

NEW

Premium quality lambda sensors

Expanded product range

Motor Service is expanding its catalogue of emission control products with a new range of lambda sensors.

The range of lambda sensors has now been expanded to 250 models with the new item numbers 7.02604.16.099.0, 7.05270.00.099.0 and 7.05271.00.030.0.

Lambda sensors measure the oxygen content in the exhaust gas. They are the most important element in engine management systems in terms of ensuring perfect engine running with low emissions.

250 models

Also for diesel applications

Wide range of application in European vehicles

4 additional universal models (1 to 4 cores)

Lambda sensors now available for the following applications:
