or modification of the goods by the Buyer or third parties. Installation of the goods by the Buyer or a third party may only be carried out by trained and qualified personnel.
11.2 The Seller shall have the right to decide whether to remedy a defect or provide new goods. At the request of the Seller, the Buyer must hand the goods in question over to the Seller for examination. If the Seller incurs costs as a result of an unjustified request by the Buyer for the rectification of a defect (especially examination and transport costs), the Seller can demand compensation for these costs
11.3 Expenses required for purposes of cure shall not be borne by the Seller in the event of increased expenses as a result of subsequent relocation of the goods to a location other than that of the original place of delivery.
11.4 If the Seller is sued by the Buyer by way of recourse after the Buyer itself has been sued by its customer due to defects, § 445a BGB (Bürgerliches Gesetzbuch - German Civil Code) shall apply to the enforcement of rights.
11.5 Claims based on liability for defects shall expire one year after handover of the goods unless the warranty claims are based on grossly negligent or wilful breach of obligation on the part of the Seller or one of its vicarious agents or on injury to life, limb, or health. Warranty claims for defects brought against the Seller by the Buyer by way of recourse in accordance with § 445a BGB are subject, without restriction, to the limitation period set out in § 445b BGB.
11.6 The Buyer shall also undertake to fulfil its obligation of examination pursuant to § 377 HGB (Handelsgesetzbuch - German Commercial Code) in the case of resale of the goods.
11.7 The Buyer's right of recourse against the Seller as a result of such claims based on liability for material defects made against the Buyer by its customers shall be excluded if the same has not fulfilled its obligation of examination and notification or if the goods have been modified by means of processing.
11.8 The Seller's liability for compensation according to statutory provisions shall apply without limitation if the same is responsible for breach of obligation based on intent or gross negligence. Insofar as a breach of obligation based on ordinary negligence is attributable to the Seller and an essential contractual obligation has been culpably violated, compensation for damages shall be limited to the amount of foreseeable damage that typically occurs in comparable cases. In all other cases, liability shall be excluded.
11.9 Compensation for loss of profit and damage resulting from business interruptions shall be limited to intent and gross negligence.
11.10 Liability according to the provisions of the Product Liability Law or similar, non-derogable rights of foreign jurisdiction shall remain unaffected. Liability resulting from injury to life, limb, and health shall also remain unaffected.
11.11 Insofar as liability arises according to the facts in Item 11.9, the liability of the Seller in case of foreign jurisdiction shall be limited in relation to the Buyer to the extent permissible according to the relevant foreign law.
11.12 Where the Seller's liability for compensation is excluded or limited, this shall also apply with regard to personal liability for compensation on the part of the Seller's employees, representatives, or vicarious agents.

12. Non-assignment Clause
12.1 All claims by the Buyer against the Seller shall be non-assignable.
12.2 The Seller is entitled at all times, even without the consent of the Buyer, to involve affiliated companies (in the sense of § 15 AktG (Aktiengesetz - German Stock Corporation Act)) in particular in the generation of quotations and execution of contracts as vicarious agents.

13. Product Liability / Notification Obligation
13.1 The Buyer shall only use the goods according to their purpose and shall ensure that these goods are only resold to persons familiar with the hazards and risks associated with the goods.
13.2 The Buyer shall also undertake to fulfil its obligation to issue warnings in respect to the goods delivered by the Seller where the former uses these goods as base material or components for its own products when placing the final product on the market. The Buyer shall indemnify the Seller internally against assertion of claims arising from breach of this obligation upon first request.

14. Confidentiality
The Buyer shall treat as trade and company secret all business and technical information received from the Seller to the extent that this information is not public knowledge. Information of this nature may only be forwarded for the purposes of the contract to third parties who are bound by an appropriate non-disclosure agreement.

15. Data Protection
The Seller shall only collect, process and use personal data concerning the Buyer in accordance with the relevant data protection regulations. Consequently, personal data concerning the Buyer shall only be used on the basis of a legal ground or consent.

16. Other
16.1 The place of performance shall be the location of the relevant plant of the Seller.
16.2 The place of jurisdiction for all disputes arising from the contract shall be Heilbronn. The Seller shall, however, be entitled to file suit against the Buyer at its general place of jurisdiction as well.
16.3 Contracts based on these Terms and Conditions of Sale and Delivery shall be solely subject to German law excluding its conflict-of-laws provisions and the UN Convention on Contracts for the International Sale of Goods (CISG).
16.4 The parties shall be obliged to comply with all statutory provisions within the framework of the contractual relationship.
16.5 Should one or several of the above provisions be ineffective in whole or in part, the validity of the remaining provisions shall remain unaffected by this. The invalid provision shall in that case be replaced by a legally valid provision that most closely approximates the meaning and purpose of these Terms and Conditions of Sale and Delivery.

Conditions générales de vente et de livraison de MS Motorservice International GmbH Version : 2023

1. Domaine de validité

1.1 Les conditions générales de vente et de livraison de la société MS Motorservice International GmbH (ci-après dénommée le « Vendeur ») s'appliquent à l'exclusion de toutes autres. Aucune condition de l'Acheteur, contraire aux présentes conditions de vente et de livraison ou différentes, n'est admise, excepté si le Vendeur a donné son accord exprès et écrit à l'application de conditions différentes. Les présentes conditions de vente et de livraison s'appliquent également si le Vendeur, en connaissance de conditions de l'Acheteur contraires ou différentes des siennes propres, effectue sans réserve la livraison à l'Acheteur.

1.2 Toute convention distincte passée entre les parties et différente des présentes conditions de vente et de livraison ou les complétant, s'applique en priorité. Sauf réglementation spécifique applicable, les présentes conditions de vente et de livraison complètent lesdites conventions. Le contenu de ces dernières est déterminé par un contrat écrit ou une attestation écrite du Vendeur.

1.3 Les présentes conditions de vente et de livraison sont de même applicables à toutes les opérations commerciales futures avec l'Acheteur. L'Acheteur accepte ces conditions de vente et de livraison en passant commande, et au plus tard en réceptionnant la marchandise.

1.4 Les présentes conditions de vente et de livraison ne s'appliquent qu'aux entreprises.

2. Offre et confirmation de commande

2.1 Les offres du Vendeur s'entendent toujours sans engagement. Une commande de l'Acheteur qui pourra être juridiquement qualifiée d'offre, n'est réputée acceptée que dès lors que le Vendeur l'a confirmée par écrit dans un délai de quatre semaines. Le contrat est conclu au plus tard lors de l'expédition ou de la communication de la date de mise à disposition de la marchandise commandée, et pour les livraisons partielles, lors de l'envoi de la première livraison.

2.2 Les modifications et autres conventions ne présentent un caractère contraignant qu'une fois confirmées par écrit par le Vendeur.

2.3 Les documents, dessins, indications de poids et de mesure, modèles, etc. figurant dans les offres ne sont que des indications approximatives ne constituant pas des caractéristiques. Le Vendeur est autorisé à apporter des variantes aux descriptifs figurant dans l'offre pourvu que celles-ci ne soient pas de nature fondamentale ou essentielle et qu'elles ne constituent pas un obstacle substantiel à l'objet du contrat.

2.4 Si les marchandises sont fabriquées d'après des dessins de l'Acheteur, les dessins faits par celui-ci et approuvés par le Vendeur font foi. Les différences apportées aux dessins approuvés doivent être convenues séparément et les coûts supplémentaires éventuels en découlant donnent lieu à une rémunération du Vendeur.

3. Droits de protection

3.1 Le Vendeur demeure titulaire des droits d'auteur et de propriété intellectuelle sur l'ensemble des illustrations, dessins, calculs et autres documents ; cette documentation ne peut être utilisée, sans autorisation préalable du Vendeur, à d'autres fins que celles spécifiées par le Vendeur, ni être communiquée à des tiers. La présente clause s'applique notamment aux documents écrits portant la mention « confidentiel » ou « secret » ou une mention similaire.

3.2 La responsabilité du Vendeur est uniquement engagée en cas de recours exercé dans le cadre de l'utilisation contractuelle des marchandises suite à une violation de droits de protection et de demandes de droits de protection (droits de protection) dont un au moins appartenant à la famille des droits de protection est publié soit par l'Office européen des brevets soit dans l'un des États suivant : Allemagne, France, Grande-Bretagne, Chine, Japon ou USA.

3.3 Dans le cas où des livraisons effectuées sur la base de dessins ou autres indications de l'Acheteur violeraient les droits de protection de tiers, l'Acheteur dégage le Vendeur de tout recours dans le cadre de leurs relations internes.

4. Recommandations, informations et renseignements

Les recommandations, informations et renseignements sont sans engagement pour autant qu'ils ne se rapportent pas à la marchandise elle-même.

5. Prix

5.1 Tous nos prix sont nets et s'entendent « départ usine » (Incoterms® 2020, « EXW »), à l'exclusion de l'emballage, des frais, du port et de la garantie de valeur. La TVA est facturée en sus au taux légal en vigueur.

5.2 Le Vendeur peut facturer à l'Acheteur les éventuels coûts supplémentaires découlant de demandes de modifications.

5.3 En cas d'événements intervenant après la conclusion du contrat qui enchériraient le prix de revient du Vendeur pour ce qui est de l'achat, la production et/ou l'expédition de la marchandise, le Vendeur se réserve le droit d'appliquer une augmentation de prix correspondante.

6. Modalités de paiement

6.1 Les factures sont payables sans déduction aucune dans les 14 jours suivant la date de facture. Le Vendeur se réserve à tout moment le droit d'exiger un paiement anticipé avant tout ou partie d'une livraison, et ce même dans le cadre d'une relation commerciale établie. Aucune remise n'est consentie en l'absence d'accord exprès par écrit.

6.2 Le Vendeur se réserve le droit, même en cas d'affectation différente de la part de l'Acheteur, d'imputer un paiement en premier lieu sur la dette en souffrance la plus ancienne. En cas de frais ou d'intérêts déjà constatés, le Vendeur pourra imputer les paiements d'abord sur les frais, puis sur les intérêts et, en dernier lieu, sur la prestation principale.

6.3 L'Acheteur ne pourra prétendre à un règlement par compensation que si et pour autant que ses contre-prétentions ont un caractère exécutoire, qu'elles n'ont pas été contestées ou que le Vendeur les a reconnues par écrit. Le droit de rétention de l'Acheteur est limité aux créances découlant de la relation contractuelle.

6.4 Le Vendeur pourra exiger des intérêts de retard d'un montant correspondant au taux d'intérêt légal respectivement en vigueur. Il se réserve expressément le droit d'apporter la preuve d'un préjudice plus élevé résultant du retard.

7. Livraison / délai de livraison / retard

7.1 Les délais et dates de livraison ne sont réputés fermes que pour autant qu'ils ont été approuvés expressément par écrit par le Vendeur. Le Vendeur n'est pas tenu de respecter la date ou le délai de livraison si l'Acheteur ne remplit pas ses obligations (paiement d'acomptes, fourniture des documents nécessaires, fournitures requises pour la fabrication, etc.) dans les délais impartis. Le Vendeur se réserve le droit de faire valoir l'exception d'inexécution du contrat.

7.2 Les délais de livraison courent au plus tôt à compter de la date à laquelle le contrat est conclu par écrit et à laquelle l'ensemble des questions techniques est réglé.

7.3 Dans l'hypothèse où l'Acheteur demanderait des modifications, le Vendeur n'est plus tenu de respecter la date ou le délai de livraison éventuellement convenus. Dans ce cas, les parties conviendront d'une nouvelle date ou d'un nouveau délai de livraison.

7.4 Sauf convention contraire, la date ou le délai de livraison est réputé respecté dès lors que le Vendeur met la marchandise à disposition au lieu convenu.

7.5 L'Acheteur ne peut faire valoir aucun droit en cas de retard de livraison qui ne serait causé ni intentionnellement ni du fait d'une négligence grave du Vendeur. Ceci s'applique également en cas de perturbations de toute nature, notamment lorsque les retards de livraison résultent d'un cas de force majeure, de mouvements sociaux, d'épidémies et/ou de pandémies, de cyberattaques, de mesures administratives, d'un défaut de livraison par des fournisseurs ainsi que de tout événement grave, imprévisible et inéluctable. Dans ces cas, la date ou le délai de livraison convenu est reporté d'une durée égale à celle des circonstances faisant obstacle à la livraison. Le Vendeur en informe l'Acheteur et communiquera, dans la mesure du possible, une nouvelle date de livraison prévue. Il ne pourra être fait droit à une demande d'indemnisation pour manque à gagner et préjudices découlant d'une interruption d'exploitation qu'en cas de faute intentionnelle.

