### IMPORTANT INSTRUCTIONS

---

All information in this catalogue is non-binding. We can accept no responsibility for its correctness and completeness. We always welcome feedback about any errors in the catalogue, and will correct them in future editions.

Names, descriptions and number information for vehicles or manufacturers etc., as well as the original parts numbers of the vehicle and engine manufacturer, are listed for comparison purposes only. These details are not designations of origin and must not be used in relation to third parties. Please also note that modifications to equipment by vehicle or engine manufacturers, or changes to designations, cannot be excluded. We can therefore accept no liability for the use of comparison lists.

We reserve the right to change the product specifications, materials, the appearance and the scope of supply of our products at any time. The figures in the catalogue are therefore non-binding.

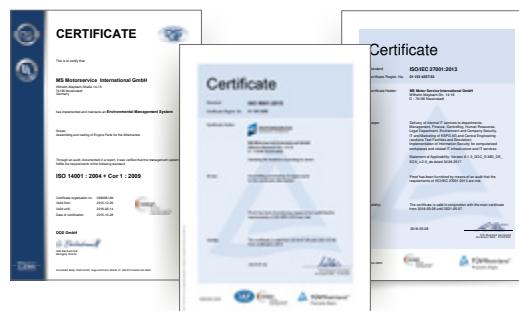

Before the installation, always check whether the purchased product is suitable for the intended purpose. Please note that the products offered in the catalogue are not intended for use in aircraft and spacecraft. If using in marine or stationary engines, please note that different engine parts (e.g. pistons) may be used, even if the engine designation is the same. Before installing the products, it may therefore be necessary to seek expert advice from the manufacturer or its authorised repair shop. The installation must also always be carried out by qualified personnel. Illustrations, schematic diagrams and other data are provided for the purpose of explanation and depiction, and cannot be taken as the basis for installation.

Reprinting, imitation and reproduction of this catalogue in whole or in part is permitted only with our written consent and with reference to the source. On publication of this catalogue, all previous versions become invalid.
