

NEW

Fuel pump product range

217 fuel pumps and fuel supply units for 60 years of Citroën, Peugeot and Renault vehicles

PIERBURG has been a specialist for fuel supply components for more than 100 years.

This is what long-standing PIERBURG customers value most with regard to fuel pumps: a comprehensive product range, quality and an ability to supply, as well as the know-how and service of an OEM.

PIERBURG fuel pumps have been fulfilling the high quality requirements of vehicle manufacturers for decades. Our product range of fuel pumps and fuel supply units covers 60 years of Citroën, Peugeot and Renault vehicles alone.

Whether petrol or diesel, mechanical or electrical – our fuel pumps are characterised by quality, high availability and fair market prices.

Detailed information about the product range and applications can be found in the current PIERBURG catalogue.

Quality and reliability

OE supplier with tradition

Expertise and service

Advantages of PIERBURG fuel pumps:

- 217 fuel pumps and fuel supply units for French vehicles
- Market coverage of almost 80%
- For veteran cars, classic cars and cutting-edge models
- Universal fuel pumps as a replacement for mechanical fuel pumps in veteran cars which are no longer available