7.6 En cas de retard de l'Acheteur pour la réception ou de manquement de sa part à toute autre obligation de coopération, le Vendeur pourra exiger l'indemnisation du préjudice, y compris des coûts supplémentaires qui en résulteraient. Le Vendeur a en outre le droit de fixer à l'Acheteur un délai de réception raisonnable et, après expiration infructueuse de ce délai, de résilier le contrat et d'exiger une indemnisation en lieu et place de la prestation.

7.7 Les livraisons partielles sont autorisées dans une mesure raisonnable. Il s'ensuit que tout recours de la part l'Acheteur en cas de livraison partielle ou de retard de livraison des quantités restantes est exclu.

8. Réserve de propriété

8.1 Le Vendeur conserve la propriété de l'ensemble des marchandises livrées jusqu'à réception de l'ensemble des paiements, y compris les engagements à venir, résultant de la relation de fourniture. En cas de faute contractuelle, notamment de retard de paiement, le Vendeur se réserve le droit de réclamer la marchandise.

8.2 L'Acheteur est tenu de prendre soin de la marchandise livrée et de l'assurer à ses frais, pour son prix d'achat, contre toute forme de disparition pendant la durée de la réserve de propriété. Le Vendeur conserve le droit d'assurer lui-même la marchandise aux frais de l'Acheteur.

8.3 En cas de saisie ou autres interventions de tiers, l'Acheteur est tenu d'informer le Vendeur sans délai et par écrit, afin que ce dernier puisse faire valoir sa tierce opposition ou user d'autres voies de droit. Si le tiers ne rembourse pas les coûts judiciaires et extra judiciaires qui en résultent, la responsabilité de l'Acheteur est alors engagée.

8.4 L'Acheteur est autorisé à revendre la marchandise dans le cadre d'opérations commerciales régulières ; il cède toutefois d'ores et déjà au Vendeur l'ensemble des créances, résultant de la revente de la marchandise en question à ses clients ou à des tiers à hauteur du montant final de la facture (y compris la TVA applicable), et ce indépendamment du fait que la marchandise ait été revendue sans ou après transformation. L'Acheteur est autorisé à recouvrer cette créance même après la livraison. La faculté du Vendeur de recouvrer lui-même ladite créance n'en est pas affectée.

8.5 Si la marchandise livrée est mélangée ou alliée de manière indissociable à d'autres objets n'appartenant pas au Vendeur, ce dernier acquiert de ce fait une copropriété sur la chose nouvelle ou alliée au prorata de la valeur initiale de la marchandise livrée (montant final de la facture, TVA applicable comprise) par rapport à celle-ci ou aux autres éléments au moment du mélange ou de l'alliage. L'Acheteur sera le dépositaire pour le Vendeur de la propriété exclusive ou de la copropriété ainsi engendrée.

8.6 Si la valeur des sûretés qui ont été consenties excède les créances du Vendeur de plus de vingt pour cent (20 %), celui-ci s'engage à libérer les sûretés excédentaires selon son choix, sur demande de l'Acheteur.

8.7 Dans l'hypothèse où le système juridique en vigueur n'autoriserait pas de clause contractuelle de réserve de propriété, l'Acheteur faisant usage d'un crédit commercial s'engage à fournir au Vendeur d'autres garanties appropriées.

9. Expédition, transfert de risque

9.1 L'expédition s'effectue au risque de l'Acheteur. Le risque est toujours transféré à l'Acheteur au plus tard lors de l'envoi de la marchandise, même lorsque d'autres prestations sont acceptées par le Vendeur.

9.2 Si l'expédition subit un retard suite à des circonstances qui ne sont pas imputables au Vendeur, le risque est transféré à l'Acheteur à la date de l'avis d'expédition. Sur demande écrite de l'Acheteur, le Vendeur assurera l'envoi, aux frais de l'Acheteur, contre le bris, les dommages dus au transport, au feu et à l'eau.

9.3 Les emballages de transport et autres ne sont pas repris conformément à la législation sur les emballages, à l'exception des palettes. L'Acheteur est tenu de procéder à ses propres frais à l'élimination des emballages.

10 Moyens de fabrication

10.1 Dès lors que l'Acheteur met à la disposition du Vendeur des moyens de fabrication (p. ex. outilllage/outils, moules), ces derniers doivent être envoyés gratuitement au Vendeur. La responsabilité du Vendeur ne pourra être engagée en ce qui concerne leur disparition, leur dégradation ou leur réexpédition incomplète et les dommages en résultant qu'en cas de négligence grave ou de faute intentionnelle. La présente clause ne s'applique pas si la responsabilité est obligatoire de par la loi.

10.2 Si l'Acheteur charge le Vendeur de fabriquer ou d'acheter des moyens de fabrication, les coûts afférents seront facturés à l'Acheteur séparément. Les moyens de fabrication restent la propriété du Vendeur. Celui-ci n'est pas tenu de les restituer à l'Acheteur. Il en ira de même des outillages complémentaires. La règle suivante énoncée au paragraphe 10.3 n'en est pas affectée.

10.3 En cas d'amortissement des coûts des moyens de fabrication supérieur au prix des pièces, l'Acheteur prendra à sa charge les coûts non couverts en cas de non amortissement d'un outil, y compris les coûts des divers équipements spécifiques. Les coûts des modèles sont toujours intégralement à la charge de l'Acheteur.

10.4 La transmission à des tiers des dessins (schémas) et des documents remis à l'Acheteur par le Vendeur, ainsi que les propositions de ce dernier visant à la conception et à la production de la marchandise, n'est pas autorisée ; le Vendeur peut à tout moment en exiger la restitution.

11. Responsabilité pour défaut de qualité / responsabilité

11.1 Le Vendeur décline toute responsabilité pour les dommages résultant d'un manquement aux consignes de manœuvre, de maintenance et de montage, de l'usage inapproprié ou non conforme ou incorrect de la marchandise, d'un traitement impropre ou négligent, de l'usure naturelle, d'un stockage inapproprié ou encore de modifications opérées sur la marchandise par l'Acheteur ou par des tiers. Le montage des marchandises par l'Acheteur ou par des tiers ne doit être effectué que par du personnel qualifié et compétent.

11.2 Le Vendeur a le choix entre réparations et remplacement. Sur demande, l'Acheteur est tenu de remettre au Vendeur la marchandise faisant l'objet de la réclamation à des fins de vérification. Dans le cas où une demande d'élimination de défaut injustifiée émise par l'Acheteur engendre des coûts pour le Vendeur (en particulier des frais de contrôle et de transport), le Vendeur peut exiger le remboursement desdits coûts.

11.3 Le Vendeur ne prend pas à sa charge les frais nécessaires à l'élimination du défaut s'ils sont augmentés du fait que la marchandise a été transportée ultérieurement à la livraison dans un autre endroit que le lieu initial de livraison.

11.4 Si le recours de l'Acheteur prend la forme d'une demande de reprise auprès du Vendeur après que l'Acheteur a lui-même fait l'objet d'un recours pour défaut déposé par son client, l'article 445a du Code civil allemand (BGB) s'applique.

11.5 Les droits issus de la responsabilité pour vice se prescrivent par 12 mois à compter de la remise de la marchandise, excepté si les droits de garantie en raison des défauts de la chose résultent d'un manquement intentionnel ou d'une négligence grave de la part du Vendeur ou de ses agents d'exécution ou d'une atteinte à la vie, à l'intégrité physique ou à la santé. Dans les cas où l'Acheteur fait valoir ses droits à la garantie des vices à l'encontre du Vendeur à des fins de reprise dans le cadre de l'article 445a du Code civil allemand (BGB), la réglementation sur la prescription de l'article 445b du Code civil allemand s'applique sans restriction aucune.

11.6 L'Acheteur est tenu de respecter son obligation d'examen de la marchandise conformément à l'article 377 du Code civil allemand (HBG), même en cas de revente de celle-ci.

11.7 En cas de réclamation pour défauts matériels déposée contre l'Acheteur par ses propres clients, tout droit de recours de l'Acheteur à l'encontre du Vendeur est exclu si l'Acheteur n'a pas respecté son obligation d'examiner les marchandises et d'aviser le Vendeur des défauts qu'il découvre ou si la marchandise a été soumise à un processus de modification.

11.8 La responsabilité légale du Vendeur en matière d'indemnisation est illimitée en cas de manquement intentionnel à ses obligations ou de négligence grave de sa part. Dans le cas où le Vendeur manquerait à ses obligations par négligence de conduite et où il serait porté atteinte de manière fautive à une obligation contractuelle majeure, le droit aux dommages et intérêts sera limité au dommage prévisible, intervenant de manière caractéristique dans des cas comparables. Toute responsabilité est exclue dans les autres cas.

11.9 Il ne pourra être fait droit à une demande d'indemnisation pour manque à gagner et préjudices découlant d'une interruption d'exploitation qu'en cas de faute intentionnelle et de négligence grave.

11.10 La responsabilité en vertu des dispositions de la loi sur la responsabilité du fait des produits ou de normes comparables et impératives de législations étrangères subsiste. Demeure également inchangée la responsabilité en cas d'atteinte à la vie, à l'intégrité du corps et à la santé.

11.11 Dans le cas d'une responsabilité fondée, découlant de faits mentionnés au paragraphe 11.9, la responsabilité du Vendeur vis-à-vis de l'Acheteur, dans le cadre de législations étrangères, est limitée dans la même mesure qu'elle le serait par la législation étrangère en question.

11.12 Toute exclusion ou limitation de la responsabilité du Vendeur en matière d'indemnisation s'applique également à la responsabilité personnelle des employés, représentants et agents d'exécution du Vendeur.

12. Interdiction de cession

12.1 Tous les droits de l'Acheteur à l'encontre du Vendeur sont incessibles.

12.2 Le Vendeur se réserve le droit, à tout moment et sans l'accord de l'Acheteur, d'engager des entreprises, notamment celles qui lui sont liées (au sens de l'article 15 de la loi allemande sur les sociétés anonymes « Aktiengesetz ») en qualité d'agents d'exécution aux fins de l'élaboration des offres et de l'exécution du contrat.

13. Responsabilité du fait des produits défectueux / obligations d'information

13.1 L'Acheteur ne devra utiliser la marchandise que de manière conforme à sa destination et devra veiller à ce qu'elle ne soit revendue qu'à des personnes au fait des dangers et risques du produit.

13.2 Si l'Acheteur utilise le produit comme matériau de base ou comme sous-produit de ses propres produits, il est tenu, lors de la mise en circulation du produit final, de respecter son obligation d'avertissement, relative également à la marchandise qui lui a été fournie par le Vendeur. Dans le cadre de leurs relations internes, l'Acheteur libèrera le Vendeur, à sa première demande, de tout recours exercé contre ce dernier pour manquement à ces obligations.

14. Confidentialité

Vis-à-vis des tiers, l'Acheteur est tenu de garder le secret en matière commerciale et industrielle sur toutes les informations commerciales et techniques qu'il a reçues de la part du Vendeur, dans la mesure où elles ne sont pas généralement connues. Les informations de cette nature ne pourront être communiquées qu'à des fins exclusivement contractuelles à des tiers liés par un accord de confidentialité approprié.

15. Protection des données

Le Vendeur collecte, traite et exploite les données à caractère personnel de l'Acheteur dans le cadre exclusif de la réglementation applicable sur la protection des données. En conséquence, l'utilisation des données à caractère personnel de l'Acheteur est soumise à autorisation légale ou au consentement de l'Acheteur.

16. Divers

16.1 Le lieu d'exécution est celui où se trouve l'usine du Vendeur concernée.

16.2 Le tribunal compétent pour tout litige découlant du contrat est Heilbronn. Toutefois, le Vendeur est autorisé à assigner l'Acheteur également devant le tribunal de droit commun compétent pour sa domiciliation.

16.3 L'exécution de contrats basée sur les présentes conditions de vente et de livraison est exclusivement régie par le droit allemand, à l'exclusion des règles de conflits de lois et de la Convention des Nations Unies sur les contrats de vente internationale de marchandises (CVIM).

16.4 Les parties sont tenues, dans le cadre de l'exécution de la relation contractuelle, de respecter l'ensemble des dispositions légales en vigueur.

16.5 En cas d'invalidité totale ou partielle d'une ou plusieurs clauses ci-dessus, la validité des autres clauses n'en sera pas affectée. La clause invalide devra être remplacée par une clause légale s'approchant au plus près du sens et de l'objectif des présentes conditions de vente et de livraison.

Condiciones de venta y entrega de MS Motorservice International GmbH Estado: 2023

1. 1. Ámbito de validez

1.1 Se aplicarán exclusivamente las condiciones de venta y entrega de MS Motorservice International GmbH (en adelante, «vendedor»). Las condiciones contrarias o que difieran de las presentes condiciones de venta y entrega del comprador se rechazarán, salvo que el vendedor haya aceptado expresamente por escrito la validez de las condiciones divergentes. Estas condiciones de venta y entrega también se aplicarán si el vendedor realiza la entrega al comprador sin reservas teniendo conocimiento de condiciones contrarias del comprador o que diverjan de las condiciones de venta y entrega propias.

