

Fuel pump range

for 77 years of Mercedes-Benz vehicles

PIERBURG has been a specialist for fuel supply components for more than 100 years.

This is what long-standing PIERBURG customers value most with regard to fuel pumps: A comprehensive range, quality and an ability to supply as well as the expertise and service of an OEM.

PIERBURG fuel pumps have been fulfilling the high quality requirements of vehicle manufacturers for decades. Our range of fuel pumps and fuel supply units covers the time span from 1936 to the present day for Mercedes-Benz vehicles alone.

Benefits of PIERBURG fuel pumps:

- 45 fuel pumps and fuel supply units for Mercedes-Benz in the range
- More than 75% market coverage in some areas
- For veteran cars, classic cars and cutting-edge models
- Universal fuel pumps as a replacement for mechanical fuel pumps in veteran cars which are no longer available

Whether petrol or diesel, mechanical or electrical – our fuel pumps are characterised by quality, high availability and fair market prices.

Detailed information about the range and applications can be found in the current PIERBURG catalogue.
