

NEW

Electropneumatic Pressure Transducer for Millions of Vehicles

Additions to the Product Range

The Motor Service programme was expanded by 5 electropneumatic pressure transducers, used in millions of vehicles from BMW, Citroën, Fiat, Ford, Lancia, Mazda, Opel, Peugeot and Vauxhall.

These solenoid valves are manufactured with the most modern manufacturing methods in OE quality and meet the Motor Service quality standards.

Electro-pneumatic transducers produce a control pressure for the operation of various pneumatic actuators in vehicles.

These are, e.g.

- Exhaust gas flaps
- Exhaust gas recirculation valves
- Regulating throttles
- Blade adjustment in VTG chargers

NEW!

High vehicle coverage

Motor Service quality standard

Not replaceable by competitors

A summary of the vehicle and engine applications as well as the corresponding reference numbers of the original manufacturer can be found on the back. For exact details about applications, please refer to our current catalogue, CD or OnlineShop.

Motor Service Partner

Motor Service Group. Quality and Service from a single source.

The Motor Service Group is the sales organisation for the worldwide aftermarket activities of Kolbenschmidt Pierburg. It is one of the leading suppliers of engine components for the independent aftermarket including the premium brands KOLBENSCHMIDT, PIERBURG and TRW Engine Components. Our comprehensive product range allows our customers to procure engine components from a single source. As a problem solver for dealers and garages, Motor Service offers extensive services and the technical expertise that you would expect from the subsidiary of one of the largest automotive suppliers.

Kolbenschmidt Pierburg. Renowned supplier to the international automotive industry.

As long-standing partners to the automotive industry, the companies in the Kolbenschmidt Pierburg Group develop innovative components and system solutions with acknowledged competence in air supply and emission control, for oil and water pumps, for pistons, engine blocks and engine bearings. The products comply with the high demands and quality standards of the automotive industry. Low emissions, reduced fuel consumption, reliability, quality and safety – these are the forces that drive innovation at Kolbenschmidt Pierburg.