1.2 Tienen prioridad los acuerdos separados entre las partes que se desvíen o complementen estos términos y condiciones de venta y entrega. Salvo que se hayan dictado disposiciones especiales, se completan con las presentes condiciones de venta y entrega. Para el contenido de semejantes acuerdos es decisivo un contrato escrito o una confirmación escrita del vendedor.

1.3 Las condiciones de venta y entrega también se aplicarán a todas las actividades futuras con el comprador. El comprador aceptará estas condiciones de venta y entrega con la realización del pedido, no obstante, a más tardar, al aceptar la mercancía.

1.4 Las presentes condiciones de venta y entrega solo aplican para empresas.

2. Oferta y confirmación del pedido

2.1 Las ofertas del vendedor no son obligatorias. Si un pedido efectuado por el comprador se considera legalmente una oferta, solo se considerará aceptado si el vendedor lo confirma por escrito en un plazo de cuatro semanas. A más tardar, el contrato se celebrará con el envío de la mercancía pedida o cuando se notifique que la mercancía solicitada está disponible; en caso de entregas parciales, cuando se envía la primera entrega.

2.2 Las modificaciones y otros acuerdos solo son vinculantes cuando el vendedor los confirme por escrito.

2.3 Los documentos, planos, pesos y dimensiones, muestras, etcétera, contenidos en las ofertas solo contienen datos aproximados y no constituyen características garantizadas. El vendedor tiene derecho a divergir de las descripciones de la oferta en tanto dichas divergencias no sean de carácter básico o fundamental, y no limiten en lo esencial la finalidad del contrato.

2.4 Cuando las mercancías se producen de acuerdo con los dibujos de los compradores, los planos elaborados por el comprador y aprobados por vendedor serán determinantes. Las divergencias de los planos autorizados deben acordarse por separado y cualquier coste añadido al respecto deberá remunerarse al vendedor.

3. Derechos protegidos

3.1 El vendedor se reserva los derechos de propiedad y de autor con respecto a todas las ilustraciones, planos, cálculos y demás documentos y no se podrán emplear para fines diferentes de los indicados por el vendedor ni relevarse a terceros, salvo que se disponga de una autorización previa por escrito del vendedor. Esto se aplica especialmente a la documentación escrita designada como «confidencial», «secreta» o de forma similar.

3.2 El vendedor solo es responsable de los daños ocasionados por el uso contractualmente correcto de las mercancías derivados de la violación de los derechos protegidos y solicitudes de los derechos protegidos (derechos protegidos), de los cuales al menos uno de la familia de los derechos protegidos figurará en la lista de la Oficina Europea de Patentes o en uno de los estados de la República Federal de Alemania, Francia, Gran Bretaña, Austria, China, Japón o los EE. UU..

3.3 Si las entregas se realizan basándose en planos u otra información proporcionada por el comprador y con ello se violan los derechos de propiedad de terceros, el comprador deberá indemnizar internamente al vendedor por todas las reclamaciones.

4. Recomendaciones, información y declaraciones

Las recomendaciones, la información y las declaraciones no son vinculantes, siempre que no se refieran a la mercancía misma.

5. Precios

5.1 Todos los precios son precios netos y se entenderán «franco fábrica» («EXW» Incoterms®2020) sin el embalaje, transporte, franqueo y garantía de valor. Se agregará el impuesto legal sobre las ventas a la tasa aplicable.

5.2 El vendedor podrá facturarle al comprador cualquier gasto adicional resultante de solicitudes de modificación.

5.3 Si, tras celebrarse el contrato, se produjeran hechos que encarecieran los gastos directos del vendedor en la compra, la fabricación y/o el envío de la mercancía, el vendedor tendrá derecho a un incremento correspondiente del precio.

6. Condiciones de pago

6.1 Las facturas deberán abonarse sin descuento en un plazo de 14 días a partir de la fecha de la factura. El vendedor tiene derecho en cualquier momento, incluso durante una relación comercial en curso, a realizar una entrega total o parcial solo contra pago por adelantado. Los descuentos solo se aplicarán en caso de acuerdo expreso por escrito.

6.2 El vendedor tendrá derecho de facturar primero el pago de una deuda más antigua no titulada, incluso con la asignación obligatoria contraria del comprador. Si ya se han generado costes o intereses, el vendedor tendrá derecho a facturar primero el pago de los costes, a continuación, el de los intereses y, por último, el de la prestación principal.

6.3 El derecho a compensación corresponderá al comprador solo cuando sus contrapretensiones hayan adquirido firmeza legal, sean indiscutibles o hayan sido reconocidas por escrito por el vendedor. El derecho de retención del comprador estará limitado a los derechos de la relación **contractual.**

6.4 El vendedor tendrá derecho a exigir intereses de demora por el importe del tipo de interés de demora respectivo legalmente vigente. Queda reservado expresamente el derecho a acreditar mayores daños por demora.

7. Entrega/plazo de entrega/demora

7.1 Los plazos y fechas de entrega solo se aplicarán si el vendedor los acepta expresamente por escrito. El vendedor no estará obligado a cumplir con la fecha o plazo de entrega si el comprador incumple sus obligaciones (pago de los adelantos, aportación de los documentos necesarios, contribuciones a la producción, etcétera) en el tiempo previsto. Queda reservada la excepción por incumplimiento del contrato.

7.2 Los plazos de entrega comenzarán no antes del día en que se firme el contrato y todas las cuestiones técnicas hayan quedado resueltas.

7.3 Si el comprador solicita modificaciones, el vendedor quedará exento de cumplir con cualquier fecha o plazo de entrega acordado. En este caso, las partes acordarán una nueva fecha o un nuevo plazo de entrega.

7.4 Si no se acuerda nada distinto, la fecha o el plazo de entrega se cumplirá cuando el vendedor haya puesto a disposición la mercancía en el lugar acordado.

7.5 El cliente no podrá presentar ninguna reclamación debido a demoras en la entrega que no se deriven de una acción dolosa o negligencia grave del vendedor. Esto se aplica también para otros inconvenientes, especialmente, a las demoras en la entrega debidas a fuerza mayor, conflictos laborales, disturbios, epidemias y/o pandemias, ataques cibernéticos, medidas oficiales, carencia de suministros por parte de proveedores, así como a otros eventos imprevisibles, inevitables y de gravedad. En estos casos, la fecha o plazo de entrega acordado se aplazará en función de la duración del impedimento para la entrega, por lo que el vendedor informará al comprador y, si es posible, facilitará una nueva fecha prevista de entrega. La indemnización por pérdida de beneficios y daños resultante de la interrupción del servicio se limitará al dolo.

7.6 Si el comprador incurre en demora en la aceptación o infringe otros deberes de cooperación, el vendedor tendrá derecho a exigir una indemnización por los daños causados, que incluye los posibles gastos adicionales. Asimismo, el vendedor tendrá derecho a establecer un plazo de aceptación razonable para el comprador y, después de su vencimiento sin haber resultado, a rescindir el contrato y exigir una indemnización por daños en lugar de la prestación.

7.7 Se permitirán las entregas parciales de manera razonable. En este sentido, quedan excluidas las reclamaciones del comprador debido a la entrega parcial o una entrega con retraso de la cantidad restante.

8. Reserva de dominio

8.1 El vendedor conservará la propiedad de todas las mercancías entregadas hasta la recepción de todos los pagos correspondientes a la relación de suministro y futuras obligaciones correspondientes. En caso de incumplimiento del contrato, especialmente, en caso de demora del pago, el vendedor tendrá derecho a exigir la devolución de las mercancías.

8.2 El comprador estará obligado a tratar las mercancías entregadas con cuidado y a asegurarlas por cuenta propia contra cualquier forma de pérdida durante el período de reserva de dominio por el precio de compra. El vendedor seguirá teniendo derecho a asegurar él mismo la mercancía a cargo del comprador.

8.3 El comprador deberá comunicar sin dilación alguna y por escrito al vendedor cualquier caso de embargo o demás intervenciones de terceros, de modo que éste pueda ejercitar la reclamación por tercería u otros recursos. En tanto que la parte tercera no restituya los costes judiciales y extrajudiciales generados por ello, el comprador asumirá la responsabilidad al respecto.

8.4 El comprador tendrá derecho a revender la mercancía en el transcurso normal de su actividad comercial. No obstante, este cederá en ese momento al vendedor la totalidad de los cobros pendientes por el importe de la suma final de la factura (incluido el impuesto sobre el valor añadido) correspondiente al crédito que haya obtenido de la reventa frente a sus clientes o terceros, independientemente de si la mercancía fue vendida sin ser procesada o después de ello. El comprador conserva el derecho de cobrar esta deuda incluso después de la entrega. El derecho del vendedor a cobrar la deuda él mismo no se verá afectado.

8.5 Si las mercancías entregadas se mezclan o combinan inseparablemente con otras mercancías que no pertenecen al vendedor, el vendedor adquirirá la copropiedad del nuevo o combinado objeto en relación al valor de la mercancía entregada (importe de la suma final de la factura legal IVA incluido) para el otro u otros objetos en el momento de la mezcla o combinación. El comprador custodiará para el vendedor la propiedad o copropiedad así surgida.

8.6 En el caso de que el valor de las garantías entregadas exceda del valor de los créditos del vendedor en total en más de un 20 %, el vendedor tendrá la obligación de liberar, a elección del vendedor, el exceso de las garantías a solicitud del comprador.

8.7 Si y en tanto que el ordenamiento jurídico determinante no permita el acuerdo de una reserva de dominio, el comprador aportará otros avales razonables al vendedor si se utilizan créditos comerciales.

9. Envío, transmisión del riesgo

9.1 El envío se efectuará a riesgo del comprador. El riesgo se transmitirá al comprador, a más tardar, con el envío de la mercancía, también si el vendedor se hace cargo de otras prestaciones.

9.2 Si la entrega se retrasa debido a circunstancias de las que el vendedor no es responsable, el riesgo pasará al comprador en el momento en que se comunica al comprador que la mercancía está lista para el envío. Previa solicitud por escrito del comprador, el vendedor asegurará el envío contra daños por rotura, transporte, fuego y agua, y el comprador se hará cargo de los costes.

9.3 De conformidad con la ley de embalajes, no se aceptará la devolución de embalajes de transporte y demás embalajes; a excepción de las paletas. El comprador está obligado a eliminar el embalaje por cuenta propia.

10 Elementos de producción

10.1 En caso de que el comprador suministre elementos de producción (tales como herramientas y/o moldes), dichos elementos deberán enviarse sin coste alguno al vendedor. El vendedor asume la responsabilidad por su pérdida, deterioro o devolución incompleta y averías resultantes solo en casos de negligencia grave o dolo. Esto no se aplica si la responsabilidad es obligatoria por ley.

10.2 Si el vendedor fabrica o adquiere los elementos de producción en nombre del comprador, el vendedor facturará al comprador los costos por separado. El vendedor conservará la plena propiedad de los elementos de producción. sin que exista ninguna obligación de entregarlos al comprador. Lo anterior se aplica también a los útiles secuenciales. Esto no afecta a la regulación siguiente del apartado 10.3.

10.3 Si los costes de los elementos de producción se amortizan mediante el precio de las piezas, si una herramienta no se amortiza, el comprador asume los costes no cubiertos, incluidos los costes de otras instalaciones específicas del tipo. Los costes de los modelos siempre corren a cargo del comprador en su totalidad.

10.4 Los planos y la documentación entregados al comprador por el vendedor, así como las propuestas del vendedor para diseñar y fabricar la mercancía, no podrán entregarse a terceros y el vendedor podrá exigir su devolución en cualquier momento.

11. Responsabilidad por saneamiento de defectos/responsabilidad

11.1 El vendedor no asume responsabilidad por los daños causados por el incumplimiento de las instrucciones para el manejo, mantenimiento y montaje, la utilización inadecuada o indebida, el uso erróneo o negligente y el desgaste natural, el almacenamiento incorrecto o por las manipulaciones realizadas por el comprador o por terceros en la mercancía. El comprador o terceros solo podrán montar las mercancías empleando a personal especializado e instruido.

11.2 El vendedor tendrá derecho de elegir entre la reparación o sustitución del artículo defectuoso por uno nuevo. El comprador tiene que entregarle al vendedor la mercancía en cuestión a petición de éste para fines de inspección. Si el vendedor incurre en costes (en particular, costes de inspección y transporte) debido a la solicitud injustificada del comprador de rectificar un defecto, el vendedor puede exigir el reembolso de estos costes.

11.3 El vendedor no se hará cargo de los costes necesarios con fines de cumplimiento posterior si estos aumentan debido a que, tras la entrega, la mercancía hubiera sido llevada a otro lugar distinto al lugar de entrega original.

