<sup>1</sup> for the Brazilian market.

**Possible complaint:**

- The fuel gauge indicates an incorrect fuel level

When incorrectly assigning electric fuel pump 7.00468.86.0 and vehicle, it is possible that the fuel level is indicated in the “opposite” way.

**Example:**

- Fuel gauge indicates “Full” when the tank is empty.
- Fuel gauge indicates “Empty” when the tank is full.

From the side of the manufacturer, pumping modules equipped with two different filling level sensors have been built into the vehicles.

**Note:**

When ordering, please differentiate specifically according to vehicle identification number, engine code and model year!
