

NEW

Fuel pump program almost 60 years of BMW

PIERBURG has been a specialist for fuel supply components for more than 100 years.

This is what long-standing PIERBURG customers value most with regard to fuel pumps: a comprehensive product range, quality and an ability to supply as well as the know-how and service of an OEM.

From mechanical to brushless, on-demand fuel pumps – from veteran cars to state-of-the-art: our product range of fuel pumps and fuel supply units covers a vehicle range of almost 60 years for BMW vehicles alone. Whether petrol or diesel, mechanical or electrical – our fuel pumps are characterised by quality, high performance and fair market prices.

Advantage of PIERBURG fuel pumps:

- 30 fuel pumps and fuel supply units for BMW included in program
- More than 60% market coverage
- For veteran cars, classic cars and cutting-edge models
- Universal fuel pumps as replacement for mechanical fuel pumps in veteran cars which are no longer available

Quality and reliability

OE supplier with tradition

Know-how and service

Detailed information about the product range and applications can be found in the current PIERBURG catalogue.