11.4 Si el comprador reclama al vendedor mediante recurso después de que el propio comprador haya sido demandado por su cliente por defectos, se aplicará el artículo 445a del Código Civil alemán (BGB, en sus siglas en alemán).

11.5 Las reclamaciones relacionadas con la responsabilidad por saneamiento de defectos caducarán después de un año desde la entrega de la mercancía, salvo que las reclamaciones de responsabilidad debida a defectos materiales se fundamenten en un incumplimiento doloso o gravemente negligente del contrato por parte del vendedor o sus auxiliares ejecutivos o en lo que concierne a daños personales que afecten a la integridad física y la salud. En caso de reclamaciones de garantía por defectos que el comprador oponga al vendedor mediante recurso de conformidad con el artículo 445a del Código Civil alemán (BGB, en sus siglas en alemán), se aplicará sin restricciones el plazo de prescripción del artículo 445b del Código Civil alemán (BGB).

11.6 El comprador estará obligado a cumplir con la obligación de realizar inspecciones de acuerdo con la legislación alemana, art. 377 del código de comercio alemán, incluso con la reventa de la mercancía.

11.7 El derecho de recurso del comprador contra el vendedor en cuanto a la responsabilidad por saneamiento de defectos, al que los clientes del comprador puedan oponerse, quedará excluido cuando el comprador no cumpla con la obligación de realizar pruebas y reclamaciones o cuando la mercancía haya sido sometida a una transformación.

11.8 La responsabilidad del vendedor en virtud de las disposiciones legales para la responsabilidad por daños y perjuicios se cumplirá íntegramente cuando un incumplimiento imputable de una obligación del vendedor se fundamenta en dolo o negligencia grave. En la medida en que el incumplimiento imputable de la obligación del vendedor se fundamente en una negligencia simple y se viole una obligación esencial del contrato, la responsabilidad por daños y perjuicios se limitará al daño previsible que se produce normalmente en casos similares. Por lo demás, quedará excluida la responsabilidad.

11.9 La indemnización por pérdida de beneficios y daños resultante de la interrupción del servicio se limita al dolo y negligencia grave.

11.10 Esto no afectará a la responsabilidad según las disposiciones de la ley alemana de responsabilidad relativa a los productos defectuosos o también los derechos fundamentales comparables de otras legislaciones extranjeras. Tampoco se verá afectada la responsabilidad debida a lesiones a la vida, la integridad física y la salud.

11.11 Si se fundamenta una responsabilidad según los hechos del apartado 11.9, la responsabilidad del vendedor frente al comprador en el caso de ordenamientos jurídicos extranjeros se limitará en la medida en que estuviera permitido por la legislación extranjera correspondiente.

11.12 Siempre que la responsabilidad por daños y perjuicios del vendedor se excluya o esté limitada, esto también se aplicará respecto a la responsabilidad personal por daños y perjuicios de los empleados, representantes y auxiliares ejecutivos.

12. Prohibición de cesión

12.1 Todas las reclamaciones del comprador frente al vendedor no serán transferibles.

12.2 El vendedor tiene derecho en cualquier momento, incluso sin el consentimiento del comprador, a recurrir a empresas afiliadas a él (en el sentido del artículo 15 AktG (Ley de las sociedades anónimas alemana)) como agentes auxiliares en la preparación de la oferta y la ejecución del contrato.

13. Responsabilidad relativa a los productos defectuosos/deber de advertencia

13.1 El comprador podrá utilizar la mercancía solo de la manera prevista y deberá asegurarse de que esta mercancía se revenda solo a las personas familiarizadas con los peligros y riesgos del producto.

13.2 Al usar los productos como producto primario y subproducto en propios productos, el comprador estará obligado a cumplir también con el deber de advertencia en cuanto a los productos entregados por el vendedor al comercializar el producto final. En las relaciones internas, el comprador renunciará a toda pretensión contra el vendedor en cuanto al incumplimiento de la presente obligación al primer requerimiento.

14. Obligación de confidencialidad

El comprador deberá tratar toda la información comercial y técnica que ha recibido del vendedor, en tanto esta no sea conocida con carácter general, como secreto comercial e industrial frente a terceros. Este tipo de información solo se podrá transmitir a terceras partes, que deberán comprometerse con el correspondiente acuerdo de confidencialidad, con fines contractuales.

15. Protección de datos

El vendedor recopila, procesa y utiliza los datos personales del comprador únicamente de conformidad con las normas de protección de datos pertinentes. En consecuencia, los datos personales del comprador solo se utilizarán si existe permiso o consentimiento legal.

16. Otros

16.1 El lugar de cumplimiento será el lugar en el que se encuentre la fábrica de venta correspondiente.

16.2 La jurisdicción para todos los litigios derivados del contrato será la de Heilbronn (Alemania). No obstante, el vendedor también tendrá derecho a demandar al comprador en su jurisdicción general.

16.3 Para la ejecución de los contratos sobre la base de las presentes condiciones de venta y entrega, se aplicará exclusivamente la ley alemana con exclusión del derecho de colisión y del derecho de adquisición de las Naciones Unidas (CISG).

16.4 En el contexto de la ejecución de la relación contractual, las partes están obligadas a cumplir todas las disposiciones legales aplicables.

16.5 Si una o varias de las disposiciones anteriores resultara total o parcialmente inválida, esto no afectará a la validez de las demás disposiciones. La disposición ineficaz deberá sustituirse por una disposición legal admisible con la que se obtengan el sentido y la finalidad de estas condiciones de venta y entrega en la medida de lo posible.

Condizioni di vendita e di consegna della MS Motorservice International GmbH Ultimo aggiornamento: 2023

RHEINMETALL

1. Ambito di validità

1.1 Valgono esclusivamente le Condizioni di vendita e di consegna di MS Motorservice International GmbH (di seguito denominata "Venditore"). Condizioni dell'Acquirente contrapposte o diverse dalle presenti Condizioni di vendita e di consegna non saranno riconosciute come valide a meno che il Venditore non ne abbia espressamente autorizzato per iscritto la validità. Le presenti Condizioni di vendita e di consegna sono valide anche qualora il Venditore esegua la consegna all'Acquirente senza riserve pur essendo a conoscenza di condizioni dell'Acquirente contrapposte o diverse dalle proprie Condizioni commerciali e di consegna.

1.2 Accordi tra le parti separati derogatori o integrativi rispetto alle presenti Condizioni di vendita e di consegna godono di priorità. In assenza di accordi specifici sono integrati dalle presenti Condizioni di vendita e di consegna. Il contenuto di tali accordi è soggetto a un contratto scritto oppure a una conferma scritta dell'Acquirente.

1.3 Le Condizioni di vendita e di consegna sono valide anche per tutte le operazioni commerciali future intrattenute con l'Acquirente. L'Acquirente riconosce e accetta le presenti Condizioni di vendita e di consegna inoltrando l'ordine, al più tardi con l'accettazione della merce.

1.4 Le presenti Condizioni di vendita e di consegna sono valide solo nei confronti di imprenditori.

2. Offerta e conferma d'ordine

2.1 Le offerte del Venditore sono sempre da considerarsi non vincolanti. Un ordine dell'Acquirente, classificabile come offerta in termini legali, viene considerato accettato solo nel momento in cui viene confermato per iscritto dal Venditore entro un periodo di quattro settimane. Il contratto sarà perfezionato al più tardi con l'invio o la comunicazione della data di fornitura della merce ordinata o dell'invio della prima fornitura in caso di consegne parziali.

2.2 Modifiche o altri accordi saranno vincolanti unicamente qualora vengano confermati per iscritto dal Venditore.

2.3 La documentazione, i disegni, i dati riguardanti pesi e dimensioni, i campioni ecc. contenuti nelle offerte sono informazioni approssimative e non rappresentano caratteristiche di configurazione. Il Venditore ha diritto a derogare alle descrizioni riportate nell'offerta purché dette deroghe non siano di natura fondamentale o essenziale e non limitino sostanzialmente lo scopo conforme al contratto.

2.4 Se le merci devono essere prodotte in base a disegni specifici dell'Acquirente, saranno determinanti i disegni approntati dall'Acquirente e approvati dal Venditore. Deroghe ai disegni approvati dovranno essere concordate separatamente e qualsiasi spesa aggiuntiva da esse derivante dovrà essere rimborsata al Venditore.

3. Diritti di protezione

3.1 Il Venditore si riserva i diritti di proprietà e d'autore su qualsiasi illustrazione, disegno, calcolo e altra documentazione che, quindi, non potranno essere utilizzati a scopi diversi da quelli indicati dal Venditore stesso né essere resi accessibili a terze persone senza previa autorizzazione scritta del Venditore. Ciò si applica soprattutto alla documentazione scritta definita dai termini "confidenziale", "segreta" o simili.

3.2 Il Venditore è unicamente responsabile di rivendicazioni derivanti, nonostante un utilizzo della merce conforme al contratto, dalla violazione di diritti di protezione e diritti di protezione depositati (diritti di protezione) di cui almeno uno appartenente alla famiglia di diritti di protezione sia stato pubblicato dall'Ufficio Brevetti Europeo o in uno degli Stati Repubblica Federale Tedesca, Francia, Gran Bretagna, Austria, Cina, Giappone o USA.

3.3 In caso di consegne eseguite sulla base di disegni o altri dati dell'Acquirente che ledono i diritti di protezione di terzi, nel rapporto interno l'Acquirente esonera il Venditore da qualsiasi rivendicazione.

4. Raccomandazioni, informazioni e precisazioni

Raccomandazioni, informazioni e precisazioni non sono vincolanti purché non si riferiscano alla merce stessa.

5. Prezzi

5.1 Tutti i prezzi si intendono al netto e sono validi "franco magazzino" (Incoterms®2020, "EXW") esclusi l'imballaggio, il trasporto, l'affrancatura e l'assicurazione del valore della merce. Ai prezzi si dovrà aggiungere l'imposta legale sul valore aggiunto di volta in volta valida.

5.2 Il Venditore può addebitare all'Acquirente qualsiasi eccedenza di spesa derivante da richieste di modifica.

5.3 In caso di eventi insorti dopo la stipula del contratto che causino l'aumento dei prezzi di costo del Venditore per l'acquisto, la produzione e/o la spedizione della merce, il Venditore avrà diritto ad aumentare i prezzi corrispondentemente.

6. Condizioni di pagamento

6.1 Le fatture devono essere pagate al netto entro 14 giorni dalla data della fattura. Il Venditore si riserva il diritto di effettuare, in qualsiasi momento anche nel contesto di un rapporto commerciale in corso, una consegna in toto o in parte solo dietro pagamento anticipato. Uno sconto vale unicamente previo esplicito accordo scritto.

6.2 Il Venditore ha diritto ad imputare un pagamento dapprima al debito più lontano non titolato, anche in caso di destinazione contrapposta allo scopo da parte dell'Acquirente. Se sono già insorti costi o interessi, il Venditore ha diritto ad imputare pagamenti dapprima ai costi, poi agli interessi e infine alla prestazione principale.

6.3 L'Acquirente detiene il diritto alla compensazione unicamente se e quando le sue contropretese siano dichiarate aventi valore legale, incontestate o riconosciute per iscritto dal Venditore. Il diritto di ritenzione dell'Acquirente è limitato alle rivendicazioni derivanti dal rapporto contrattuale.

6.4 Il Venditore ha diritto ad esigere interessi di mora ad un tasso che è pari al tasso di interesse legale in vigore. Resta esplicitamente salvo il diritto a comprovare un danno di mora maggiore.

7. Consegna / periodo di consegna / ritardo

7.1 Le date e i periodi di consegna sono considerati vincolanti unicamente se sono stati espressamente promessi per iscritto dal Venditore. Il Venditore non è vincolato alla data o al periodo di consegna se l'Acquirente non ottempera tempestivamente ai suoi obblighi (pagamento di acconti, fornitura della necessaria documentazione, concessioni in comodato d'uso per fini produttivi, ecc.). Con riserva di eccezione di inadempimento.

7.2 I periodi di consegna hanno inizio non prima del giorno in cui è stato stipulato il contratto per iscritto e sono state chiarite tutte le questioni di carattere tecnico.

7.3 In caso di richieste di modifica da parte dell'Acquirente, il Venditore è esonerato dall'osservanza della data o del periodo di consegna eventualmente concordati. In questo caso, le parti dovranno concordare una nuova data o un nuovo periodo di consegna.

7.4 Se non diversamente concordato, la data o il periodo di consegna sono da considerarsi osservati quando il Venditore ha consegnato la merce nel luogo concordato.

