

# KSPG Group is restructuring

The KSPG group has streamlined its internal management structure, while strengthening its core fields of activity. The previous six divisions of the KSPG AG are now bundled into three divisions: **Hardparts**, **Mechatronics** and **Motorservice**. "With this reorganization, we give our divisions greater operational responsibility, while allowing them to focus more strategically on the respective business area," says Dr. Gerd Kleinert, chairman of the board of KSPG AG, about the background of the reorganization.

Additional advantages of the new structure from the company's perspective are the improved possibilities of managing processes cross-divisional and to further improve them. Furthermore, the new organization is to shorten the decision-making procedure, lead to an increase in performance and offer more flexibility of the company's activities for the international customers in the automotive industry.

**KOLBENSCHMIDT**

#### **Division Hardparts**

Therefore, in future, the division Hardparts includes the development and manufacture of large bore pistons and pistons for passenger cars and trucks under the unit KS Kolbenschmidt as well as KS Aluminum Technology, which is specialized on engine blocks, cylinder heads and structural components, and KS Bearings, which comprises the business of bearings and bushes.

**PIERBURG**

#### **Division Mechatronics**

The Mechatronics division includes the Pierburg GmbH, which operates in the areas of emission control and air supply as well as actuators and solenoid valves for passenger cars and utility vehicles. Furthermore, this division belongs to the Pierburg Pump Technology GmbH, an international supplier of coolant, oil and vacuum pumps.

**MOTOR  
SERVICE**

#### **Division Motorservice**

The Motorservice division comprises all after-market activities of the KSPG group for the global spare parts business. Management of the Motorservice division rests with Hansjörg Rölle, who has been a member of the company group since 1986 and has been heading the spare parts business of KSPG since 2002.

#### **KSPG (Kolbenschmidt Pierburg). Renowned supplier to the international automotive industry.**

As long-standing partners to the automotive industry, the companies in the KSPG Group develop innovative components and system solutions with acknowledged competence for air supply and emission control, for oil and water pumps, for pistons, engine blocks and engine bearings. The products comply with the high demands and quality standards of the automotive industry. Low emission, reduced fuel consumption, reliability, quality and safety – these are the forces that drive innovation at Kolbenschmidt Pierburg.

#### **Motor Service Group. Quality and Service from a single source.**

The Motor Service Group is the sales organisation for the worldwide aftermarket activities of Kolbenschmidt Pierburg. It is one of the leading suppliers of engine components for the independent aftermarket including the premium brands KOLBENSCHMIDT, PIERBURG and TRW Engine Components. Our comprehensive product range allows our customers to procure engine components from a single source. As a problem solver for dealers and repair shops, Motor Service offers extensive services and the technical expertise that you would expect from the subsidiary of one of the largest automotive suppliers.