7.5 L'Acquirente non ha diritto ad alcuna rivendicazione per ritardi della consegna che non siano dovuti a dolo o colpa grave del Venditore. Ciò si applica anche ad altri inconvenienti, soprattutto a ritardi della consegna dovuti a cause di forza maggiore, conflitti sindacali, agitazioni, epidemie e/o pandamie, attacchi informatici, provvedimenti delle autorità, mancate consegne da parte di subfornitori e altri eventi imprevedibili, inevitabili e gravi. In questi casi, la data o il periodo di consegna concordati saranno prorogati in misura corrispondente alla durata dell'ostacolo alla consegna; il Venditore informerà l'Acquirente in merito e, laddove possibile, comunicherà una nuova data di consegna prevista. Il rimborso di lucro cessante e danni derivanti dall'interruzione della produzione è limitato al dolo.

7.6 In caso di mora di accettazione da parte dell'Acquirente o qualora quest'ultimo violi altri obblighi di collaborazione, il Venditore avrà diritto a pretendere il rimborso del danno eventualmente insorto comprese tutte le spese supplementari. Il Venditore, inoltre, ha diritto ad imporre all'Acquirente un termine di accettazione ragionevole, scaduto il quale, senza esito, avrà diritto a recedere dal contratto nonché ad esigere il rimborso del danno invece della prestazione.

7.7 Forniture parziali sono ammesse in misura accettabile. Pertanto si escludono rivendicazioni dell'Acquirente per forniture parziali o forniture ritardate dell'ordinativo restante.

8. Diritto di riservato dominio

8.1 Il Venditore si riserva la proprietà di tutte le merci consegnate fino al percepimento di tutti i pagamenti derivanti dal rapporto di fornitura, anche degli obblighi futuri. In caso di comportamento contrario ai termini del contratto, in particolare in caso di ritardo dei pagamenti, il Venditore ha diritto a reclamare la restituzione della merce.

8.2 L'Acquirente è tenuto a trattare la merce consegnata con la dovuta cura e ad assicurarla a proprie spese per il valore a nuovo contro qualsiasi forma di perimento per tutta la durata del diritto di riservato dominio. Il Venditore resta autorizzato ad assicurare lui stesso la merce a spese dell'Acquirente.

8.3 In caso di pignoramenti o altri interventi di terze persone, l'Acquirente deve informarne immediatamente il Venditore per iscritto affinché quest'ultimo possa intentare opposizione di terzi o ricorrere ad altri mezzi legali. Se il terzo non rimborsa le spese giudiziali ed extragiudiziali da ciò derivanti, ne sarà responsabile l'Acquirente.

8.4 L'Acquirente ha diritto a rivendere la merce nell'andamento regolare degli affari; egli, tuttavia, cede già ora al Venditore tutti i crediti pari all'importo finale della fattura del credito (compresa l'imposta legale sul valore aggiunto) derivantigli dalla rivendita ai propri clienti o a terzi, indipendentemente da che la merce sia stata rivenduta prima o dopo una lavorazione. L'Acquirente continua ad avere diritto al recupero di questo credito anche dopo la consegna. Resta salva l'autorizzazione del Venditore a recuperare autonomamente il credito.

8.5 Se la merce consegnata viene indissolubilmente commista o unita ad altri oggetti non appartenenti al Venditore, quest'ultimo diventa comproprietario della cosa nuova o unita in rapporto del valore della merce consegnata (importo finale della fattura, compresa imposta legale sul valore aggiunto) al o agli altri oggetti al momento della commistione o dell'unione. L'Acquirente custodisce la proprietà esclusiva o la comproprietà così insorta per il Venditore.

8.6 Se il valore delle garanzie fornite supera i crediti del Venditore complessivamente di oltre il 20 % e l'Acquirente lo richiede, il Venditore sarà tenuto a svincolare le garanzie eccedenti a propria discrezione.

8.7 Se e nella misura in cui l'ordinamento giuridico determinante non ammette accordi sul diritto di riservato dominio, in caso di ricorso al credito su merci l'Acquirente fornirà al Venditore ulteriori garanzie ragionevoli.

9. Spedizione, trapasso di rischio

9.1 La spedizione avviene a rischio e pericolo dell'Acquirente. Il rischio passa sempre all'Acquirente anche se vengono assunte altre prestazioni dal Venditore, al più tardi con la spedizione della merce.

9.2 In caso di ritardi di spedizione non imputabili al Venditore, il rischio viene trasmesso all'Acquirente dal giorno in cui viene comunicata la disponibilità alla spedizione. Su richiesta scritta dell'Acquirente, il Venditore assicurerà la spedizione contro danni di rottura, di trasporto, causati da incendio e dall'acqua a spese dell'Acquirente.

9.3 Come previsto dalla normativa sugli imballaggi, gli imballaggi di trasporto e tutti gli altri imballaggi non saranno ripresi in consegna; fanno eccezione i pallet. L'Acquirente è tenuto a procedere a proprie spese allo smaltimento degli imballaggi.

10 Mezzi di produzione

10.1 Se l'Acquirente fornisce al Venditore mezzi di produzione (ad esempio attrezzi, stampi), questi dovranno essere spediti al Venditore gratuitamente. Il Venditore dovrà rispondere del loro perimento, del deterioramento o di una restituzione incompleta e dei danni che ne derivano solo in caso di colpa grave o dolo. Ciò non si applica qualora la responsabilità del Venditore sia prevista da disposizioni legali obbligatorie.

10.2 Se il Venditore produce o acquista mezzi di produzione su ordine dell'Acquirente, egli addebiterà all'Acquirente le spese pro quota con una fattura separata. I mezzi di produzione restano di proprietà del Venditore. Il Venditore non è tenuto a cedere detti mezzi all'Acquirente. Quanto summenzionato si applica anche alle attrezzature seguenti. Resta salva la seguente regola del punto 10.3.

10.3 Se è previsto l'ammortamento dei costi dei mezzi di produzione oltre il prezzo del pezzo, in caso di mancato ammortamento di un attrezzo l'Acquirente si accolla le spese scoperte, comprese le spese per ulteriori attrezzature specifiche. Le spese per i modelli sono sempre interamente a carico dell'Acquirente.

10.4 I disegni e la documentazione consegnati dal Venditore all'Acquirente nonché le proposte del Venditore circa il design e la produzione della merce non possono essere trasmessi a terzi e il Venditore ha diritto ad esigerne la restituzione in qualsiasi momento.

11. Garanzia per i vizi della cosa / responsabilità

11.1 Il Venditore non è responsabile per danni causati dall'inosservanza di istruzioni per l'uso, di manutenzione e specifiche di montaggio, utilizzo non appropriato, non secondo destinazione o non professionale, trattamento scorretto o negligente, usura naturale, scorretto stoccaggio o modifiche apportate alla merce dall'Acquirente o da terze persone. Le merci possono essere montate dall'Acquirente o da terzi esclusivamente ricorrendo a personale specializzato e addestrato.

11.2 Il Venditore ha diritto di scegliere tra una riparazione e una nuova consegna. L'Acquirente è tenuto a consegnare al Venditore la merce contestata qualora lo richieda a scopo di ispezione. Il Venditore potrà chiedere un risarcimento all'Acquirente per gli eventuali costi sostenuti in relazione all'eliminazione ingiustificata del difetto (in particolare costi di ispezione e trasporto)

11.3 Le spese necessarie all'adempimento successivo non sono a carico del Venditore se, dopo la consegna, aumentano a causa del trasporto della merce dopo la consegna in un altro luogo rispetto a quello originario.

11.4 Qualora l'Acquirente faccia valere il proprio diritto di regresso nei confronti del Venditore, dopo che l'Acquirente stesso è stato citato dal suo cliente per vizi, trova applicazione il § 445a del Codice Civile tedesco.

11.5 Le rivendicazioni derivanti dalla garanzia per i vizi della cosa cadono in prescrizione dopo un anno dal trasferimento della merce a meno che la responsabilità del danno non derivi da una prevaricazione per colpa grave o dolo del Venditore o del suo ausiliario o da delitti contro la vita, l'incolumità e la salute individuale. Qualora l'Acquirente faccia valere diritti di garanzia per vizi nei confronti del Venditore esercitando il regresso ai sensi del § 445a del Codice civile tedesco trovano applicazione, senza limitazione alcuna, le disposizioni sulla prescrizione di cui al § 445b del Codice civile tedesco.

11.6 L'Acquirente è tenuto ad ottemperare al proprio obbligo di controllo ai sensi del § 377 del Codice Commerciale tedesco anche in caso di rivendita della merce.

11.7 È escluso il diritto di regresso dell'Acquirente nei confronti del Venditore per diritti derivanti dalla garanzia per i vizi della cosa rivendicati nei confronti dell'Acquirente dai suoi clienti qualora l'Acquirente non ottemperi al suo obbligo di controllo e ricorso oppure la merce sia stata modificata tramite elaborazione successiva.

11.8 La responsabilità del Venditore conformemente alle disposizioni di legge riguardanti il risarcimento dei danni è illimitata se una prevaricazione imputabile al venditore è causata da dolo o colpa grave. Se la prevaricazione imputabile al Venditore è causata da semplice negligenza e sussiste la violazione colposa di un obbligo contrattuale fondamentale, la responsabilità del danno è limitata al danno prevedibile tipico che incorre in casi equiparabili. La responsabilità è esclusa nei casi restanti.

11.9 Il rimborso di lucro cessante e danni derivanti dall'interruzione della produzione è limitato ai casi di dolo o colpa grave.

11.10 Resta salva la responsabilità ai sensi delle disposizioni della legge sulla responsabilità del prodotto e leggi comparabili inalienabili di ordinamenti giuridici stranieri. Salva resta anche la responsabilità per delitti contro la vita, l'incolumità e la salute individuale.

11.11 In caso di responsabilità fondata ai sensi della fattispecie al punto 11.9, la responsabilità del Venditore prevista da ordinamenti giuridici stranieri in rapporto all'Acquirente è limitata all'entità che verrebbe ammessa dal rispettivo diritto straniero.

11.12 Se la responsabilità del danno del Venditore è esclusa o limitata, la culpa in eligendo si estende anche ai danni causati da collaboratori, rappresentanti ed ausiliari del Venditore.

12. Divieto di cessione

12.1 Tutti i diritti dell'Acquirente nei confronti del Venditore sono incedibili.

12.2 Il Venditore ha diritto a coinvolgere, in qualsiasi momento e senza il consenso dell'Acquirente, in particolare aziende correlate (ai sensi del § 15 AktG, Legge tedesca sulle società per azioni) in qualità di ausiliari per la stesura di offerte e l'evasione di contratti.

13. Responsabilità del prodotto / obblighi di avviso

13.1 L'Acquirente può utilizzare la merce solo secondo la sua destinazione e deve assicurarsi che detta merce venga rivenduta unicamente a persone a conoscenza dei pericoli e dei rischi connessi al prodotto.

13.2 Se utilizza la merce come prodotto base e parziale di prodotti propri, al momento della messa in circolazione del prodotto finale l'Acquirente è tenuto ad adempiere al proprio obbligo di avvertimento anche per quanto riguarda la merce fornita dal Venditore. Nel rapporto interno, l'Acquirente esonera il Venditore dall'esercizio di diritti in caso di violazione della suddetta obbligazione su prima richiesta.

14. Segretezza

Nei confronti di terzi, l'Acquirente è tenuto a trattare tutte le informazioni commerciali e tecniche ricevute dal Venditore come segreti commerciali e aziendali, purché non siano di dominio pubblico. Dette informazioni possono essere trasmesse a terzi, esclusivamente allo scopo previsto dal contratto, che siano vincolati da un corrispondente accordo di segretezza.

15. Tutela dei dati

Il Venditore raccoglie, tratta e utilizza i dati personali dell'Acquirente nel rispetto delle disposizioni relative alla tutela dei dati pertinenti. Pertanto i dati personali dell'Acquirente saranno utilizzati esclusivamente sulla base di una autorizzazione legale o di un consenso.

16. Altro

16.1 Luogo di adempimento è il luogo del corrispondente stabilimento del Venditore.

16.2 Foro competente per qualsiasi controversia derivante dal contratto è il Tribunale di Heilbronn. Tuttavia, il Venditore ha diritto a citare in giudizio l'Acquirente anche dinnanzi al foro competente generale di quest'ultimo.

16.3 Per l'evasione di contratti basati sulle presenti Condizioni di vendita e di consegna si applica unicamente il Diritto tedesco con esclusione del Diritto dei conflitti di competenza e della Convenzione sulla Vendita Internazionale di Beni (CISG).

16.4 Le parti sono tenute ad ottemperare a tutte le disposizioni di legge vigenti nell'ambito dell'espletamento del rapporto contrattuale.

16.5 In caso di inefficacia totale o parziale di una o più di una delle clausole summenzionate, le restanti clausole restano tuttavia valide. La clausola invalida dovrà quindi essere sostituita da una clausola ammessa dalla legge che permetta di adempiere al senso e allo scopo delle presenti Condizioni di vendita e di consegna possibilmente nello stesso modo.

Условия продажи и поставки MS Motorservice International GmbH Состояние на: 2023 год

1. Сфера применения

1.1 Условия продажи и поставки MS Motorservice International GmbH (далее – «продавец») имеют исключительное действие. Противоположные или отличающиеся от настоящих условий продажи и поставки условия покупателя не признаются, за исключением случаев, когда продавец однозначно письменно признал их действительность. Настоящие условия продажи и поставки действительны и в том случае, если продавец, зная противоположные или отличающиеся от собственных условий продажи и поставки условия покупателя, осуществляет поставку для покупателя без предварительных договоренностей.

1.2 Отдельные соглашения между сторонами, отступающие от данных условий продажи и поставки, или дополняющие их, имеют преимущественное действие. В этой части, если не включены какие-либо специальные положения, эти соглашения дополняются настоящими условиями продажи и поставки. Для вступления в силу содержания таких соглашений требуется письменный договор или письменное подтверждение продавца.

1.3 Условия продажи и поставки распространяются и на все будущие сделки с покупателем. Условия продажи и поставки признаются покупателем при размещении заказа, самое позднее – при приемке товара.

1.4 Настоящие условия продажи и поставки действуют только в отношении предпринимателей.

2. Предложение и подтверждение заказа

2.1 Предложения продавца всегда являются свободными. Если заказ покупателя квалифицируется с правовой точки зрения как предложение, он считается принятым только при его письменном подтверждении продавцом в течение четырех недель. Договор вступает в силу не позднее чем с момента отправки заказанного товара или уведомления о времени его готовности к отгрузке, при частичной поставке – с момента отправки первой партии.

2.2 Изменения и прочие соглашения являются обязывающими только в случае их письменного подтверждения продавцом.

2.3 Содержащиеся в предложениях документы, чертежи, данные о весе и размерах, образцы и т. д., являются лишь приблизительными данными, а не характеристиками качества. Продавец имеет право отклониться от описаний в предложении, если такое отклонение не играет решающей или существенной роли, а цель договора при этом не будет существенно ограничена.

2.4 Если товары изготавливаются по чертежам покупателя, определяющими являются составленные покупателем и одобренные продавцом чертежи. Отклонения от уже одобренных чертежей согласовываются отдельно, а любые дополнительные расходы должны быть возмещены продавцу.

3. Патенты

3.1 Продавец сохраняет за собой право собственности и авторское право на все изображения, чертежи, расчеты и прочие документы; без предварительного письменного разрешения продавца они не могут быть использованы в целях, не указанных продавцом, либо переданы третьим лицам. В особенности это касается письменных документов с пометками «конфиденциально», «секретно» или подобными им.

3.2 Продавец несет ответственность только за претензии, возникшие при использовании товара в соответствии с договором, в связи с несоблюдением патентов и заявок на выдачу патентов (охранных прав), из которых, по меньшей мере, один из семейства патентов был опубликован либо Европейским патентным ведомством, либо в одной из следующих стран: Федеративная Республика Германия, Франция, Великобритания, Австрия, Китай, Япония или США.

3.3 Если поставки осуществляются по чертежам или прочим данным покупателя, и при этом нарушаются патенты третьих лиц, покупатель, в рамках отношений партнеров по договору, снимает с продавца все претензии.

4. Рекомендации, информация и справки

Рекомендации, информация и справки являются необязательными, если они не относятся непосредственно к товару.

5. Цены

5.1 Все цены нетто и действуют на условиях франко-завод (Incoterms®2020, «EXW»), за исключением упаковки, фрахта, почтового сбора и индексации. Законодательно установленный налог с оборота в соответствующем размере начисляется дополнительно.

5.2 Возможные дополнительные затраты, возникшие в связи с пожеланиями покупателя по изменению, могут быть включены продавцом в счет покупателя.

5.3 В случае, если после заключения договора возникнут события, повышающие себестоимость товара продавца при его закупке, производстве и/или отправке, продавец имеет право на соответствующее повышение цены.

6. Условия оплаты

6.1 Счета подлежат полной оплате в течение 14 дней со дня выставления счета. Продавец вправе, в том числе в рамках текущих деловых отношений, в любое время осуществить поставку в полном объеме или частично только по предоплате. Скидки действуют только при наличии явного письменного соглашения.

6.2 Продавец имеет право, даже при противоположной целевой привязке покупателя, начислить оплату сначала в счет самого старого, не документированного долга. В случае возникновения расходов и процентов продавец имеет право зачесть платежи сначала на оплату расходов, затем процентов, и в последнюю очередь – на оплату основного продукта или услуги.

6.3 Право на взаимный зачет встречных требований покупатель имеет только в случае, если встречные требования определены имеющими законную силу, неоспоримы или письменно признаны продавцом. Право покупателя отказаться от выполнения своих обязательств по договору ограничено претензиями, возникающими из договорных отношений.

6.4 Продавец имеет право требовать пеню за просрочку исполнения обязательства в размере действующей предусмотренной законодательством процентной ставки за просрочку платежа. Сохраняется право обоснования более высокого ущерба от просрочки.

7. Поставка / срок поставки / задержка

7.1 Договоренность о сроках и дате поставки считается обязательной только в случае, если они однозначно письменно одобрены продавцом. Продавец не обязан соблюдать дату и/или срок поставки, если покупатель не выполняет свои обязательства (выплата задатка, предоставление необходимых документов, размещение заказов на производство и т. д.) своевременно. Сохраняется право на возражение стороны о неисполнении договора другой стороной.

7.2 Срок поставки начинается не ранее дня письменного заключения договора и разъяснения всех технических вопросов.

7.3 При наличии пожеланий покупателя по изменению, продавец освобождается от соблюдения любых согласованных даты и/или срока поставки. В данном случае стороны согласуют новую дату поставки или новые сроки поставки.

7.4 При отсутствии иных договоренностей, дата поставки или срок поставки считаются соблюденными, если товар доставлен продавцом в согласованное место.

7.5 Покупатель не имеет права предъявлять претензии по задержкам поставки, не вызванным умыслом или грубой халатностью продавца. В частности, в том числе при прочих нарушениях, это касается задержки поставки в связи с форс-мажорными обстоятельствами, забастовками, беспорядками, эндемиями и/или пандемиями, кибератаками, административными мерами, отсутствием поставок товаров субпоставщиками и прочими непредвиденными, неотвратимыми и существенными обстоятельств. Согласованные сроки и даты поставки в этом случае продлеваются в соответствии с длительностью действия фактора задержки поставки. Продавец информирует об этом покупателя и, по возможности, сообщает новую предположительную дату поставки. Возмещаются только упущенная прибыль и ущерб в связи с простоем, которые вызваны умышленными действиями.

7.6 В случае просрочки в получении поставленного товара покупателем или нарушения им прочих обязательств по содействию продавец имеет право требовать возмещения понесенного ущерба, включая возможные дополнительные расходы. Кроме того, продавец имеет право устанавливать приемлемый срок приемки товара покупателем, а по истечении срока выйти из договора и потребовать возмещения ущерба вместо выполнения договорных обязательств.

7.7 Частичные поставки допустимы в приемлемом объеме. В связи с этим претензии покупателя по частичной поставке или задержанной поставке остаточной партии исключаются.

8. Оговорка об условиях перехода права собственности на товар

8.1 Продавец сохраняет право собственности на все поставленные товары до поступления всех платежей в рамках отношений, возникающих при осуществлении поставок, а также будущих обязательств. При действиях, противоречащих условиям договора, в частности, при задержке оплаты, продавец имеет право потребовать вернуть товар.

8.2 Покупатель обязуется бережно обращаться с поставленными товарами, и в течение срока перехода права собственности на товар, за собственный счет застраховать его против любого вида уничтожения по покупной стоимости. За продавцом сохраняется право самостоятельно страховать товар за счет покупателя.

8.3 При наложении ареста на имущество или прочих вмешательствах третьих лиц покупатель обязан незамедлительно письменно информировать продавца, чтобы он смог подать иск третьего лица о праве собственности на имущество или иную апелляцию. В случае, если третье лицо не возместит возникшие в связи с этим судебные и внесудебные расходы, ответственность за них несет покупатель.

8.4 Покупатель имеет право продать товар в рамках нормального делового процесса, однако он уже сейчас уступает продавцу все требования в размере итоговой суммы по счету-фактуре (включая установленный законом налог с оборота), которые у него возникают при перепродаже по отношению к клиенту или третьему лицу, независимо от того, был ли товар перепродан без переработки или после нее. Покупатель имеет право на предъявление этого требования к оплате и после передачи товара. Это не отменяет право продавца на самостоятельное взыскание этого требования.

8.5 При нераздельном смешении и соединении поставленного товара с предметами, не являющимися собственностью продавца, продавец приобретает право долевой собственности на новое или соединенное имущество в пропорции, равной отношению стоимости поставленного товара (итоговая сумма по счету-фактуре, включая установленный законом налог на добавленную стоимость) к стоимости других товаров на момент смешения или соединения. Покупатель хранит для продавца возникшую таким образом единоличную или долевую собственность.

8.6 Если стоимость предоставленного залога превышает стоимость требований продавца в общем более чем на 20 %, продавец обязуется по требованию покупателя вернуть тому избыточный залог по выбору продавца.

8.7 Если совокупность действующих правовых норм не допускает договоренности об условиях перехода права собственности на товар, покупатель обязан предоставить продавцу другие соразмерные гарантии при получении товарного кредита.

9. Отправка, переход рисков

9.1 Отправка осуществляется на риск покупателя. Риск всегда переходит на покупателя не позднее чем с момента отправления товара, даже если прочие услуги берет на себя продавец.

9.2 Если отправка задерживается вследствие обстоятельств, не зависящих от продавца, риск переходит на покупателя в день уведомления о готовности к отправке. По письменной просьбе покупателя отправляемый товар страхуется продавцом за счет покупателя на случай ущерба при поломке, повреждении при транспортировке, пожаре и наводнении.

9.3 Транспортная и прочая упаковка, за исключением палет, не принимается назад в соответствии с Законом об упаковке. Покупатель обязан осуществить утилизацию упаковки за собственный счет.

10. Средства производства

10.1 Если покупатель предоставляет в распоряжение продавца средства производства (например, инструменты, формы), то они должны поставляться продавцу бесплатно. Продавец берет на себя ответственность за их поломку, ухудшение или неполный возврат и следующий из этого ущерб только в случае грубой халатности или умышленных действий. Данное положение не действует, если законом устанавливается обязательная ответственность.

10.2 Когда средства производства изготавливаются или приобретаются продавцом по поручению покупателя, продавец включает в счет соответствующие издержки. Эти средства производства остаются в собственности продавца. Продавец не обязан выдавать их покупателю. Это относится также и к последовательным штампам. Изложенное ниже положение под пунктом 10.3 при этом сохраняет свою силу.

10.3 В случае амортизации расходов на средства производства по цене детали, покупатель берет на себя не покрытые расходы при неамортизации инструмента, включая расходы на прочее типизированное оборудование. Затраты на модели всегда покрываются в полном объеме за счет покупателя.

10.4 Запрещено передавать третьим лицам выданные покупателю продавцом чертежи и документы, а также сообщать о предложениях продавца о конструировании и изготовлении товара. Данные чертежи и документы могут быть истребованы назад продавцом в любое время.

11. Ответственность за обнаруженные в изделии дефекты / ответственность

11.1 Продавец не несет ответственности за ущерб, вызванный нарушением предписаний инструкций по эксплуатации, техническому обслуживанию и монтажу, использованием не по назначению или неквалифицированным использованием, неправильным или небрежным обращением, естественным износом, неправильным хранением, или изменением товара продавцом или третьими лицами. Монтаж товара по поручению покупателя или третьих лиц должен выполняться только обученными специалистами.

11.2 Выбор между устранением дефектов и поставкой нового товара делает продавец. По требованию продавца покупатель должен передать ему рекламируемый товар для анализа. В случае возникновения расходов вследствие неправомерного требования со стороны покупателя об устранении дефектов (в частности, расходом на испытания и транспортных расходов) продавец может потребовать возмещения этих расходов.

11.3 Продавец не покрывает издержки, необходимые для устранения дефекта, если повышение издержек связано с перевозкой товара после поставки в иное место, чем исходное место поставки.

11.4 Если требование к продавцу предъявляется покупателем в порядке регресса, после того как к самому покупателю были предъявлены претензии его клиентом за дефекты в изделии, то для реализации прав применяется § 445a Гражданского уложения Германии.

11.5 Срок действия требований по ответственности за обнаруженные в изделии дефекты истекает через год с момента передачи товара, кроме случаев, когда требование устранения недостатков, обнаруженных в товаре, основано на неисполнении обязательств продавцом или лицом, действующим по поручению продавца, по грубой халатности или умыслу, или в случае ущерба жизни и здоровью, а также телесных повреждений. В случае претензий по гарантии отсутствия дефектов, которые предъявляются к продавцу покупателем в порядке регресса согласно § 445a Гражданского уложения Германии, в неограниченном объеме действует положение об исковой давности согласно § 445b Гражданского уложения Германии.

11.6 Покупатель обязуется выполнить свою обязанность исследования товара при покупке согласно § 377 Торгового уложения, в том числе и в случае перепродажи товара.

11.7 Исключается применение покупателем права регресса по отношению к продавцу в связи с такими требованиями устранения недостатков, выдвинутыми покупателю клиентами, если покупатель не выполнил свою обязанность исследования товара при покупке и обязанность немедленно извещать о претензиях к качеству товара, или если товар был изменен при переработке.

11.8 Ответственность продавца за возмещение ущерба согласно положениям закона не ограничена, если вменяемое продавцу невыполнение обязанностей основано на умысле или грубой халатности. Если вменяемое продавцу невыполнение обязанностей основано на простой халатности, и виновно нарушены важные договорные обязательства, ответственность за возмещение ущерба ограничивается прогнозируемым ущербом, обычно возникающим в аналогичных случаях. В остальных случаях ответственность исключена.

11.9 Возмещаются только упущенная прибыль и ущерб в связи с простоем, которые вызваны умышленными действиями и грубой халатностью.

11.10 Это не затрагивает ответственность согласно Закону об ответственности за продукцию или аналогичным неотъемлемым правам зарубежных законодательств. Сохраняется ответственность за ущерб, нанесенный жизни и здоровью, а также при телесных повреждениях.

11.11 Если ответственность по фактам, указанным в пункте 11.9, обоснована, ответственность продавца по отношению к покупателю в рамках зарубежных законодательств ограничена пределами, допустимыми соответствующим зарубежным законодательством.

11.12 Если ответственность продавца за возмещение ущерба исключена или ограничена, это распространяется и на личную ответственность за возмещение ущерба сотрудников, представителей и лиц, действующих по поручению продавца.

12. Запрещение переуступки

12.1 Все требования покупателя по отношению к продавцу не подлежат переуступке.

12.2 Продавец вправе в любое время, в том числе без согласия покупателя, привлекать связанные с ним предприятия (согласно § 15 Закона об акционерных обществах) в качестве лиц, действующих по поручению продавца, к выставлению предложений и выполнению договоров.

13. Ответственность за продукцию / обязанность давать указания

13.1 Покупатель обязан использовать товар только по назначению и гарантировать перепродажу товара только лицам, ознакомленным с опасностями и рисками, связанными с продуктом.

13.2 Покупатель обязуется давать соответствующие указания в случае использования товара в качестве основного материала и компонента собственных продуктов при сбыте конечного продукта, и относительно товара, поставленного продавцом. В рамках отношений партнеров по договору, покупатель освобождает продавца от предъявления претензий при нарушении этого обязательства по первому требованию.

14. Конфиденциальность

Покупатель обязан в отношении с третьими лицами обращаться со всей коммерческой и технической информацией, полученной от продавца, как с коммерческой и производственной тайной, кроме случаев, когда она общеизвестна. Подобная информация может быть передана третьим лицам, заключившим соглашение о конфиденциальности, только в целях, установленных договором.

15. Защита персональных данных

Продавец собирает, обрабатывает и использует персональные данные покупателя только при условии соблюдения действующих Положений о защите персональных данных. Согласно этим Положениям персональные данные покупателя используются только при наличии предусмотренного законом разрешения или согласия.

16. Прочее

16.1 Местом исполнения является местонахождение соответствующего завода продавца.

16.2 Местом судебного рассмотрения всех споров по данному договору является Хайльбронн. Однако продавец имеет право предъявить иск покупателю по месту его общей подсудности.

16.3 При исполнении договора по данным условиям продажи и поставки действует исключительно германское законодательство, за исключением случаев применения коллизионного права и Конвенции ООН о договорах международной купли-продажи товаров (CISG).

16.4 В рамках действия отношений по договору стороны обязуются выполнять все действующие положения закона.

16.5 Если одно или несколько изложенных выше положений окажется полностью или частично недействительным, остальные положения сохраняют силу. Недействительное положение должно быть заменено на законно допустимое положение, максимально приближенное к смыслу и цели данных условий продажи и поставки.

١- نطاق السريان

١-١ تسري شروط البيع والتوريد العامة الخاصة بشركة MS Motorservice International GmbH ذات المسؤولية المحدودة (سيُشار إليها فيما بعد باسم "البائع") حصريًا. ولن يتم إقرار شروط المشتري المخالفة أو المختلفة عن شروط البيع والتوريد الواردة هنا، ما لم يقم البائع بالموافقة صراحةً وكتابيًا على سريان الشروط المختلفة. كما تسري شروط البيع والتوريد هذه في حالة قيام البائع بالتسليم للمشتري دون أي تحفظ مع الدراية بما وضعه المشتري من مخالفة أو مختلفة عن شروط البيع والتوريد الخاصة بالبائع.

١-٢ تسري شروط البيع والتوريد أيضًا على كل الصفقات المستقبلية التي يتم عقدها مع المشتري. ويقرّ المشتري بشروط البيع والتوريد هذه من خلال ما يتقدم به من طلبات، وبقبوله للبضاعة على أقصى تقدير.

١-٣ لا تسري شروط البيع والتوريد هذه إلا على الشركات.

٢- العرض وتأكيد الطلبية

٢-١ تعد عروض البائع دائمًا غير ملزمة. أي طلب يتقدم به المشتري، ويعد من الناحية القانونية عرضًا، لا يعتبر مقبولاً إلا إذا قام البائع بتأكيده كتابيًا خلال أربعة أسابيع. ويتحقق العقد، على أقصى تقدير، بإرسال البضاعة المطلوبة أو بإرسال أول توريد في حالة التوريد على دفعات.

٢-٢ لا تعد التغييرات أو الاتفاقات الأخرى ملزمة إلا عند قيام البائع بتأكيدها كتابيًا.

٢-٣ طالما قام المشتري بطلب تقديرات تكلفة خاصة، فهذه التقديرات تعتبر ملزمة للتعويض المادي. إذ تم إيقاف سريان العقد المبرم لأي سبب من الأسباب القانونية، فسيظل الالتزام بالتعويض المادي عن تقدير التكلفة قائمًا.

٢-٤ تعد المستندات والرسومات وبيانات الأوزان والقياسات والنماذج، وما إلى ذلك، الواردة في هذه العروض بيانات تقريبية ولا تمثل أي ميزات جودة معينة. ويحق للبائع الاختلاف عن الأوصاف الواردة في العرض طالما أن الاختلافات التي تطرأ ليست أساسية أو جوهرية، ولا تفيّد الغرض التعاقدي بشكل حيوي.

٢-٥ طالما تم إنتاج البضاعة وفقًا لرسومات المشتري، فتعتبر الرسومات التي وضعها المشتري ووافق عليها البائع أساسية وحاسمة. ويجب الاتفاق بشكل خاص على أية اختلافات عن الرسومات التي تمت الموافقة عليها، مع تعويض البائع عنها بتكلفة إضافية محتملة.

٣- قوانين الحماية

٣-١ يحتفظ البائع بحق ملكية وطبع ونشر كل الصور والرسومات والحسابات والمستندات الأخرى، وبدون الحصول على موافقة كتابية مسبقة من البائع يُحظر إطلاع أطراف أخرى عليها، كما يُحظر استخدامها لأغراض أخرى بخلاف ما حدده البائع. ويسري ذلك بصفة خاصة على المستندات المكتوبة التي توصف بأنها "خاصة" أو "سرية" أو ما شابه ذلك.

٣-٢ إذا تمت عمليات التوريد وفقًا لرسومات أو تعليمات أخرى خاصة بالمشتري، وترتّب على ذلك خرق قوانين الحماية الخاصة بطرف آخر، فسيقوم المشتري بإعفاء البائع من جميع المطالبات فيما بينهم.

٣-٣ يعد البائع مسئولاً عن المطالبات التي تنشأ، عند استخدام البضاعة بموجب التعاقد، عن خرق قوانين الحماية وتطبيقات الملكية الفكرية (قوانين الحماية)، والتي نُشر منها قانون واحد على الأقل من مجموعة قوانين الحماية وذلك إما من قبل مكتب براءات الاختراع الأوروبي أو في إحدى الدول التالية: ألمانيا أو فرنسا أو بريطانيا أو النمسا أو الصين أو اليابان أو الولايات المتحدة الأمريكية.

٤- التوصيات والمعلومات والبيانات

تعد التوصيات والمعلومات والبيانات غير ملزمة طالما أنها لا ترتبط بالبضاعة نفسها. تُستبعد مطالبات التعويض، مهما كان سندها القانوني، ما لم يكن سببها تعامل البائع على نحو متعمد أو بإهمال جسيم.

٥- الأسعار

٥-١ جميع الأسعار تعد أسعارًا صافية، وتسري عند خروج البضاعة "من المصنع" (قوانين Incoterms ٢٠١٠، تسليم البضاعة في المصنع "EXW") مع استثناء العبوة. وتُضاف ضريبة القيمة المضافة بالقيمة السارية في وقتها.

٥-٢ يحق للبائع أن يضيف لحساب المشتري التكلفة الإضافية المحتملة التي تنشأ عن طلبات التغيير.

٥-٣ إذا وقعت أحداث بعد إبرام العقد من شأنها أن ترفع سعر التكاليف الأساسية التي يتحملها البائع عند شراء وإنتاج و/أو شحن البضاعة، يحق عندئذ للبائع رفع الأسعار بما يناسب ذلك.

٦- شروط الدفع

٦-١ تعد الفواتير مستحقة السداد خلال ١٤ يومًا من تاريخ الفاتورة دون خصومات. ولا يسري الخصم النقدي إلا باتفاق كتابي صريح.

٦-٢ يحق للبائع، حتى في حالة توفّر مخصصات مخالفة لدى المشتري، القيام بتقييد الدفع مبدئيًا على الدين الأقدم غير المُسمى. فإذا نشأت بالفعل تكاليف أو فوائد، فيحق للبائع تقييد الدفع مبدئيًا على التكاليف، ثم على الفوائد، وفي النهاية على الخدمة الرئيسية.

٦-٣ لا يحق للمشتري تحصيل أية مبالغ إلا في حالة إثباته ما يثبت حقه في ذلك، أو كانت دعواه مفروغ منها ومسلّم بها، أو عند قيام البائع بالإقرار بذلك كتابيًا. ويقتصر حق المشتري في التحفظ على المطالبات الناشئة عن العلاقة التعاقدية.

٦-٤ يحق للبائع أن يطالب بفائدة التأخير عن السداد بمقدار فائدة التأخير القانونية السارية. مع الاحتفاظ صراحةً بحق إثبات وقوع أي ضرر أكبر ناتج عن التأخير في الدفع.

٧- التوريد / موعد التوريد / التأخير

٧-١ لا تسري فترات ومواعيد التوريد باعتبارها اتفاقًا ملزمًا إلا عند قيام البائع بالموافقة عليها موافقة كتابية صريحة. ولا يعتبر البائع ملزمًا بموعد أو فترة التوريد ما لم يقم المشتري بالوفاء بالتزاماته (الإيداع في الحساب وتوفير المستندات اللازمة وما إلى ذلك) في الوقت المحدد. مع استمرار الاحتفاظ بحق الاعتراض بشأن عدم الوفاء بالعقد.

٧-٢ تبدأ فترات التوريد في موعد أدناه اليوم الذي تم فيه إبرام العقد كتابيًا وإيضاح كل المسائل الفنية.

٧-٣ في حالة توفّر طلبات تغيير لدى المشتري، يُعفى البائع من الالتزام بموعد أو فترة التوريد. وفي هذه الحالة، يقوم الطرفين بالاتفاق على موعد تسليم جديد أو فترة تسليم جديدة.

٧-٤ ما لم يُتفق على خلاف ذلك، ينبغي الالتزام بموعد أو فترة التوريد عند قيام البائع بتوريد البضاعة في المكان المتفق عليه.

٧-٥ لا يحق للمشتري التقدم بمطالبات عن حالات التأخير في التوريد التي لا يرجع سببها إلى تعمد أو إهمال جسيم من قبل البائع. ويسري هذا على وجه الخصوص على حالات تأخير التوريد الناتجة عن الكوارث الطبيعية وإضرابات العمال والقلاقل والإجراءات التهديدية وحدوث ما يؤدي إلى إلغاء التوريدات من الموردين وغيرها من الأحداث الجسيمة المفاجئة والتي لم يقف أحد بها. وفي هذه الحالات، يُؤجل موعد أو فترة التوريد المُتفق عليها وفقًا لمدة معوقات التوريد. ويقتصر التعويض عن المكسب المفقود والخسائر الناجمة عن انقطاع العمل على حالات التعمد.

٧-٦ في حالة تأخر المشتري في القبول أو قيامه بخرق التزامات المشاركة الأخرى، فيحق للبائع المطالبة بالتعويض عن الأضرار الناشئة بهذا الصدد، بما في ذلك النفقات الإضافية المحتملة. كما يحق للبائع أيضًا أن يحدد للمشتري مهلة مناسبة للقبول، ويتراجع عن العقد بعد انقضاء هذه المهلة بدون تحقيق نتائج مجدية، والمطالبة بالتعويض عن الأضرار بدلاً من الخدمة.

٧-٧ يُسمح بالتوريد على دفعات في الإطار المعقول. وبهذا الصدد، تُستبعد مطالبات المشتري الناتجة عن التوريد على دفعات أو التوريد المتأخر للكمية المتبقية.

٨- التحفظ على الممتلكات

٨-١ يحتفظ البائع بحق ملكية كل البضائع المورّدة حتى استلام كل المدفوعات، الناشئة عن علاقة التوريد، بما في ذلك الالتزامات الناشئة مستقبلاً. وفي حالات التصرف على نحو مخالف للعقد، وخاصة في حالة تأخر الدفع، يحق للبائع المطالبة باستعادة البضاعة.

٨-٢ يلتزم المشتري بالتعامل بعناية مع البضاعة المورّدة، وبتأمينها، وهي في حالة جديدة، على نفقته الخاصة ضد كل أشكال الإهلاك، وذلك أثناء مدة حق التحفظ على الممتلكات. ويظل للبائع الحق في تأمين البضاعة بنفسه على نفقة المشتري.

٨-٣ في حالات مصادرة البضاعة أو إدعاء طرف آخر بامتلاكها، ينبغي على المشتري إخطار البائع بذلك فورًا وكتابيًا حتى يمكن رفع دعوى معارضة لإجراءات هذا الطرف أو رفع غيرها من الطعون القضائية. طالما أن الطرف الآخر لم يقم بسداد النفقات القضائية وغير القضائية الناشئة عن ذلك، فسيكون المشتري مسئولاً عن ذلك.

٨-٤ يحق للمشتري إعادة بيع البضاعة في عملية تجارية سليمة، غير أنه يتعين عليه في هذه الحالة أن يتنازل للبائع عن جميع المطالبات بمقدار المبلغ النهائي للفاتورة (شاملاً ضريبة القيمة المضافة القانونية)، وذلك بصرف النظر عن التزاماته تجاه عملائه أو أي طرف آخر، على أن يتم ذلك بصرف النظر عما إذا كانت البضاعة قد أعيد بيعها بدون إعادة معالجتها أو بعد معالجتها. ولتضمين هذه المطالبة يظل المشتري مخولاً وله الحق حتى بعد التوريد. ولا يؤثر ذلك على حق البائع المكفول في تضمين المطالبة بنفسه. إلا أن البائع يتعهد بعدم تضمين المطالبة طالما أن المشتري ملتزم بدفع المبالغ المستحقة عليه بموجب التعاقد، ولا يتأخر عن سدادها، وطالما أنه بصفة خاصة لم يقدم طلباً بفتح إجراءات الإعسار أو لم يطلب إيقاف دفع المبالغ المستحقة.

٩- الشحن، نقل المخاطر

٩-١ يتحمل المشتري مسؤولية الشحن. يتم دائمًا نقل المخاطر إلى المشتري على أبعد تقدير عند إرسال البضائع، حتى إذا حصل البائع على خدمات أخرى.

٩-٢ إذا تأخر الشحن بسبب ظروف لا يعد البائع مسئولاً عنها، فستنتقل المخاطر إلى المشتري من يوم الإبلاغ عن الاستعداد للشحن. يقوم البائع بتأمين الإرسال ضد الأضرار الناتجة عن الكسر أو النقل أو النار أو المياه على نفقة المشتري وبناء على طلب كتابي منه.

٩-٣ لن يتم استرداد عبوات النقل وكل العبوات الأخرى وفقًا لقوانين التعبئة والتغليف، وذلك باستثناء لوحات التحميل. يتعهد المشتري بأن يتولى التخلص من العبوات على نفقته الخاصة.

١٠- وسائل الإنتاج

١٠-١ طالما أن المشتري يوفر للبائع وسائل إنتاج (مثل الأدوات والأشكال)، فيجب إرسالها للبائع بدون أية رسوم أو نفقات. ولن يتحمل البائع أية مسؤولية عن تعطلها أو تلفها أو عدم اكتمال حالتها عند إعادة تسليمها ولا عن الأضرار التي تنتج عن ذلك، ولا يسري ذلك على حالات التعمد أو الإهمال الجسيم. ولا يسري ذلك طالما كانت هناك قوانين تستوجب المسؤولية.

١٠-٢ في حالة قيام البائع بتصنيع أو شراء وسائل إنتاج باسم المشتري، فسوف يضيف البائع التكاليف الناتجة عن ذلك في الفاتورة بشكل منفصل. وتظل وسائل الإنتاج ملكية خاصة للبائع. والبائع غير ملزم بإعادتها إلى المشتري. ويسري ذلك أيضاً على أدوات الضبط. ويظل التنظيم التالي الوارد في بند ١٠-٣ غير متأثرًا بذلك.

١٠-٣ في حالة إهلاك نفقات وسائل الإنتاج عن طريق سعر الأجزاء، فسيتحمل المشتري، في حالة عدم إهلاك إحدى الأدوات، النفقات غير المدفوعة بما في ذلك نفقات التجهيزات الأخرى المرتبطة بذلك. يقوم المشتري دائمًا بتحمل النفقات المستحقة عن الموديلات بالكامل.

١٠-٤ الرسومات والمستندات التي يقوم البائع بتسليمها للمشتري، وكذلك النماذج التي يقترحها البائع لتصميم الأشكال ولإنتاج البضاعة لا يجوز تمريرها لطرف آخر، ويمكن أن يقوم البائع باستردادها في أي وقت.

١١- ضمان العيوب / المسؤولية القانونية

١١-١ لا يعد البائع مسئولاً عن الأضرار التي تنشأ عن عدم الالتزام بتعليمات الاستعمال والصيانة والتركيب أو بسبب الاستخدام غير المناسب أو غير السليم أو المخالف للتعليمات، أو بسبب التعامل الخاطئ أو الإهمال في التعامل مع البضاعة أو العوامل الطبيعية للتآكل أو التخزين الخاطئ أو قيام المشتري أو أي طرف آخر بإدخال تعديلات على البضاعة. يجب ألا يقوم المشتري أو الأطراف الأخرى بتركيب البضاعة إلا بمعرفة فنيين متخصصين وبارعين.

١١-٢ يحق للبائع الاختيار بين إدخال تحسينات لاحقة وتوفير توريد جديد.

١١-٣ لن يتحمل البائع النفقات اللازمة لغرض إصلاح العيوب طالما ارتفعت النفقات بسبب إحضار البضاعة، بعد التوريد، في موضع آخر بخلاف مكان التوريد الأصلي.

١١-٤ لا يعد البائع مسئولاً عن النفقات التي يتكبدها المشتري في إطار فكّ بضاعة معيبة وتركيب بضاعة موردة حديثًا أو مُحسنة.

١١-٥ يسقط الحق في المطالبات الناشئة عن ضمان العيوب بعد عام واحد من تسليم البضائع، ما لم تكن مطالبات ضمان العيوب قائمة على قيام البائع أو وكلائه بخرق الالتزام عن عمد أو بإهمال جسيم، أو قائمة بسبب تهديد الحياة أو وقوع إصابات جسدية أو أضرار صحية.

١١-٦ يلتزم المشتري بالامتثال للالتزام بإجراء الفحص وفقًا للمادة ٣٧٧ من القانون التجاري الألماني، وذلك حتى في حالات إعادة بيع البضاعة.

١١-٧ يُستبعد حق المشتري في الرجوع على البائع بسبب مثل هذه المطالبات الناشئة عن ضمان العيوب، والتي يتقدم بها العملاء ضد المشتري، ويكون هذا الاستبعاد في حالة عدم امتثال المشتري للالتزام بالفحص والإخطار بالعيوب أو القيام بإدخال تعديلات على البضاعة من خلال معالجتها.

١١-٨ تقع مسئولية البائع القانونية عن تعويض الأضرار، بدون قيود، وفقًا للبنود القانونية، إذا كانت حالة مخالفة الالتزام، التي تسبب فيها البائع، تقوم على التعمد أو الإهمال الجسيم. طالما أن حالة مخالفة الالتزام، التي تسبب فيها البائع، تقوم على إهمال طفيف، وأنه قد تم خرق التزام تعاقدي جوهري يُؤاخذ عليه، فسيقتصر ضمان تعويض الأضرار على الضرر المتوقع والذي يحدث عادة في حالات مشابهة. بخلاف ذلك تُستبعد المسؤولية القانونية.

١١-٩ تظل المسؤولية القانونية وفقًا لبنود قانون الضمان على المنتجات أو ما شابه من حقوق واجبة وردت بتشريعات قانونية أجنبية سارية، غير متأثرة. كما تظل المسؤولية القانونية عن تهديد الحياة أو وقوع إصابات جسدية أو أضرار صحية، غير متأثرة.

١١-١٠ طالما أن المسؤولية القانونية تقوم على الحقائق الواردة في البند ١١-٩، ففي حالة التشريعات القانونية الأجنبية، ستقتصر مسؤولية البائع القانونية بالنسبة المشتري بقدر ما يجيزه القانون الأجنبي المعني.

١١-١١ طالما أن ضمان تعويض الأضرار مستبعد أو مقيّد بالنسبة للبائع، فإن هذا يسري أيضاً فيما يتعلق بالضمان الشخصي لتعويض الأضرار بالنسبة للموظفين والمندوبين والوكلاء التابعين للبائع.

١٢- حظر التنازل

تعد جميع مطالبات المشتري ضد البائع غير قابلة للتنازل.

١٣- الضمان على المنتجات / التزامات الإخطار

١٣-١ لا يجوز للمشتري استخدام البضاعة إلا طبقًا للتعليمات، ولذلك ينبغي عليه أن يحرص على ألا يعيد بيع هذه البضاعة إلا لأشخاص على علم بأخطار المنتج ومخاطره.

١٣-٢ يلتزم المشتري عند استخدام البضاعة كمكون رئيسي أو منتج فرعي بمنتجاته، بالامتثال للالتزام بالإشعار فيما يتعلق بالبضاعة المورّدة من البائع، وذلك عند طرح المنتج النهائي في الأسواق. يقوم المشتري بإعفاء البائع، فيما بينهم، من تنفيذ مطالبات في حالة خرق هذا الالتزام عند الطلب الأول.

١٤- السرية

ينبغي على المشتري التعامل مع كل المعلومات التجارية والتقنية التي حصل عليها من البائع باعتبارها أسرار عمل وأسرار تجارية لا تُكشف لأطراف أخرى، طالما أنها ليست معروفة بشكل عام. ولا يجوز نقل مثل هذه المعلومات إلى أطراف أخرى إلا لغرض تعاقدي، وتكون هذه الأطراف ملتزمة باتفاقية عدم إفشاء ملائمة.

١٥- أمور أخرى

١٥-١ موقع التوريد هو مكان مصنع البائع المعني.

١٥-٢ المحكمة المختصة بجميع النزاعات الناشئة عن العقد هي محكمة هايلبرون. ولكن يحق للبائع أيضًا تقديم شكوى ضد المشتري في المحكمة العمومية التي يتبعها.

١٥-٣ لتنفيذ العقود القائمة على شروط البيع والتوريد هذه يسري فقط القانون الألماني، مع استبعاد لجنة قانون التصادمات واتفاقية الأمم المتحدة بشأن عقود البيع الدولي للبضائع.

١٥-٤ تلتزم الأطراف، في إطار تنفيذ العلاقة التعاقدية، بالامتثال لجميع البنود القانونية السارية (الامتثال للقوانين).

١٥-٥ تسري الاتفاقات المنفصلة المبرمة بين الطرفين، والتي تختلف عن شروط البيع والتوريد هذه أو تعد مكملةً لها، ويكون لها الأسبقية.

١٥-٦ إذا أصبح بند أو أكثر من البنود سالفة الذكر غير فعال كليًا أو جزئيًا، فلن يؤثر ذلك على صلاحية البنود المتبقية. وعندئذ يحل البند الجائز قانونيًا محل البند الباطل بغرض الوصول لشروط البيع والتوريد هذه بنفس الطريقة بأقصى ما يمكن.
